**ABSTRACT**

Before I get into trouble, every second a human being, through my spirit, can meet and see Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret, every second humans, through my spirit, can meet and see Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about every second humans, through my spirit, can meet and see Allah, namely the verses:

*"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24: 35)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"... Jesus, the son of Mary, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4: 171)*

*"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)*

*"Have you not seen that Allah has subjected to you what is in the heavens and what is in the earth and has perfected for you His blessings both outwardly and inwardly. And among mankind there are those who dispute about Allah without knowledge or guidance and without an enlightening Book. (Luqman: 31:20)*

*"And indeed We have revealed to Moses: "Go you with My servants at night, then make for them a dry road in the sea, you do not have to worry about being overtaken and do not have to be afraid." (Thaaha: 20:77)*

*"And when We parted the sea for you, then We saved you and We drowned you and your followers while you were watching. (Al Baqarah: 2:50)*

*The people of Moses said: "We were oppressed before you came to us and after you came. Moses replied: "Hopefully Allah will destroy your enemies and make you vicegerents on earth, then Allah will see how you do (Al A'raaf: 7: 129)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him*

*than his jugular vein." (Qaf: 50:16)*

*"The seven heavens, the earth and all that is in it glorify Allah. And there is nothing but glorify Him by praising Him, but you all do not understand their prayer beads. Indeed, He is Most Forbearing, Most Forgiving (Al Israa ': 17: 17). 44)*

*"Then He perfected and breathed into it His spirit and He made for you hearing and sight and hearts; you are very grateful. (As Sajdah: 32: 9)*

In an effort to open the veil of Allah's secret about every second human, through my spirit, can meet and see Allah, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes a hypothesis that every second human, through *"... the spirit of Ku... (Al Hijr: 15: 29)* , can meet and see God, seen from the basic point of Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **NO NEED THROUGH THE PATH OF THE PROPHET MUSA TO SEE ALLAH**

Now, we are still trying to focus our minds to reveal the secrets that are stored in the verse:

*"...Moses said: "O my Lord, show me so that I can see You." Allah said: "You can never see Me, but look at the hill, so if it stays where it is, you will surely see Me..." (Al A'raaf: 7:143)*

It turns out, actually to see Allah, it doesn't need to be done like the Prophet Moses, but through a very short path, namely through the path of *"... my spirit... (Al Hijr: 15: 29)*

Why was the path of Prophet Musa replaced by Allah with the path of *"...hill...(Al A'raaf: 7: 143)?*

The answer is,

Hidden in the secret behind the verse: *"... I... have blown into it my spirit... (Al Hijr: 15: 29)*

Well, it turns out that here God has replaced the path of Prophet Moses with the path of *"... my spirit... (Al Hijr: 15: 29)*

Because the path *"... My Spirit... (Al Hijr: 15: 29)* contains a spirit that is breathed by Allah, which contains elements of hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

Where these atoms are the source for the creation of the universe and everything in it, including living creatures and organisms that exist in the heavens and on earth.

Because in "...hill...(Al A'raaf: 7:143) contains soil and rock, while in soil and rock contains hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, then in fact, Allah describes that for seeing Allah is through "... my spirit... (Al Hijr: 15: 29)

## MY SPIRIT IS A VERY SHORT PATH TO MEET AND SEE ALLAH

Well, why should humans follow the path of Prophet Moses to meet and see Allah?

The answer is

Hidden in the secret behind the verse: "... you all do not understand... (Al Israa ': 17: 44)  
That is, humans do not understand and realize that in him there is already "... my spirit... (Al Hijr: 15: 29)

Well, because in man there is already "... my spirit... (Al Hijr: 15: 29) , then Allah is "...closer to him than his jugular vein (Qaaf: 50:16)

So, because Allah is "...closer to him than his jugular vein (Qaaf: 50:16), then humans can meet and see Allah every second.

Also, because "... my spirit... (Al Hijr: 15: 29) is in "... the light of the skys and the earth... The light upon the light... (An Nuur: 24: 35)

It means "... my spirit... (Al Hijr: 15: 29) contains a hydrogen atom, where "Allah is the light of the heavens and the earth... (An Nuur: 24: 35) is derived from a hydrogen atom. which gives rise to light in the star or star closest to us is the sun.

So, "... my spirit... (Al Hijr: 15: 29) which contains this hydrogen atom which gives birth to "Allah is the light of the skys and the earth... Light is above light... (An Nuur: 24: 35) that humans can see every day.

Or in other words, humans can see Allah directly through "... my spirit... (Al Hijr: 15: 29) which is in "Allah, the light of the skys and the earth... (An Nuur: 24: 35)

## CONCLUSION

Based on the description above, we can conclude that the secrets that are stored in the verse: "...Moses said: "O my Lord, show me so that I can see You." Allah said: "You can never see Me, but look at the hill, so if it stays where it is, you will surely see Me..." (Al A'raaf: 7:143)
