ABSTRACT

Before the author writes about empirical evidence, paradise and hell exist on earth, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secrets of empirical evidence, paradise and hell exist on earth, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets regarding empirical evidence, paradise and hell exist on earth, namely the following verses:

"So when I have perfected the body and breathed into Adam my spirit, then you will fall down and prostrate to him (Shaad: 38: 72)

"In paradise there is plenty of fruit for you, of which you may eat. (Az Zukhruf : 43: 73)

"You will enter paradise, you and your wives will be happy (Az Zukhruf: 43: 70)

"Those who were before and first from the Muhajirin and Ansar and those who followed them well, Allah was pleased with them and they were pleased with Allah and Allah prepared for them paradise in which rivers flowed, forever. They remain in it. That's a big win. (At Taubah: 9: 100)

"Their faces are burned by the fire of hell, and they are disfigured in hell. (Al Mu'minuun: 23:104)

"And indeed, We have made for Hell most of the jinn and humans, they have hearts, but they are not used to understand, and they have eyes that are not used to see, and they have ears that are not used to hear. They are livestock, they are even more misguided. They are negligent people. (Al A'raaf : 7: 179)

"And if We had willed, We would have given every soul guidance, but this has remained a word from Me: "Indeed, I will fill hell with jinn and humans together (As Sajdah : 32: 13)

In an effort to uncover the veil of Allah's secrets regarding empirical evidence, paradise and hell exist on earth, the author uses the basis of deoxyribonucleic acid.

HYPOTHESES

Here the author proposes hypothesis of empirical evidence, paradise and hell exist on earth, based on Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information which has a double structure that forms a double helix and which contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

EMPIRICAL EVIDENCE, PARADISE AND HELL EXIST ON EARTH

So now, we still continue to focus all our thoughts on uncovering the secret stored behind the verse: *"...paradise in which rivers flowed, forever...(At Taubah: 9: 100)"* *"In paradise there is plenty of fruit for you...(Az Zukhruf: 43: 73)"* *"...We made for Hell most of the jinn and humans...(Al A'raaf: 7: 179)"* *"Their faces are burned by the fire of hell...(Al Mu 'minuun: 23:104)"* *"...I breathed into Adam my spirit...(Shaad: 38: 72)"*

Well, here Allah or God or Jahve or Jehovah or Gusti has declared *"...paradise in which rivers flowed...(At Taubah: 9: 100)"* *"...We made for Hell most of the jinn and humans...(Al A'raaf: 7: 179)"*

Well, it turns out that in *"...paradise in which rivers flowed...(At Taubah: 9: 100)"*, while in *"...Hell most of the jinn and humans...(Al A'raaf: 7: 179)"*.

So now the question arises,

What is actually meant by Allah or by God or by Jahve or by Jehovah or by Gusti *"...paradise in which rivers flowed...(At Taubah: 9: 100)"* and in *"...Hell most of the jinn and humans...(Al A'raaf: 7: 179)"* ?

Well, it turns out that what Allah or God or Jahve or Jehovah or Gusti means by *"...paradise in which rivers flowed...(At Taubah: 9: 100)"* are rivers filled with water, where water is a combination of hydrogen atoms and oxygen atoms.

So what is actually needed in paradise is hydrogen atoms and oxygen atoms.

Why do you need hydrogen atoms and oxygen atoms in paradise?

Because those who live in paradise are humans in the form of human spirits or *"...my spirit...(Shaad: 38: 72)"* or *"...Allah's spirit...(Shaad: 38: 72)"* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system.

So, not humans with bodies like humans still living on earth, complete with flesh, bones, blood, heart, lungs, skin and all other body organs, but humans living in heaven with bodies in the form of human spirits or *"...my spirit...(Shaad: 38: 72)"* or *"...Allah's spirit...(Shaad: 38: 72)"* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system.

Likewise, humans who live in *"...hell...(Al A'raaf: 7: 179)"* are humans including *"...jinn...(Al A'raaf: 7: 179)"* in the form of human spirits and the spirit of jinn or *"...my spirit...(Shaad: 38: 72)"* or *"...Allah's spirit...(Shaad: 38: 72)"* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that forms the nervous system.

Well, the fuel in hell is hydrogen atoms, just like the fuel in the sun. Because of that, Allah or God

or Jahve or Jehovah or Gusti declared *"...Hell most of the jinn and humans...(Al A'raaf : 7: 179)*

Well, because in the human body and in the body of the jinn in the form of a human spirit and a genie spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system, then the hydrogen atoms are taken to be used as fuel for hell.

