ABSTRACT

Before I write down the problem about how Allah actually hears, I first ask forgiveness from Allah SWT. Here I am trying to unmask the mystery of how Allah actually hears, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how Allah actually hears, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31:28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to unmask Allah's secrets about how Allah actually hears, I use a base of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah hears through the vibration of light waves, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH'S ENERGY GIVES LIGHT ABOVE LIGHT

Now, we are still concentrating on uncovering the secrets contained behind the verse: "*Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*"

Well, it turns out, "*Allah...Light above light...(An Nuur: 24: 35)*" is a force of energy, which is carried by photons. Or in other words photons are elementary particles of the boson type, carriers of electromagnetic interactions.

HOW ACTUALLY ALLAH CAN HEAR

Well, by going through various frequency waves that carry energy and sound that reaches Allah.

Whatever sound is in the universe, and whatever energy is in the universe, which is carried through various frequency waves, it all reaches Allah.

Or in other words, Allah is all-hearing, through various frequency waves that carry energy and sound in the universe.

ALLAH'S EARS ARE FREQUENCY WAVES IN THE UNIVERSE

So now, the secret has been revealed in the verse: *"...Indeed Allah is All-Hearing...(Luqman: 31: 28)*

That is, Allah hears everything in the universe, including humans, through various frequency waves that carry energy and sound in the universe.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

Well, it turns out, *"Allah...Light above light...(An Nuur: 24: 35)* is a force of energy, which is carried by photons. Or in other words photons are elementary particles of the boson type, carriers of electromagnetic interactions.
