ABSTRACT

Before I write down the problem of how Allah actually is in the human mind, when humans mention the name of Allah, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how Allah really is in the human mind, when humans say the name of Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how Allah really is in the human mind, when humans mention the name of Allah, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

Allah said: "O Moses, verily I chose you and other humans to carry My message and to speak directly with Me, therefore hold fast to what I have given you and be among those who are grateful." (Al A'raaf: 7:144)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the heavens and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about how Allah really is in the human mind, when humans mention the name of Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis of the state of God in the human mind, when humans say the name of Allah, it is shown through "...my spirit...(Shaad: 38:72), seen from the point of view of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT WHICH IS AROUND THE HUMAN BODY INTERPRETING THE SYMBOLS THAT COME FROM ALLAH

Now, we are still concentrating on uncovering the secret contained behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, you did not create this with in vain...(Ali 'Imran : 3:191)*

Here Allah has described to humans that humans must use the mind to *"...remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3:191)*

Now the question arises,

Why does Allah explain to humans to use the mind to *"...think about the creation of the skys and the earth...(Ali 'Imran: 3:191)?*

The answer is,

Hidden in the secret behind the verse: *"... about the creation of the skys and the earth... you did not create this in vain... (Ali 'Imran: 3: 191)*

Well, it turns out that *"... my spirit..." (Shaad: 38: 72)* that exists throughout the human body have interpreted the symbols that came from Allah *"...about the creation of the skys and the earth...(Ali 'Imran : 3: 191)* then informed to the human mind, so that humans understand that Allah in *"...the creation of the skys and the earth... is not... in vain...(Ali 'Imran : 3: 191)*

WHY ALLAH DECLARED TO UNDERSTAND ALLAH'S CONDITION THROUGH THE WAY OF THINKING OF THE CREATION OF THE SKY AND EARTH

Now, let's unravel the secret behind the verse: *"It is He who created the skys and the earth in six days... (Al Hadiid: 57: 4)*

So, with what did Allah create *"...the skys and the earth...(Al Hadiid: 57:4)?*

The answer is

Hidden in the secret behind the verse: *"...I breathed into him my spirit...(Shaad: 38: 72)*

Apparently, Allah created *"... the skys and the earth... (Al Hadiid: 57: 4)* with *"... My spirit..." (Shaad: 38: 72)*

Where *"... my spirit..." (Shaad: 38: 72)* is built from oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Or in other words, Allah with Allah's energy created quarks and then quarks are made into the nucleus of hydrogen atoms and other atoms where these atoms are used as a building for *"...my spirit..." (Shaad: 38: 72)*

So, actually Allah created *"...the skys and the earth...(Al Hadiid: 57:4)* with *"...My spirit..." (Shaad: 38:72)* and *"...My spirit.. ." (Shaad: 38: 72)* is also present throughout the human body.

ALLAH MAKES ALLAH'S ENERGY, THEN ALLAH'S ENERGY RETURNS TO ALLAH

Now, when Allah created *"...the skys and the earth...(Al Hadiid: 57:4)* it begins with Allah creating Allah's energy, then with Allah's energy quarks are created, then quarks form hydrogen atoms and other atoms. hydrogen atoms created the sky above which the stars, earth, moon and everything in it was born.

Likewise, when Allah *"...created man from an essence from soil. (Al Mu'minuun: 23: 12)* , it turns out that the soil contains oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms.

Or in other words Allah created man from *"...my spirit..." (Shaad: 38: 72)*

THE STATE OF ALLAH IN THE HUMAN'S MIND, WHEN HUMANS CALL THE NAME OF ALLAH

So, what is the state of Allah in the human mind, when humans mention Allah's name?

The answer is

Hidden in the secret behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3:191)*

It means, *"... my spirit..." (Shaad : 38: 72)* interprets how Allah created *"... the skys and the earth... (Ali 'Imran : 3: 191)* then the result of the interpretation of *"... my spirit..." (Shaad: 38:72)* passed on to the human mind, so that humans understand *"...Our Lord, you did not create this in vain, Glory be to You... (Ali 'Imran: 3: 191)*

So, actually, Allah through *"...my spirit..." (Shaad: 38: 72)* which is in the human body *"...speaks directly with... (Al A'raaf: 7: 144)* humans, when people think about *"...the creation of the heavens and the earth...(Ali 'Imran: 3:191)* and mention the name of Allah.

Now, the secret hidden behind the verse has been revealed: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to Him. you, so save us from the torment of hell. (Ali 'Imran: 3:191)*

That is when humans think about *"...the creation of the skys and the earth...(Ali 'Imran: 3:191)* and mention the name of Allah, then in fact Allah is through *"...My spirit..." (Shaad: 38:72)* is in the human body *"...that I am near...(Al Baqarah: 2: 186)* and *"...speaking directly with...(Al A'raaf : 7: 144)* humans.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secret contained behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, you did not create this with in vain...(Ali 'Imran : 3:191)*

Here Allah has described to humans that humans must use the mind to *"...remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth... (Ali 'Imran: 3:191)*
