## ABSTRACT

Before I write down the problem, how actually, humans can see Allah through my spirit, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how humans can actually see Allah through my spirit, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how humans can actually see Allah through my spirit, namely the verses:

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"Allah is the light of the skies and the earth...Light upon light...(An Nuur: 24: 35)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays in its place you will surely see Me..." (Al A'raaf: 7: 143)*

*"And when you said: "O Moses, we will not believe in you until we see Allah in the light, so you are struck by lightning while you are witnessing it." (Al Baqarah: 2:55)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36: 9)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

In an effort to open the veil of Allah's secret about how humans can actually see Allah through my spirit, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I put forward the hypothesis that humans can see Allah through "... my spirit... (Al Hijr: 15: 29) which contains hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, seen from the basic point of Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## WHAT IS BASIC, HUMAN CAN SEE ALLAH THROUGH MY SPIRIT

Now, we are still concentrating on uncovering the secret contained behind the verse: *"... when you said: "O Moses, we will not believe in you until we see Allah clearly, because of that you are struck by lightning, while you are witnessing it." Al Baqarah : 2:55)*

Apparently, here Allah has clearly described to humans, who have limited eyesight, namely by *"... you are struck by lightning... (Al Baqarah: 2: 55)*

Now, the question arises,

What exactly is in the *"...lightning...(Al Baqarah: 2:55) ?*

The answer is

Hidden in the secret behind the verse: *"... I.. have blown into it my spirit... (Al Hijr: 15: 29)*  
It turned out that in *"...thunderbolt...(Al Baqarah: 2:55)* there is *"...My spirit...(Al Hijr: 15:29)*

Why is *"...my spirit...(Al Hijr: 15:29)* in *"...thunderbolt...(Al Baqarah: 2:55) ?*

The answer is,

Because in *"...lightning...(Al Baqarah: 2:55)* there are photons that carry energy. Where this energy is in the form of light, the light arises from electrons that escape from the hydrogen atom. The electrons are released from the hydrogen atoms due to a large enough voltage difference between the ground and the clouds, causing thunder or lightning.

Well, it turns out that in "...my spirit...(Al Hijr: 15: 29) contains hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

So, actually "...thunderbolt...(Al Baqarah: 2:55) is "...the spirit of Ku...(Al Hijr: 15:29)

That is, when the people of the Prophet Musa "...said: "*O Moses, we will not believe in you until we see Allah in the light, therefore you are struck by lightning...*(Al Baqarah: 2:55)

Here, Allah describes to humans, that to see Allah's form is through "... my spirit... (Al Hijr: 15: 29)

Or in other words, if humans want to see the form of Allah, then they must look to "*Allah, the light of the heavens and the earth ... Light on the light ... (An Nuur: 24: 35)*

Now, the question arises,

Where does it come from "...Light upon light...(An Nuur : 24: 35)?

The answer is

From "...my spirit...(Al Hijr : 15: 29) because in "...my spirit...(Al Hijr : 15: 29) contains hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

## PROPHET MUSA SEE ALLAH THROUGH MY SPIRIT

Now, we uncover the secret contained in the verse: "...Moses said: "*My Lord, show me so that I can see You.*" God says: "*You will never be able to see Me, but look at the hill, so if it stays where it is, you will surely see Me...*" (Al A'raaf: 7: 143)

It turned out that, inside the "...hill...(Al A'raaf: 7: 143) contains soil and stone. Whereas in soil and rock contains hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms.

So, in fact, Allah has described to humans, that in order to look at Allah, then look at the objects in which there is "... my spirit... (Al Hijr: 15: 29) which contains hydrogen atoms, nitrogen atoms , carbon atoms and oxygen atoms.

Now, it has been revealed, the secret that is hidden behind the verse: the people of the Prophet Moses "...said: "*O Moses, we will not believe in you until we see Allah clearly, because of that you were struck by lightning...* (Al Baqarah: 2 : 55) "...Moses said: "*O my Lord, show me so that I can see You.*" The Lord said: "*You will never be able to see Me, but look at the hill, then if it stays where it is surely you can see Me...*" (Al A'raaf: 7: 143)

That is, humans if they want to see the form of Allah, then look at "... my spirit... (Al Hijr: 15: 29) which emits light "*Allah is the light of the skys and the earth... The light above the light... (An Nuur : 24:35)*

## CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: "... when you said: "*O Moses, we will not believe in you until we see Allah clearly, because of that you are struck by lightning, while you are witnessing it.*" Al Baqarah : 2:55)

Apparently, here Allah has clearly described to humans, who have limited eyesight, namely by "... you are struck by lightning... (Al Baqarah: 2: 55)

The answer is,
