## ABSTRACT

Before the author writes down the problem of humans being created from atoms back to atoms according to Allah's law, the law of haq, the law of balance, the law of taqdir and the law of nature, the writer first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about humans being created from atoms back to atoms according to Allah's law, the law of haq, the law of balance, the law of taqdir and the law of nature, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open the secret of Allah about humans being created from atoms back to atoms according to Allah's law, the law of haq, the law of balance, the law of taqdir and the law of nature, namely the following verses:

*"And indeed We have created human from an essence of soil (Al Mu'minuun: 23: 12).*

*"Then We made the essence of soil becomes semen in a firm place (Al Mu'minuun: 23: 13).*

*"Then We made the semen into a clot of blood, then We made the clot of blood into a lump of flesh, and the lump of flesh We made into bones, then We wrapped the bones in flesh. Then We made him into another creature. So, Glory be to Allah, The Best Creator (Al Mu'minuun: 23: 14).*

*"So when I have perfected the existence of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad : 38: 72).*

*"So when I have perfected the life of Adam and have breathed into Adam my spirit, then you will submit to him by prostrating (Al Hijr: 15: 29).*

*"Then He perfected Adam and breathed into Adam His spirit and He made for you hearing , sight and heart, you have little gratitude. (As Sajdah: 32: 9).*

*"And indeed We have created human and know what his heart whispers, and We are closer to human than his jugular vein." (Qaf: 50:16).*

*"He who made the earth as a covering for you and the sky as a roof, and He sent down water from the sky, then He produced with that rain all the fruits as a sustenance for you, so do not give partners to Allah, even though you know. ( Al Baqarah : 2: 22).*

In an effort to open the veil of Allah's secret about humans being created from atoms back to atoms according to Allah's law, the law of haq, the law of balance, the law of taqdir and the law of nature, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here the author proposes the hypothesis that Allah created humans from carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms, Allah created the seven skys from carbon atoms,

nitrogen atoms, hydrogen atoms and oxygen atoms, according to Allah's law, the law of haq, the law of balance, the law of taqdir and the law of nature, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% ato carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **GOD IS UNITED WITH HUMAN THROUGH GOD'S ENERGY, GOD'S PARTICLE, GOD'S SPIRIT, BUT HUMAN DO NOT UNDERSTAND**

Now, we are still concentrating on uncovering the secrets contained behind the verses: "*... We have created human from the essence of soil (Al Mu'minuun: 23: 12) "...We made the essence of soil becomes semen in a firm place (Al Mu'minuun: 23: 13)"...We made the semen into blood... flesh... bone...(Al Mu'minuun: 23: 14).*

Well, here Allah has declared "*... We have created man from the essence of the soil (Al Mu'minuun: 23: 12) "...We made the essence of soil becomes semen in a solid place (Al Mu'minuun: 23: 13) "...We made the semen into blood... flesh... bones...(Al Mu'minuun: 23:14).*

Now the question arises,

What exactly, is meant by Allah "*... the essence of soil (Al Mu'minuun: 23: 12)?*

The answer is that soil contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Well, carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms form "*...semen...(Al Mu'minuun: 23: 13).*

Inside the “...*semen...*(*Al Mu'minuun: 23: 13*) contains Deoxyribonucleic acid or DNA. Where in DNA contains 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually humans are created from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms which form Deoxyribonucleic acid or DNA.

DNA is what “...*make... hearing, sight and heart...* (*As Sajdah: 32: 9*)

Well, based on this DNA also formed “...*blood...flesh...bone...*(*Al Mu'minuun: 23:14*) which forms the fetus. Or in other words, based on this DNA “... *We made... creatures...* (*Al Mu'minuun: 23: 14*)

So actually humans were created from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Or in other words, man was created from “...*my spirit...*(*Shaad: 38:72*) or “...*Allah's spirit...* (*Shaad: 38:72*)

Likewise, Allah has declared “*Allah who made the earth a bed for you and the sky a roof...* (*Al Baqarah: 2: 22*)

It turns out that Allah has “...*made the earth...and the sky...*(*Al Baqarah: 2:22*) Where, “...*the earth...and the sky...*(*Al Baqarah: 2:22*) made of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. As for “...*the sky...*(*Al Baqarah: 2:22*) is a stretch of room on which there is “...*earth...*(*Al Baqarah: 2:22*)

So, actually Allah created the skys, the earth and humans from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Or in other words, Allah created the skys, the earth and humans from “...*my spirit...*(*Shaad: 38:72*) or “...*Allah's spirit...*(*Shaad: 38:72*), because “...*my spirit...*(*Shaad: 38:72*) or “...*Allah's spirit...*(*Shaad: 38:72*) which is built from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Now, “...*my spirit...*(*Shaad: 38:72*) or “...*Allah's spirit...*(*Shaad: 38:72*) is built with carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms, where carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms are formed with quarks, quarks are formed with Allah's energy or God's energy through Allah's particle.

