ABSTRACT

Before I write down the problem of how humans feel when Allah holds my spirit in a human body, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of how humans feel when Allah holds my spirit in the human body, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about how humans feel when Allah holds my spirit in a human body, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"And Mary, the daughter of Imran, who kept her honor, so We breathed into her some of Our spirits, and she confirmed the words of her Lord and His Books, and she was one of the obedient ones. (At Tahrim: 66:12)

"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"That is, for verily Allah, He is the Truth, and verily He is the One who gives life to all that dies, and verily Allah has power over all things." (Al Hajj: 22:6)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the All-Mighty (Ibrahim: 14:48)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about how humans feel when Allah holds my spirit in the human body, I use a base of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I proposes a human hypothesis to feel when God holds my spirit in a human body by feeling my spirit building in and out of the body, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

HOW HUMANS FEEL MY SPIRIT IN THE HUMAN BODY

Now, we are still concentrating on uncovering the secrets contained behind the verse: "*Allah holds... the soul that has not died in its sleep...* (Az Zumar: 39: 42)

Apparently, what Allah meant by "...soul...(Az Zumar: 39: 42) was "... *I breathed into him my spirit...* (Shaad: 38: 72)

So, what is breathed by Allah into the human body is "...*my spirit...* (Shaad: 38: 72)

So, when humans are sleeping "*Allah holds ...* (Az Zumar: 39: 42) "*... My spirit ...* (Shaad: 38: 72) which is in the human body.

Because "... *my spirit...* (Shaad : 38: 72) is made up of hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms, humans will feel and hear how hydrogen atoms, oxygen atoms and carbon atoms enter and leave the body. man.

Or in other words, humans will feel how "...*my spirit...* (Shaad: 38: 72) is in the human body.

When humans are standing or sitting or lying down, humans will feel how oxygen atoms enter the human body, as well as carbon atoms and oxygen atoms leave the human body.

Likewise, when humans are sleeping, oxygen atoms enter the body and the combined carbon and oxygen atoms leave the body.

So, in fact, humans have been able to feel how the building "... *My spirit...* (Shaad: 38: 72) which consists of hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms enters and leaves the human body.

WHEN PEOPLE SLEEP ALLAH HOLDS MY SPIRIT

Now, without realizing it and without understanding it, actually, when humans are sleeping Allah holds "...*my spirit...* (Shaad: 38:72) which is in the human body, "*Allah holds... the soul that has not died in the human body. sleep time...*(Az Zumar : 39: 42)

So, actually, Allah has given a very easy picture to humans, how the real existence of Allah is very close to the human body.

The problem is, humans do not understand and do not realize the true existence of Allah, when in fact Allah "...*is near...*(Al Baqarah: 2: 186) even "...*closer to him than his jugular vein.*" (Qaf: 50:16)

Through breathing, when oxygen atoms are inhaled through the nose, actually humans should have understood and realized that "...*my spirit...* (Shaad: 38: 72) is in the human body. Likewise, when the carbon atom that unites with the oxygen atom exits the human body through the respiratory tract, then actually humans must have understood and already realized that "...*my spirit...* (Shaad: 38: 72) is in the human body.

Well, because "...*my spirit...* (Shaad: 38:72) is in the human body, then Allah holds "...*My spirit...* (Shaad: 38:72) which is in the human body, when the man is sleeping.

WHEN ALLAH HOLDS MY SPIRIT WHEN HUMANS SLEEP, THEN HUMANS DIE

Now, when Allah withholds "...*the soul which He has decreed for death...*(Az Zumar: 39:42)

then the man dies.

Or in other words, when Allah restrains "*...my spirit... (Shaad: 38:72)*" which is in a sleeping human body, then the human dies.

Well, because "*... My spirit... (Shaad: 38: 72)*" is restrained by Allah, then the hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms are the building blocks of "*... My spirit... (Shaad: 38:72)*" doesn't work anymore.

30 DAYS AFTER HUMANS DIE AND BURIED IN THE SOIL, MY SPIRIT COMES OUT AND ASSISTANT TO ALLAH

Well, it turns out that after 30 days humans die and are buried in the ground, then out "*... My spirit... (Shaad: 38: 72)*" which is built by hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms "*... who gives life to all that is dead...(Al Hajj: 22:6)*" "*...gathering before the presence of Allah...(Ibrahim: 14:48)*"

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: "*Allah holds... the soul that has not died in its sleep... (Az Zumar: 39: 42)*"

Apparently, what Allah meant by "*...soul...(Az Zumar: 39: 42)*" was "*... I breathed into him my spirit... (Shaad: 38: 72)*"
