ABSTRACT

Before I write down the problem, according to Allah, are there other creatures like humans in the seven skies, judging from the speed of Allah's particles, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how according to Allah, are there other creatures like humans in these seven skies, looking at the speed of Allah's particles, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how according to Allah, are there other creatures like humans in these seven heavens, judging from the speed of Allah's particles, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa ': 4: 166)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about how Allah actually thinks, is there another human-like creature in the seven skys, judging from the speed of Allah's particles, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis based on the speed of Allah's particle 5 475103 664 604.84 km per second valid only in the Milky Way galaxy, outside the Milky Way galaxy, based on the speed of Allah's other particles that humans still don't know, from the perspective of Deoxyribonucleic acid (DNA).)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split,

then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

THE SPEED OF ALLAH'S PARTICLE LIGHT 5 475103 664 604.84 KM ONLY APPLY IN OUR MILKY WAY GALAXY

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"Who has created the seven skys in layers...(Al Mulk: 67:3)"...a day whose levels are fifty thousand years (Al Mulk: 67:3). Ma'aarij : 70:4)"...wherever you face there is the face of Allah...(Al Baqarah: 2: 115)*

Apparently, here Allah has declared that the speed of light of Allah's particles is 5 475103 664 604.84 km per second occurs only in the Milky Way galaxy, outside the Milky Way galaxy, there are other particle speeds of Allah, which humans still do not know.

Why does the speed of light of Allah's particles, which is 5 475103 664 604.84 km per second, only applies to the Milky Way galaxy?

The answer is

Hidden in the secret behind the verse: *"Who has created the seven skys in layers ... (Al Mulk: 67: 3)*

Well, *"... the seven skys... (Al Mulk: 67: 3)* is very wide, which contains billions, billions, billions, billions of galaxies, stars, planets, moons.

It takes a very long light year to make connections between galaxies.

For example, to make contact with the Andromeda galaxy, which is 2 900 000 light years away from Earth, it takes 58 light days for the Allah particle.

Also, if it makes contact with the Abell 2218 cluster galaxy, which is 2 000 000 000 light years away from Earth, it will take Allah's particle 109.6 light years to reach the Abell 2218 cluster galaxy.

THE ALLAH PARTICLES THAT ARE RIGHT NOW IN THE MILKY WAY, CANNOT BE USED AS A CONNECTION TOOL BETWEEN THE GALAXY, BECAUSE IT IS STILL TOO SLOW

Because the distance between galaxies is very far from one another, which is calculated according to light years, the Allah particle with the speed of light 5 475103 664 604.84 km per second only applies to the Milky Way galaxy. The speed of Allah's particle of light 5 475103 664 604.84 km per second is considered very slow when used for contact with other galaxies.

To make contact with other galaxies, we do not use the Allah particle which has the speed of light 5 475103 664 604.84 km per second, but uses another Allah particle, which humans have not yet known until now.

So, Allah to make contact with the angels and *"...my spirit...(Shaad : 38: 72)*

In the Milky Way galaxy, the Allah's particle has the speed of light of 5 475103 664 604.84 km per second.

As for when Allah makes contact with other galaxies, he does not use Allah's particles with a speed of light of 5 475103 664 604.84 km per second, but uses Allah's particles which have other, faster, speeds of light, which humans now do not know about.

UNTIL NOW THERE ARE NO OTHER CREATURES LIKE HUMANS IN OTHER GALAXY

Using the light-year speed of photons 9 460 730 472 580.8 km per year according to human calculations, or 1.73 light seconds of Allah's particles according to Allah's calculations, cannot be used as a means of connecting galaxies.

So until now it is not known whether there are other creatures like humans living in other galaxies. In the Milky Way galaxy, only humans and other living things exist.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"Who has created the seven skys in layers...(Al Mulk: 67:3)" "...a day whose levels are fifty thousand years (Al Mulk: 67:3). Ma'aarij : 70:4)" "...wherever you face there is the face of Allah...(Al Baqarah: 2: 115)*
