ABSTRACT

Before I write down the problem of how, according to Allah, angels watch over and witness humans, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how, according to Allah, angels watch over and witness humans, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how, according to Allah, angels watch over and witness humans, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"Praise be to Allah, the Creator of the heavens and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"Establish prayer from after the sun has slipped until it is dark at night and at dawn. Verily, the dawn prayer is witnessed. (Al Israa ': 17: 78)

"Indeed, for you there is a watcher." (Al-Infithaar: 82:10)

"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa ': 4: 166)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about how Allah thinks angels watch and witness humans, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis according to Allah angels watch over and witness humans through the frequency of light waves and the frequency of sound waves, viewed from the point of view of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MOST OF HUMANS STILL THINK THAT ANGELS HAVE BODIES THAT ARE INVISIBLE BY HUMAN EYES

Now, we are still concentrating on uncovering the secrets contained behind the verse: *"...the angels also bear witness...(An Nisaa' : 4: 166) "...indeed, for you there are those who are watching, (Al Infithaar : 82: 10) "... the dawn prayer was witnessed. (Al Israa ': 17: 78)*

Apparently, here Allah has declared to humans that angels are witnesses, and watch over humans.

Now the question arises,

How do humans know "*...angel...a man... (Al An'aam: 6:9)*" to be a witness and watch over humans?

The answer is

Hidden in the secret behind the verse: "*...angels as messengers who have wings, two, three and four each... (Faathir: 35: 1)*"

Well, here Allah actually describes because "*...angel...a man... (Al An'aam: 6:9)*" then what the angels declare "*...has wings, each two, three and four... (Faathir: 35: 1)*" is the wing which is a symbol of the frequency of light waves and the frequency of sound waves.

So, actually when Allah declared "*...the angels were witnesses... (An Nisaa ': 4: 166)*" "*... in fact for you there are those who are watching, (Al Infithaar: 82:10)*" "*.. The dawn prayer was witnessed. (Al Israa ': 17: 78)*" is that angels do not need to be in front of humans, only angels are in the place of the angels themselves.

Why do angels when watching and witnessing humans do not need to be in front of humans?

Because, angels simply use the frequency of light waves and the frequency of sound waves to know and see humans. What humans do and say.

ANGELS ARE NOT LIGHT, ANGELS ARE COLLECTIONS OF ATOMS AS HUMANS

Now, it is clear that angels are not actually light, but the bodies of angels are made up of hydrogen atoms, oxygen atoms, nitrogen atoms and carbon atoms, just as these atoms are the building blocks of the human body.

As Allah has declared "*...We say to the angels: "Prostrate yourselves to Adam," so bow down to them except devil... (Al Baqarah: 2:34)*"

Now, the prostrating of the angel to Adam illustrates that Adam and the angel have the same body structure. Where the angels prostrate to Adam is a picture of the respect shown by the angels to Adam. Adam and the angels were in paradise, seeing and understanding each other.

So, now it has been revealed, that actually angels are not light that cannot be seen by the human eye, but angels are a kind of male human who uses the frequency of light waves and the frequency of sound waves.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: "*...the angels also bear witness... (An Nisaa' : 4: 166)*" "*...indeed, for you there are those who are watching, (Al Infithaar : 82: 10)*" "*... the dawn prayer was witnessed. (Al Israa ': 17: 78)*"
