DASAR PEMIKIRAN

Before I write down the problem of how, in fact, Allah exists in every human being, even though the number of humans is billions living all over the world, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about how Allah actually exists in every human being, even though the number of humans is billions living around the world, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how Allah actually exists in every human being, even though there are billions of people living all over the world, namely the verses:

"And verily We have created man from an essence from the ground. (Al Mu'minuun: 23:12)

"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad : 38:72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts you have little gratitude. (As Sajdah: 32: 9)

"...Indeed the Messiah, Jesus the son of Mary, is the messenger of Allah and His words which He conveyed to Mary, and a spirit from Him... (An Nisaa ': 4:171)

"O mankind, if you are in doubt about the resurrection, then indeed We have created you from clay, then from a drop of semen, then from a clot of blood, then from a lump of flesh which is perfect and imperfect, so that We may explain it to you and determine in the womb, what We will until a predetermined time, then We bring you out as babies, then you come to maturity, and some of you are passed away and some of you have extended their life to senility, so that he will no longer know anything that is wrong. he knew before. And you see the earth is dry, then when We send down water on it, the earth lives and is fertile and grows all kinds of beautiful plants. (Al Hajj: 22: 5)

"Didn't We create you from despicable water (Al Mursalaat: 77:20)

"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)

"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)

"His companion said to him while he was conversing with him: "Do you disbelieve in the one who created you from clay, then from a drop of semen, then He made you a perfect man? (Al Kahf: 18: 37)

"And Maryam, the daughter of Imran, who kept her honor, so We breathed into her a portion of Our spirit, and she confirmed the words of her Lord and His Books, and she was one of the obedient. (At Tahrir: 66:12)

In an effort to open the veil of Allah's secret about how Allah really is in every human being, even though there are billions of people living all over the world, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESES

Here I propose the hypothesis that Allah exists in every human being, even though the number of humans is billions living all over the world, through Deoxyribonucleic acid (DNA) that is in every human body, seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

As for if we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects.

Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

ALLAH BLOWS MY SPIRIT AND STORED IN THE DNA THAT IS IN EVERY HUMAN BODY LIVING AROUND THE WORLD

Now, we are still concentrating on trying to uncover the secret hidden behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9) "...We... know what his heart whispers, and We are closer to him than his jugular vein, (Qaaf: 50:16)*

Apparently, Allah has clearly declared to humans that Allah *"...breathed into it His spirit...made for you hearing, sight and heart...(As Sajdah: 32:9) "...knows what is whispered by his heart...closer to him than his jugular vein, (Qaf: 50:16)*

So, here Allah has ordained that in every human body there is *"... His spirit... (As Sajdah: 32: 9)*

How can Allah actually blow *"...His spirit...(As Sajdah: 32: 9)* into every mother's womb *"... We blow into her womb some of Our spirit... (At Tahrir: 66:12)* when mom and dad are together?

Well, the answer is

Hidden in the secret behind the verse: *"...He...breathed into it His spirit and He made for you hearing, sight and heart...(As Sajdah: 32: 9)*

Well, it turns out that Allah with *"... His spirit... (As Sajdah: 32: 9) "... He made for you hearing, sight and heart... (As Sajdah: 32: 9)*

Apparently, what makes *"...hearing, seeing and heart... (As Sajdah: 32: 9)* is based on what has been outlined in Deoxyribonucleic acid (DNA) which is in every human body. Where Deoxyribonucleic acid (DNA) is passed down directly by the father and mother.

Or in other words, Allah has breathed *"... His spirit... (As Sajdah: 32: 9)* into Adam, when at the first time Allah created humans in paradise *"... We have created humans from an essence from the soil (Al Mu'minuun: 23:12) "Then We made the essence of semen ... (Al Mu'minuun: 23:13) "...I breathed into him my spirit ..." (Shaad: 38: 72)*

So, actually, since the first time Allah *"...created man...(Al Mu'minuun: 23:12)* Allah has breathed *"...My spirit..." (Shaad: 38:72)* into his body.

Where *"... my spirit ..." (Shaad: 38: 72)* is the building Deoxyribonucleic acid (DNA) .

DNA WAS PASSED DOWN DIRECTLY BY FATHER AND MOTHER TO THEIR CHILDREN

Well, now it's been revealed, what Allah has declared *"...I breathed into him my spirit..(Shaad: 38:72)* is a symbol from Allah which describes that *"...My spirit..." (Shaad: 38: 72)* which is blown into the mother's womb *"...We breathed into her womb a part of our spirit...(At Tahrir: 66:12)* which has become the DNA building in *"...semen... (Al Mu'minuun: 23:13)* in the body of the father.

So, actually *"... my spirit..." (Shaad: 38: 72)* is already in the father's semen or sperm and in the mother's egg.

When a father and mother give birth to their child, then in their child's body there is already *"... my spirit..." (Shaad: 38: 72)* which is passed down through the DNA in the semen or sperm of the father and the mother's egg. Because DNA directly passed down by the father and mother, through the semen or sperm from the father and eggs from the mother.

ALLAH BLOWS MY SPIRIT INTO EVERY HUMAN BODY THROUGH DNA

Now, the secret hidden behind the verse has been revealed: *"... We... know what his heart whispers, and We are closer to him than his jugular vein, (Qaaf: 50: 16)* is because *"... My spirit. ..." (Shaad: 38: 72)* which is passed down through DNA that is in the semen or sperm of the father and the mother's egg. When their children are born into the world, in their children there is already *"... My spirit.. "*

(*Shaad: 38: 72*) which is in the DNA that is passed down through the semen or sperm from the father and eggs from the mother.

Or in other words, Allah is present in every human body throughout the world.

CONCLUSION

Based on the description above, we can conclude that the secret hidden behind the verse: *"...He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9) "...We... know what his heart whispers, and We are closer to him than his jugular vein, (Qaaf: 50:16)*

So, here Allah has ordained that in every human body there is *"... His spirit... (As Sajdah: 32: 9)*
