ABSTRACT

Previously, I asked forgiveness from Allah SWT. Here I am trying to open the veil that covers the secret of how actually an angel who is a man can take a life, even though the one who holds my spirit is only Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses in the Qur'an that write down the problem of how actually a male angel can take a life, even though the one who holds my spirit is only Allah, namely the verses:

"By the one who plucks out loudly, (An Naazi'aat: 79: 1)

"and who plucks gently, (An Naazi'aat: 79: 2)

"... if We made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"So when I have perfected the show and breathed into it my spirit; then you must prostrate to him." (Shaad: 38:72)

"When I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"... We made the apostle an angel... a man... (Al An'aam: 6: 9)

"Say: "The angel of death entrusted to you will kill you, then only to your Lord you will be returned." (As Sajdah: 32:11)

"What if the angels took their lives while beating their faces and their backs? (Muhammad: 47: 27)

"By the one who plucks out loudly (An Naazi'aat: 79:1)

"and who plucks gently (An Naazi'aat: 79: 2)

"Then He perfected and breathed into him His spirit and He made for you hearing, sight, and heart; you are very little grateful." (As Sajdah: 32: 9)

"Indeed, those who were killed by the angels in a state of persecuting themselves, the angels asked: "In what state are you in?" They replied: "We are the oppressed in the land." The angels said: "Is not Allah's earth wide, so that you can emigrate in that earth?" For those people the place of Hell is Hell, and Hell is the worst place to return to, (An Nisaa ': 4: 97)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"The messengers (angels) said: "O Lut, indeed we are the messengers of your Lord..." (Huud: 11:81)

Where in an effort to open the veil that covers the secret about how actually an angel who is a man can take a life, even though the one who holds my spirit is only Allah, I use a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESES

Here I propose the hypothesis an angel who is a man can take a life, even though the one who holds my spirit is only Allah, by using frequency waves with the speed of light 5 475 103 664 604.84 km per second, judging from the basis of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

HOW ACTUALLY, ANGELS OF THE MALE ASSIGNED TO TAKE LIFE

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"By the one who plucks out loudly, (An Naazi'aat: 79: 1) "... We made the apostle an angel... a man, ... (Al An'aam : 6: 9)*

It turns out that the angel assigned to take lives is an angel in the form of a human whose gender is male *"... the apostle is an angel... a man,... (Al An'aam: 6: 9)*

Now the question arises,

Why are angels assigned by Allah to take human lives, even though angels are men?

The answer is,

Hidden in the secret behind the verse: *"Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Well, apparently angels have the ability through frequency waves to send information at the speed of light to Allah. Where the information conveyed to Allah uses Allah's particles or angel particles, which have the speed of light 5 475 103 664 604.84 km per second

ANGELS TAKE LIFE WITH A COMMAND FROM ALLAH USING ALLAH PARTICLES THAT HAVE THE SPEED OF LIGHT 5 475 103 664 604.84 KM PER SECOND

Now, let's uncover the secret behind the verse: *"By the one who pulls out loudly, (An Naazi'aat: 79: 1)" and who pulls out gently, (An Naazi'aat: 79: 2)*

How do angels take human souls?

The answer is

Angels by using the ability to send information through frequency waves at the speed of light 5 475 103 664 604.84 km per second to be used to take human lives.

The angel through "...my spirit...(Shaad: 38:72) made contact with"...my spirit...(Shaad: 38:72) in the body of the person who wants to take his life. After the angel got the information from "...my spirit...(Shaad: 38: 72) which is in the body of the person who wants to take his life away, the angel sends frequency waves with the speed of light 5 475 103 664 604.84 km per second to control the respiratory tract of the person who wants to take his life. By stopping oxygen atoms from entering the person's lungs, then within a few seconds, the person can no longer breathe and becomes paralyzed and eventually dies.

Now, angels take lives from a distance by using frequency waves with the speed of light 5 475 103 664 604.84 km per second.

How angels take lives is the same as Allah takes human lives, namely by using Allah's particles which have the speed of light 5 475 103 664 604.84 km per second..

So, wherever humans are, under the ground, under water, in a room covered with iron forts, steel forts, or with anything, Allah's particles can penetrate them and reach humans who want to take their lives.

Well, now it has been revealed, the secret hidden behind the verse: *"By the one who pulls out loudly, (An Naazi'aat: 79: 1)" and who pulls out gently, (An Naazi'aat: 79: 2)*

That is, angels with their knowledge of Allah's particles which have the speed of light 5 475 103 664 604.84 km per second can take human lives, either in a gentle way or in a hard way.

That's all because Allah has given knowledge to angels to control and use the particles of Allah, which humans have not been able to control until now.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"By the one who plucks out loudly, (An Naazi'aat: 79: 1) "... We made the apostle an angel... a man, ... (Al An'aam : 6: 9)*

It turns out that the angel assigned to take lives is an angel in the form of a human whose gender is male *"... the apostle is an angel... a man,... (Al An'aam: 6: 9)*
