ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT regarding the secret of how humans feel Allah's energy is in the body, seen from the point of photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

Signs of the greatness of Allah SWT regarding how humans feel Allah's energy is in the body, are found in several verses, namely:

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"He is the First and the Last, the Outward and the Inward, and He is All-Knowing of all things. (Al Hadid: 57:3)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrir: 66:12)

"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24:35)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth (Al Baqarah: 2: 186)

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven heavens. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

In an effort to open the veil of the greatness of Allah SWT regarding how humans feel Allah's energy is in the body, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose the hypothesis that Allah's energy exists throughout the body, seen from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE ENTIRE HUMAN BODY IS FILLED BY THE ENERGY OF ALLAH THAT BRINGS MY SPIRIT

Now, we are still focusing our minds on uncovering the secret behind the verse: *"... if My servants ask you about Me, then, that I am near... (Al Baqarah: 2: 186)*

Apparently, here Allah has declared that *"...I am near...(Al Baqarah: 2: 186)*

Why is Allah so *"...near...(Al Baqarah: 2: 186) ?*

The answer is

Hidden in the secret behind the verse: *"...I perfected the scene and I breathed into him My spirit..." (Shaad: 38: 72)*

Well, apparently *"... my spirit ..." (Shaad: 38: 72)* with the help of Allah's energy to make humans perfect.

So with Allah's energy, *"... my spirit..." (Shaad: 38: 72)* becomes the basis for building the entire human body. Where *"... My spirit ..." (Shaad: 38: 72)* is an oxygen atom, hydrogen atoms, nitrogen atoms and carbon atoms, which make up the perfect human body.

HOW HUMANS FEEL ALLAH'S ENERGY IN THE BODY

Now, because Allah's energy is present throughout the human body, it is easy for humans to feel how Allah's energy really is.

When humans breathe, humans walk, humans think, humans work, humans sleep, humans pray, all because there is the energy of Allah.

So, when humans think they need Allah's energy.

Now when humans think, then humans must realize and understand that it is Allah's energy that makes humans think.

Now, the secret hidden behind the verse has been revealed: *"...that I am near... (Al Baqarah: 2: 186)* because indeed in the entire human body there is Allah's energy.

It is through this divine energy that humans understand and realize that in fact Allah *"...is near...(Al Baqarah: 2: 186)*

So with humans understanding and realizing that humans live and move then there is the energy of Allah and Allah *"...is near... (Al Baqarah: 2: 186)*

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"... if My servants ask you about Me, then, that I am near... (Al Baqarah: 2: 186)*

Apparently, here Allah has declared that *"...I am near...(Al Baqarah: 2: 186)*

Why is Allah so *"...near...(Al Baqarah: 2: 186) ?*

The answer is

Hidden in the secret behind the verse: *"...I perfected the scene and I breathed into him My spirit..." (Shaad: 38: 72)*

Well, apparently *"... my spirit ..." (Shaad: 38: 72)* with the help of Allah's energy to make humans perfect.

So with Allah's energy, *"... my spirit..." (Shaad: 38: 72)* becomes the basis for building the entire human body. Where *"... My spirit ..." (Shaad: 38: 72)* is an oxygen atom , hydrogen atoms, nitrogen atoms and carbon atoms, which make up the perfect human body.

Now, because Allah's energy is present throughout the human body, it is easy for humans to feel how Allah's energy really is.

When humans breathe, humans walk, humans think, humans work, humans sleep, humans pray, all because there is the energy of Allah.

So, when humans think they need Allah's energy.

Now when humans think, then humans must realize and understand that it is Allah's energy that makes humans think.

Now, the secret hidden behind the verse has been revealed: *"...that I am near... (Al Baqarah: 2: 186)* because indeed in the entire human body there is Allah's energy.

It is through this divine energy that humans understand and realize that in fact Allah *"...is near...(Al Baqarah: 2: 186)*

So with humans understanding and realizing that humans live and move then there is the energy of Allah and Allah *"...is near... (Al Baqarah: 2: 186)*
