## ABSTRACT

Before I write down the problem, how humans talk directly to Allah, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how humans talk directly to Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how humans talk directly to Allah, namely the following verses:

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And the apostles We did tell you about them before, and the apostles We did not tell you about them. And Allah has spoken to Moses directly (An Nisaa ': 4: 164)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36: 9)*

*Allah said: "O Moses, verily I have chosen you and other humans to carry My message and to speak directly with Me, therefore hold fast to what I have given you and be among those who are grateful." (Al A'raaf: 7:144)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

In an effort to unmask Allah's secret about how humans talk directly to Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I propose the hypothesis that humans talk directly to Allah through "... my spirit..." (Shaad: 38: 72) viewed from the basic point of Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **ANYWHERE, ANYTIME, HUMANS CAN TALK DIRECTLY WITH ALLAH**

Now, we are still concentrating on uncovering the secret behind the verse: *"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36: 9)*

Apparently, Allah has made *"...a veil... (Asy Syuura: 42: 51)* between Allah and humans on this earth. This means that the human eye is only limited to seeing light in the electromagnetic spectrum region between 430 and 740 nanometers.

Now, because between Allah and every human being on this earth there is already a *"...veil...(Asy Syuura: 42: 51)* , then anywhere, anytime humans can talk directly to Allah.

## **HOW DO HUMANS SPEAK DIRECTLY WITH ALLAH**

Well, we uncover the secret hidden behind the verse: *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth... (Ali 'Imran: 3:191)*

Apparently, here we are given the freedom by Allah to remember and talk directly to Allah.

Where our thoughts must be truly centered and focused only on Allah. Where our thoughts are focused on *"... my spirit... (Shaad: 38: 72)* which is within us. While closing your eyes.

After that, talk to Allah, in a soft voice. Talk anything.

Now, if tears come out, without being forced, and which you can't hold back, pouring out, that is a sign that we are talking directly to Allah. Subhan Allah. Glory be to Allah, shukron Allah, Alhamdulillah.

This is, a proof that humans can talk directly with Allah.

Why can humans directly talk to Allah?

The answer is

Hidden in the secret behind the verse: *"...We are closer to him than his jugular vein, (Qaaf: 50:16)* because *"...I breathed into him my spirit...(Shaad: 38:72)*

Now, it has been revealed that actually humans, anywhere, anytime, can talk directly to Allah.

## **CONCLUSION**

Based on the description above, we can conclude that the secret behind the verse: *"And We put before them a wall and behind them a wall, and We covered them so that they could not see. (Yaasiin: 36: 9)*

Apparently, Allah has made *"...a veil... (Asy Syuura: 42: 51)* between Allah and humans on this earth.

This means that the human eye is only limited to seeing light in the electromagnetic spectrum region between 430 and 740 nanometers.

Now, because between Allah and every human being on this earth there is already a “...*veil...* (*Asy Syuura: 42: 51*) , then anywhere, anytime humans can talk directly to Allah.

Well, we uncover the secret hidden behind the verse: "*Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth...* (*Ali 'Imran: 3:191*)

Apparently, here we are given the freedom by Allah to remember and talk directly to Allah.

Where our thoughts must be truly centered and focused only on Allah. Where our thoughts are focused on "*... my spirit...* (*Shaad: 38: 72*) which is within us. While closing your eyes.

After that, talk to Allah, in a soft voice. Talk anything.

Now, if tears come out, without being forced, and which you can't hold back, pouring out, that is a sign that we are talking directly to Allah. Subhan Allah. Glory be to Allah, shukron Allah, Alhamdulillah.

This is, a proof that humans can talk directly with Allah.

Why can humans directly talk to Allah?

The answer is

Hidden in the secret behind the verse: "*...We are closer to him than his jugular vein, (Qaaf: 50:16)* because "*...I breathed into him my spirit...(Shaad: 38:72)*

Now, it has been revealed that actually humans, anywhere, anytime, can talk directly to Allah.
