**ABSTRACT**

Before I write down the problem of how actually, Allah breathed my spirit into every human being around the world, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how Allah actually breathed my spirit into every human being around the world, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how actually, Allah breathed my spirit into every human being around the world, namely the verses:

*"And verily We have created man from an essence from the ground. (Al Mu'minuun: 23:12)*

*"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)*

*"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad : 38:72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts you have little gratitude. (As Sajdah: 32: 9)*

*"...Indeed the Messiah, Jesus the son of Mary, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4:171)*

*"O mankind, if you are in doubt about the resurrection, then indeed We have created you from clay, then from a drop of semen, then from a clot of blood, then from a lump of flesh which is perfect and imperfect, so that We may explain it to you and determine in the womb, what We will until a predetermined time, then We bring you out as babies, then you come to maturity, and some of you are passed away and some of you have extended their life to senility, so that he will no longer know anything that is wrong. he knew before. And you see the earth is dry, then when We send down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22: 5)*

*"Didn't We create you from despicable water (Al Mursalaat: 77:20)*

*"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)*

*"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)*

*"His companion said to him while he was conversing with him: "Do you disbelieve in the one who created you from clay, then from a drop of semen, then He made you a perfect man? (Al Kahf: 18: 37)*

*"And Maryam, the daughter of Imran, who kept her honor, so We breathed into her a portion of Our spirit, and she confirmed the words of her Lord and His Books, and she was one of the obedient. (At Tahrim: 66:12)*

In an effort to open the veil of Allah's secret about how Allah actually breathed my spirit into every human being around the world, I used the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESES**

Here I propose the hypothesis that God breathed my spirit into every human being around the world through Deoxyribonucleic acid (DNA), seen from the basic point of Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

As for if we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects.

Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **MY SPIRIT WHICH WAS BLOWED ON ADAM, WAS DELIVERED THROUGH DNA**

Now, we are still concentrating on trying to uncover the secret hidden behind the verse: *"...We have created man from an essence from the ground. (Al Mu'minuun: 23:12)"...I breathed into him my spirit. .. (Shaad : 38:72)"*

Apparently, here Allah has declared that Adam was created from the essence of soil. Where the essence of soil is made up of carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms.

Then Allah breathed *"...to him my spirit... (Shaad: 38:72)"*

Now the question arises,

Does Allah breath "...my spirit... (*Shaad: 38: 72*) into the bodies of the children of Adam through the womb of their mothers?

The answer is hidden in the secret behind the verse: "...*He perfected and breathed into it His spirit and He made for you hearing, sight and hearts...* (*As Sajdah: 32: 9*)

Apparently, here Allah has described clearly and clearly that "... *My spirit... (Shaad: 38: 72)* is not breathed into every child of Adam's descendants, but through "... *My spirit... (Shaad: 38) : 72* which is already in the Deoxyribonucleic acid (DNA) of Adam and his wife.

After Allah "... *made for you hearing, sight and heart...* (*As Sajdah: 32: 9*) proved that "... *My spirit... (Shaad: 38: 72)* which was breathed into Adam in paradise, the building blocks of Adam's Deoxyribonucleic acid (DNA).

"... *my spirit... (Shaad : 38: 72)* is made up of carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms. Likewise, Deoxyribonucleic acid (DNA) is made up of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Or in other words, "... *my spirit... (Shaad : 38: 72)* unites with Deoxyribonucleic acid (DNA)

### **MY SPIRIT DOESN'T NEED TO BE BLOWED BY ALLAH EVERY HUMAN BODY THROUGH THE MOTHER'S WOMEN, ENOUGH THROUGH MY SPIRIT THAT HAS BEEN BUILDING DNA**

Well, because "... *my spirit... (Shaad : 38: 72)* is united with Deoxyribonucleic acid (DNA), then Allah does not need to blow "... *My spirit... (Shaad : 38: 72)* into every the human body through the mother's womb. But through the path of "... *a drop of semen... (Al Hajj: 22: 5)* or the sperm in the father's body and the egg in the mother's body. Because in ... *a drop of semen ... (Al Hajj: 22: 5)* or sperm and egg contain DNA.

So, when "... *a drop of semen... (Al Hajj: 22: 5)* or sperm released by the father and meets the egg from the mother in the womb, then it becomes a fetus.

Well, in the body of this fetus there is already "... *My spirit... (Shaad : 38: 72)*, because "... *My spirit... (Shaad : 38: 72)* has become a building of Deoxyribonucleic acid (DNA) father and mother.

So, all humans who are born in the world, there is no need for Allah to breathe "... *My spirit... (Shaad: 38: 72)* into the human body through the mother's womb, but only through the Deoxyribonucleic acid (DNA) of the father and mother.

### **ALLAH BLOWING MY SPIRIT IS A SYMBOL THAT REFERS TO MY SPIRIT THAT HAS BEEN BUILDING DNA**

Now, the secret behind the verse has been revealed: "... *We have created man from an essence from the ground. (Al Mu'minuun: 23:12)*"...*I breathed into him my spirit... (Shaad: 38: 72)*"

That is, when Allah created Adam in paradise from "...*the essence of...soil. (Al Mu'minuun: 23:12)* then blow "...*to him my spirit... (Shaad: 38: 72)* , then it becomes "... *My spirit... (Shaad: 38: 72)* DNA building Adam.

So when Adam's descendants are born into the world, Allah no longer needs to breathe "...*my spirit... (Shaad: 38:72)* into their bodies through their mother's womb, just through the DNA that is in "...*a*

*drop of semen" ... (Al Hajj: 22: 5) or sperm in the father's body and eggs in the mother's body.*

## CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"...We have created man from an essence from the ground. (Al Mu'minuun: 23:12)"...I breathed into him my spirit.. (Shaad : 38:72)"*

Apparently, here Allah has declared that Adam was created from the essence of soil. Where the essence of soil is made up of carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms.

Then Allah breathed *"...to him my spirit... (Shaad: 38:72)"*

Now the question arises,

After Allah *"... made for you hearing, sight and heart... (As Sajdah: 32: 9)* proved that *"... My spirit... (Shaad: 38: 72)* which was breathed into Adam in paradise, the building blocks of Adam's Deoxyribonucleic acid (DNA).

*"... my spirit... (Shaad : 38: 72)* is made up of carbon atoms, nitrogen atoms, hydrogen atoms and oxygen atoms. Likewise, Deoxyribonucleic acid (DNA) is made up of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Well, because *"... my spirit... (Shaad : 38: 72)* is united with Deoxyribonucleic acid (DNA), then Allah does not need to blow *"... My spirit...