Well now, because when a human dies, after 2-30 days in the grave, the human spirit comes out or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system gathered in one place not far from the grave.

Well, that place is paradise and hell.

Now paradise is a gathering place for human spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that form the nervous system.

Likewise, hell is a gathering place for human spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that form the nervous system.

Paradise and hell are not far apart, where there is paradise there is hell.

So now, because the human body is built with **7000000000 000000000 000000000** atoms including hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, then these atoms are not included in the human spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)*, then it is used by living humans, by living animals, by plants and flowers, by fungi, bacteria, amoeba, viruses and by other living organisms.

Like carbon dioxide that comes out of the bodies of humans who die in the grave is absorbed by plants and flowers, carbon atoms are used as glucose for food for plants and flowers, oxygen atoms are released again, inhaled by humans and animals as well as by bacteria, amoeba and viruses.

So, of the **7000000000 000000000 000000000** atoms including hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that come out of the dead human body are reused by humans, by animals, by plants, flowers, fungi, amoeba, bacteria and viruses.

So actually, in *"...paradise in which rivers flowed...(At Taubah: 9: 100)* and in *"...Hell most of the jinn and humans...(Al A'raaf : 7: 179)* refers to oxygen atoms, hydrogen atoms are indispensable in paradise, likewise hydrogen atoms are indispensable in hell.

Therefore paradise and *"...hell...(Al A'raaf : 7: 179)* exist on this earth, because on this earth there are oxygen atoms, hydrogen atoms, nitrogen atoms, carbon atoms and other atoms .

Well, this is something that almost all humans and almost all Muslims in the world still don't understand.

CONCLUSION

Based on the description above we can conclude that the secret stored behind the verse: *"...paradise in which rivers flowed, forever...(At Taubah: 9: 100)"In paradise there is plenty of fruit for you...(Az*

Zukhruf : 43: 73) "...We made for Hell most of the jinn and humans...(Al A'raaf : 7: 179)" "Their faces are burned by the fire of hell...(Al Mu 'minuun : 23:104)" "...I breathed into Adam my spirit...(Shaad : 38: 72)

Well, here Allah or God or Jahve or Jehovah or Gusti has declared *"...paradise in which rivers flowed...(At Taubah: 9: 100)" "...We made for Hell most of the jinn and humans...(Al A'raaf : 7: 179)*

Well, it turns out that in *"...paradise in which rivers flowed...(At Taubah: 9: 100)*, while in *"...Hell most of the jinn and humans...(Al A'raaf : 7: 179)*.

So now the question arises,

What is actually meant by Allah or by God or by Jahve or by Jehovah or by Gusti *"...paradise in which rivers flowed...(At Taubah: 9: 100)* and in *"...Hell most of the jinn and humans...(Al A'raaf : 7: 179) ?*

Well, it turns out that what Allah or God or Jahve or Jehovah or Gusti means by *"...paradise in which rivers flowed...(At Taubah: 9: 100)* are rivers filled with water, where water is a combination of hydrogen atoms and oxygen atoms.

So what is actually needed in paradise is hydrogen atoms and oxygen atoms.

Why do you need hydrogen atoms and oxygen atoms in paradise?

Because those who live in paradise are humans in the form of human spirits or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms , carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system.

So, not humans with bodies like humans still living on earth, complete with flesh, bones, blood, heart, lungs, skin and all other body organs, but humans living in heaven with bodies in the form of human spirits or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which form the nervous system.

Likewise, humans who live in *"...hell...(Al A'raaf: 7: 179)* are humans including *"...jinn...(Al A'raaf: 7: 179)* in the form of human spirits and the spirit of jinn or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that forms the nervous system.

Well, the fuel in hell is hydrogen atoms, just like the fuel in the sun. Because of that, Allah or God or Jahve or Jehovah or Gusti declared *"...Hell most of the jinn and humans...(Al A'raaf : 7: 179)*

Well, that place is paradise and hell.

Now paradise is a gathering place for human spirit or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's*

spirit...(Shaad: 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that form the nervous system.

Likewise, hell is a gathering place for human spirit or "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms that form the nervous system.

Paradise and hell are not far apart, where there is paradise there is hell.