Now Allah's energy or God's energy is very small **0.000000000 000000000 000000000 01** grams per cubic cm.

Likewise, the particle of God is very small, almost non-existent, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** grams, which has a speed of more than the speed of light **5 475 103 664 604.84** km per second.

Where Allah's energy or God's energy through God's particle forms quark in a period of **0.000000000 000000000 000000000 000000000 001** seconds, creating quark, which will become the core of hydrogen atom and other atoms.

So actually, in every human body there is God's spirit, God's particle, God's energy.

Or in other words, in every human body there is Allah or God as declared by Allah or God “...*We are closer to human than his jugular vein.*(*Qaf: 50:16*).

Now this is what is not understood by all humans including all Muslims in the world, all Christians

and all Jews.

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "... *We have created human from the essence of soil (Al Mu'minuun: 23: 12)* "... *We made the essence of soil becomes semen in a firm place (Al Mu'minuun: 23: 13)* "... *We made the semen into blood... flesh...bone... (Al Mu'minuun: 23: 14).*

Well, here Allah has declared "... *We have created man from the essence of the soil (Al Mu'minuun: 23: 12)* "... *We made the essence of soil becomes semen in a solid place (Al Mu'minuun: 23: 13)* "... *We made the semen into blood... flesh... bones... (Al Mu'minuun: 23:14).*

Now the question arises,

What exactly, is meant by Allah "...*the essence of soil (Al Mu'minuun: 23: 12)?*

The answer is that soil contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Well, carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms form "...*semen... (Al Mu'minuun: 23: 13).*

Inside the "...*semen... (Al Mu'minuun: 23: 13)* contains Deoxyribonucleic acid or DNA. Where in DNA contains 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, actually humans are created from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms which form Deoxyribonucleic acid or DNA.

DNA is what "...*make... hearing, sight and heart... (As Sajdah: 32: 9).*

Well, based on this DNA also formed "...*blood...flesh...bone... (Al Mu'minuun: 23:14)* which forms the fetus. Or in other words, based on this DNA "... *We made... creatures... (Al Mu'minuun: 23: 14).*

So actually humans were created from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Or in other words, man was created from "...*my spirit... (Shaad: 38:72)* or "...*Allah's spirit... (Shaad: 38:72)*

Likewise, Allah has declared "*Allah who made the earth a bed for you and the sky a roof... (Al Baqarah: 2: 22).*

It turns out that Allah has "...*made the earth...and the sky... (Al Baqarah: 2:22)* Where, "...*the earth...and the sky... (Al Baqarah: 2:22)* made of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. As for "...*the sky... (Al Baqarah: 2:22)* is a stretch of room on which there is "...*earth... (Al Baqarah: 2:22).*

So, actually Allah created the skys, the earth and humans from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms. Or in other words, Allah created the skys, the earth and humans from "...*my spirit... (Shaad: 38:72)* or "...*Allah's spirit... (Shaad: 38:72)*, because "...*my spirit... (Shaad: 38:72)* or "...*Allah's spirit... (Shaad: 38:72)* which is built from carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Now, "...*my spirit... (Shaad: 38:72)* or "...*Allah's spirit... (Shaad: 38:72)* is built with carbon atoms,

nitrogen atoms, oxygen atoms and hydrogen atoms, where carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms are formed with quarks, quarks are formed with Allah's energy or God's energy through Allah's particle.

Now Allah's energy or God's energy is very small **0.000000000 000000000 000000000 01** grams per cubic cm.

Likewise, the particle of God is very small, almost non-existent, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** grams, which has a speed of more than the speed of light **5 475 103 664 604.84** km per second.

Where Allah's energy or God's energy through God's particle forms quark in a period of **0.0000000000 0000000000 0000000000 0000000000 001** seconds, creating quark, which will become the core of hydrogen atom and other atoms.

So actually, in every human body there is God's spirit, God's particle, God's energy.

Or in other words, in every human body there is Allah or God as declared by Allah or God *"...We are closer to human than his jugular vein.(Qaf: 50:16).*

Now this is what is not understood by all humans including all Muslims in the world, all Christians and all Jews.
