## DASAR PEMIKIRAN

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding how humans know that the jinn have mastered other planets in the Milky Way galaxy, while Allah has challenged the jinn and humans to navigate the sky, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret, how humans can find out that the jinn have mastered other planets in the Milky Way galaxy, while Allah has challenged the jinn and humans to navigate the sky, namely the verses:

*"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it, you cannot penetrate it except with knowledge (Ar Rahmaan: 55: 33)*

*"We will pay full attention to you, O humans and jinn. (Ar Rahmaan: 55: 31)*

*"Say: "It has been revealed to you that you have heard a group of jinn, then they say: Verily, we have heard a wonderful Qur'an, (Al-Jin: 72:1)*

*"And that when the servant of Allah stood worshiping Him, the jinn were almost forced to swarm around him. (Al Jin: 72: 19)*

*"The angels answered: "Glory be to You. You are our protector, not them; even they have worshipped the jinn; most of them believe in the jinn." (Saba': 34: 41)*

*"And that there are some men among mankind asking for protection from some men among the jinn, then the jinn add to their sins and faults. (Al Jin: 72: 6)*

*"And when We confronted you with a group of jinn who listened to the Qur'an, then when they attended the recitation they said: "Be quiet." When the recitation was finished they returned to their people giving a warning. (Al Ahqaaf: 46: 29)*

*"And verily among us there are those who are pious and among us there are those who are not. We are taking different paths. (Al Jin: 72:11)*

*"And verily among us are those who obey and there are those who deviate from the truth. Whoever is obedient, then they have indeed chosen the straight path. (Al Jin: 72:14)*

*"... the devil. He is from the jinn group... (Al Kahf: 18: 50)*

*"And He created the jinn from a flame of fire. (Ar Rahmaan: 55:-:15)*

*"And We created the jinn before from a very hot fire. (Al Hijr: 15: 27)*

*"They were never touched by humans before them, nor by jinn. (Ar Rahmaan: 55: 74)*

*"And verily We have created man from dry clay from black mud which was given shape. (Al Hijr: 15: 26)*

*"And we used to be able to occupy several places in the sky to listen. But now whoever listens will certainly find fire arrows lurking. (Al Jin: 72: 9)*

*"O group of jinn and humans, have there not come to you messengers from your own class, who conveyed to you My Signs and warned you against your meeting with this day? They said: "We are witnesses against ourselves", the life of this world have deceived them, and they bear witness against themselves that they are disbelievers (Al An'aam: 6 130)*

*"And if We had willed, We would have given every soul guidance, but the word has remained from Me: "Indeed, I will fill the Hell with jinns and humans together." (As Sajdah: 32:13)*

*"And He taught Adam all the names, then presented them to the angels and said: "Name me the names of these things if you are true, those who are true!" (Al Baqarah: 2:31)*

*"And assembled for Solomon his army of jinn, humans and birds and then they were arranged in an orderly manner. (An Naml: 27:17)*

In an effort to open the veil, how humans can find out that the jinn have mastered other planets in the Milky Way galaxy, while Allah has challenged the jinn and humans to navigate the sky, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids. .

## **HYPOTHESIS**

Here I propose a hypothesis to find out that the jinn have mastered other planets in the Milky Way galaxy, while God has challenged the jinn and humans to navigate the sky, is through the search for evidence that has been carried out by the jinn and the search for where the jinn actually are on this earth , viewed from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **BASED ON WHAT ALLAH CHALLENGES JIN AND HUMANS TO CROSS THE SKY**

Now, we are still trying to focus our minds to reveal the secrets stored in the verse: *"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it, you cannot penetrate it except with knowledge (Ar Rahman: 55:33)*

Who is the genie, so that Allah mentions the name of the jinn before the human name *"O congregation of jinn and humans... (Ar Rahmaan: 55: 33) ?*

Well, it turns out that the jinn are *"... We have created the jinn before from a very hot fire. (Al Hijr: 15:*

27)

So, actually the jinn were created no different from Adam, namely with oxygen and hydrogen atoms *"...from a very hot fire. (Al Hijr: 15: 27)*

Well, *"...a very hot fire. (Al Hijr: 15: 27)* are oxygen and hydrogen atoms.

Where hydrogen atoms as fuel in the stars and sun. While the oxygen atom on our earth today, because the oxygen atom is very easy to oxidize with other atoms, such as with hydrogen atoms, into water. Where the oxygen atom is very flammable.

So, in fact, between jinn and humans are not much different. If there are humans, then there are jinn. Jinn are actually human too. So, if humans want to look for jinn, they will not find jinns, because jinns are a type of human.

Well, because the jinn are a kind of human, then why does Allah challenge *"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross... (Ar Rahmaan: 55: 33)*

Well, why is the name of the jinn mentioned before the name of humans *"O congregation of jinn and humans ... (Ar Rahmaan: 55: 33)*

Because, indeed Allah *"...has created the jinn before from a very hot fire. (Al Hijr: 15: 27)*

That is, Allah *"...created the jinn before....(Al Hijr: 15: 27)* Adam.

So, actually Allah mentions the name of the jinn before the name of humans, it is out of respect, and indeed the jinn were created before Adam was created.

## **ALLAH CHALLENGES JIN AND HUMANS TO CROSS THE SKY**

Well, here Allah has known that in fact only humans and jinn on this earth have been given knowledge of the seven skys and all their contents *"... He taught Adam all the names... (Al Baqarah: 2: 31)*

Meanwhile, the jinn are because of a kind of human, then actually the jinn are humans themselves.

So, if humans have been given knowledge by Allah, then indirectly the jinn also get knowledge from Allah.

When, at the time of Prophet Solomon, was in power, *"... his army was assembled for Solomon from the jinn, humans... (An Naml: 27:17)*

So, it is clear, jinn and humans are the same, humans become soldiers, then jinn also become soldiers.

## **IT'S HARD TO MEET JIN, BECAUSE JINN ARE IN THE FORM AND TYPE OF HUMAN**

If Allah, challenges *"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross... (Ar Rahmaan: 55: 33)*

The fact is that Allah only challenges humans, why only humans and not the jinn too?

The answer is, because Allah *"...has created the jinn... from a very hot fire. (Al Hijr: 15: 27)*

Meanwhile, *"... a very hot fire. (Al Hijr: 15: 27)* are oxygen and hydrogen atoms.

Also, in the human body there are oxygen and hydrogen atoms, *"...We have created man from dry clay from black mud...(Al Hijr: 15:26)*

Because, *"...black mud...(Al Hijr: 15: 26)* is soil which contains hydrogen atoms, oxygen atoms, carbon atoms.

So, in fact, between jinn and humans are not much different.

Now, it has been revealed, the secret that is hidden behind the verse: *"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it... (Ar Rahmaan: 55: 33)*

That is, in fact, Allah only challenges humans, because jinn and humans are the same.

## CONCLUSION

Based on the description above, we can conclude that the secrets stored in the verse: *"O congregation of jinn and humans, if you are able to penetrate the corners of the heavens and the earth, then cross it, you cannot penetrate it except with knowledge (Ar Rahman: 55:33)*
