ABSTRACT

Before the author writes down the problem of how big Allah really is, when Allah enters the human body, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of how big Allah really is, when Allah enters the human body, based on Deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret unlocking tool about how big Allah really is, when Allah enters the human body, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ': 21: 91)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then surely I am near. I grant the supplications of those who pray when they ask Me, then let them fulfill and let them believe in Me, so that they may always be in the truth. (Al Baqarah: 2:186)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You,

so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"Do you think that most of them hear or understand? They are nothing but like cattle, in fact they are more astray in their way (Al Furqaan: 25: 44)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about how big Allah really is, when Allah enters the human body, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes a hypothesis when Allah enters the human body, Allah's form in the form of Allah's energy and Allah's particles, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHERE THERE IS ALLAH'S ENERGY, THERE IS ALLAH, WHERE THERE ARE ALLAH'S PARTICLES, THERE IS ALLAH, ALLAH'S ENERGY, ALLAH'S PARTICLES ARE UNITED WITH ALLAH, ALLAH ENERGY, ALLAH'S PARTICLES AND ALLAH IS ETERNAL

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"...wherever you face there is the face of Allah...(Al Baqarah: 2: 115)"...I am near..(Al Baqarah: 2:186)*

Apparently, Allah has explained to humans, that to know where Allah is, look wherever you look *"...that is the face of Allah... (Al Baqarah: 2: 115)*

Now, this proves, that Allah, Allah's energy and Allah's particles are united.

Now the question arises, why Allah, Allah's energy and Allah's particles are united?

The answer is hidden in the secret behind the verse: *"... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Now, what makes Allah's energy, Allah's particle united with Allah, is the speed of Allah's particle of light *"...a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

That is, with the speed of light of Allah's particles **5475103664604.84** km per second, driven by Allah's energy, which is **18262980** times the energy of man-made, then wherever the human eye looks, there is the face of Allah or the form of Allah.

When Allah enters the human body, what enters is Allah's energy and Allah's particles. Meanwhile *"...Allah's spirit...(Shaad: 38:72)* is already in the human body, because Allah has *"...has breathed into it the spirit of Allah...(Al Hijr: 15:29)*

So, Allah's energy and Allah's particles which are Allah's form enter the human body.

How much Allah's energy and how many particles of Allah that enter the human body, depending on how big the human body. Because children's bodies are different from adults' bodies.

God's form in the human body not long, 1 nanosecond, where 1 second = **1000000000** nanosecond

Why is Allah's form not long in the human body?

Because, not only one human body is entered by Allah, but more than **2000000000** people around the world who will be entered by Allah's form.

Now the secret behind the verse has been revealed: *"... if My servants ask you about Me, then that I am near... (Al Baqarah: 2: 186)*

It means *"...near...(Al Baqarah: 2: 186)* according to Allah. If it is near according to the human size of 1 meter, then if it is calculated according to Allah **1: 18262980 = 0.00000005475557658169696** meters or equal to **54** nanometers. Where 1 meter = **1000000000** nanometer

So near according to Allah is **18262980** shorter or closer than according to human calculations.

CONCLUSION

From what is described above, it can be concluded that the secrets contained behind the verses:

"...wherever you face there is the face of Allah...(Al Baqarah: 2: 115)"...I am near..(Al Baqarah: 2:186)

Apparently, Allah has explained to humans, that to know where Allah is, look wherever you look
"...that is the face of Allah... (Al Baqarah: 2: 115)

Now, this proves, that Allah, Allah's energy and Allah's particles are united.

Now the question arises, why Allah, Allah's energy and Allah's particles are united?

The answer is hidden in the secret behind the verse: *"... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Now, what makes Allah's energy, Allah's particle united with Allah, is the speed of Allah's particle of light *"...a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

That is, with the speed of light of Allah's particles **5475103664604.84** km per second, driven by Allah's energy, which is **18262980** times the energy of man-made, then wherever the human eye looks, there is the face of Allah or the form of Allah.

When Allah enters the human body, what enters is Allah's energy and Allah's particles. Meanwhile *"...Allah's spirit...(Shaad: 38:72)* is already in the human body, because Allah has *"...has breathed into it the spirit of Allah...(Al Hijr: 15:29)*

So, Allah's energy and Allah's particles which are Allah's form enter the human body.

How much Allah's energy and how many particles of Allah that enter the human body, depending on how big the human body. Because children's bodies are different from adults' bodies.

God's form in the human body not long, 1 nanosecond, where 1 second = **1000000000** nanosecond

Why is Allah's form not long in the human body?

Because, not only one human body is entered by Allah, but more than **2000000000** people around the world who will be entered by Allah's form.

Now the secret behind the verse has been revealed: *"... if My servants ask you about Me, then that I am near... (Al Baqarah: 2: 186)*

It means *"...near...(Al Baqarah: 2: 186)* according to Allah. If it is near according to the human size of 1 meter, then if it is calculated according to Allah **1: 18262980 = 0.00000005475557658169696** meters or equal to **54** nanometers. Where 1 meter = **1000000000** nanometer

So near according to Allah is **18262980** shorter or closer than according to human calculations.
