ABSTRACT

Before I write down the problem of how Allah's energy is actually in the form of flash, lightning and thunder glorifying Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how Allah's energy in the form of flash, lightning and thunder glorifies Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how Allah's energy is actually in the form of flash, lightning and thunder glorifying God, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"The angels and spirit ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not

given to you but a little." (Al Israa ': 17: 85)

"And the thunder glorifies in praise of Allah, the angels fear Him, and Allah sends thunderbolts and strikes them upon whom He wills, and they argue about Allah, and He is the Lord, the Most severe in torment. (Ar Ra'd: 13:13)

"or like heavy rain from the sky accompanied by darkness, thunder and lightning; they plug their ears with their fingers, because of the lightning, for fear of death. And Allah covers those who disbelieve (Al Baqarah: 2: 19)

"The seven skys, the earth and all that is in it glorify Allah. And there is nothing but glorify Him by praising Him, but you all do not understand their prayer beads. Indeed, He is Most Forbearing, Most Forgiving. (Al Israa': 17 :44)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about how Allah's energy is actually in the form of lightning, lightning and thunder glorifying Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis of God's energy in the form of flash, lightning and thunder glorifying God, because in flash, lightning and thunder contain hydrogen atoms and oxygen atoms, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms

ALLAH'S ENERGY IN THE FORM OF FLASH, LIGHTNING AND THUNDER GLORIFY ALLAH

Now, we are still focusing our minds on uncovering the secret behind the verse: *"... the thunder glorifies by praising Allah... and Allah releases lightning, then strikes it on whom He wills... (Ar Ra'd: 13: 13)*

Apparently, here Allah has declared, that Allah's energy in the form of flash, lightning and thunder glorifies Allah.

How can Allah's energy in the form of lightning, thunder and thunder glorify Allah?

The answer is

Hidden in the secret behind the verse: *"The seven skys, the earth and all that is in it glorify Allah. And nothing but glorifies by praising Him, but you all do not understand their tasbih... (Al Israa ': 17: 44)*

It turns out, whatever is in the seven skys and their contents *"... glorify by praising... (Al Israa ': 17: 44) to Allah, only humans "... do not understand their tasbih... (Al Israa' : 17:44)*

So, Allah's energy in the form of flash, lightning and thunder glorifies Allah by following the natural laws that apply in the seven Skys. When there is a temperature difference between the temperature in cold air and hot air on land, it creates a large voltage in the form of energy that pushes the hydrogen atoms against each other, giving off light. Where the light produced by colliding hydrogen atoms is called flash. Likewise, due to the friction of hydrogen atoms with each other, they cause sound vibration waves called lightning and thunder.

Now, when Allah's energy is in the form of flash, lightning and thunder, carrying out Allah's commands is when it will rain. Where the difference in temperature between cold temperatures in the air and hot temperatures above on land, causes a reaction of Allah's energy that pushes hydrogen atoms to collide with each other, resulting in light waves and sound waves.

That's when Allah's energy in the form of flash, lightning and thunder glorifies by praising Allah. That is, submit to and obey the laws of nature, the laws that apply in the seven skys created by Allah.

CONCLUSION

From what has been explained above, it can now be concluded that the secret behind the verse: *"... the thunder glorifies by praising Allah... and Allah releases lightning, then strikes it on whom He wills... (Ar Ra'd: 13: 13)*

Apparently, here Allah has declared, that Allah's energy in the form of flash, lightning and thunder glorifies Allah.
