## ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of the greatness of Allah SWT about how the Prophet Muhammad saw the splitting of the moon, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking Allah's secret about how the Prophet Muhammad saw was actually with the splitting of the moon, namely the following verses:

*"The time is near and the moon has split (Al Qamar: 54: 1)*

*"And We have appointed for the month manzilah-manzilah, so that it will return as an old bunch (Yaasiin: 36: 39)*

*"Allah is the light of the heavens and the earth...Light upon light...(An Nuur: 24: 35)*

*"When the sun is rolled up (At Takwiir: 81: 1)*

*"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70: 4)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

In an attempt to unmask the true nature of the Prophet Muhammad saw with the splitting of the moon, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I propose the split-moon hypothesis is the moon that is visible to humans on earth only in front of it, due to synchronous rotation, viewed from the angle of photons, quarks and Deoxyribonucleic acid (DNA).

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## THE CREATING OF THE EARTH, THE MOON AND THE SUN 5 000 000 000 YEARS AGO

Now, we are still concentrating on uncovering the secret behind the verse: *"The time is near and the moon has split (Al Qamar: 54: 1)*

It turns out, clearly illustrated, that *"The time is near... (Al Qamar: 54: 1)*

That is, here Allah explains that when the sun, earth, moon *"...rolled up (At Takwiir: 81: 1)*

Well, when *"...the sun is rolled up (At Takwiir: 81: 1)* between 2 500 000 000 - 5 000 000 000 years from now according to human calculations or if according to Allah's calculations between 137 – 274 years

Now, if *"...the sun is rolled up (At Takwiir: 81:1)* then the earth and the moon will die.

So, here Allah explains, before *"...the sun is rolled up (At Takwiir: 81: 1)* , the earth and the moon die, so pay attention to what happens to the moon for 5000 000 000 years from the time it was created by Allah.

## THE MIRACLES OF THE PROPHET MUHAMMAD SAW WITH THE SPLIT MOON IS A MIRACLE OF SCIENCE ABOUT THE CREATION OF THE SKY AND EARTH

Well, now we continue to unpack the secrets that are hidden behind the verse: *"...the moon has been split (Al Qamar: 54: 1)*

In fact, the miracle of the Prophet Muhammad saw with the splitting of the moon is to illustrate to all humans on this earth, that to know about the creation of the heavens and the earth and the universe is to use science.

Why is the miracle of splitting the moon a miracle of science?

The answer is

Hidden in the secret behind the verse: *"And We have appointed for the month manzilah-manzilah, so that it returns as an old bunch (Yaasiin: 36: 39)*

Apparently, Allah has explained that *"... We set for the month manzilah-manzilah, so that it returns as an old bunch (Yaasiin: 36: 39)*

That is, here, the light of the sun that reaches the moon, visible to the human eye on earth changes

its shape, or what is called "*..manzilah-manzilah... (Yaasiin: 36: 39)*

However, what humans do not realize and do not know is that the surface of the moon is changing "*..manzilah... Yaasiin: 36: 39* ), only the front side is facing the earth.

So, the moon is only visible from the front only, by the human eye on earth, from 5000 000 000 years ago.

Now the question arises,

Why is the surface of the moon only visible from the front?

The answer is

Because the moon does a synchronous rotation.

That is, the moon rotates on its axis, 27 days 32 hours, the same as when the moon revolves around the earth, for 27 days 32 hours.

So, what is visible to the human eye on earth, is the surface of the moon that faces the earth only, while the surface at the back is not visible from the earth.

Well, this is the secret described by Allah "*...the moon has been split (Al Qamar: 54: 1)*

That is, Allah gives a picture to all humans, that the rays of sunlight that reach the surface of the moon, are only visible on the front surface of the moon, the back of the moon is not visible, as long as since the creation of the moon, 5000 000 000 years ago.

Or in other words, the miracle of the Prophet Muhammad saw with the splitting of the moon, is a miracle of science, that to understand the creation of the earth and the moon, science must use science.

Now, the secret hidden behind the verse has been revealed: "*...the moon has been split (Al Qamar: 54: 1)*

That is, the moon is not split, for 5000 000 000 years, but, what is split, is the sunlight that reaches the surface of the moon, which is visible to the human eye on earth, only one side of the lunar surface is in front of it. While the surface of the moon on the back is not visible to the human eye on earth.

That's all, is the result of the moon doing a synchronous rotation.

## CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: "*The time is near and the moon has split (Al Qamar: 54: 1)*

It turns out, clearly illustrated, that "*The time is near... (Al Qamar: 54: 1)*

That is, here Allah explains that when the sun, earth, moon "*...rolled up (At Takwiir: 81: 1)*

Well, when "*...the sun is rolled up (At Takwiir: 81: 1)* between 2 500 000 000 - 5 000 000 000 years

from now according to human calculations or if according to Allah's calculations between 137 – 274 years

Now, if *"...the sun is rolled up (At Takwiir: 81:1)* then the earth and the moon will die.

So, here Allah explains, before *"...the sun is rolled up (At Takwiir: 81: 1)* , the earth and the moon die, so pay attention to what happens to the moon for 5000 000 000 years from the time it was created by Allah.

Well, now we continue to unpack the secrets that are hidden behind the verse: *"...the moon has been split (Al Qamar: 54: 1)*

In fact, the miracle of the Prophet Muhammad saw with the splitting of the moon is to illustrate to all humans on this earth, that to know about the creation of the heavens and the earth and the universe is to use science.

Why is the miracle of splitting the moon a miracle of science?

The answer is

Hidden in the secret behind the verse: *"And We have appointed for the month manzilah-manzilah, so that it returns as an old bunch (Yaasiin: 36: 39)*

Apparently, Allah has explained that *"... We set for the month manzilah-manzilah, so that it returns as an old bunch (Yaasiin: 36: 39)*

That is, here, the light of the sun that reaches the moon, visible to the human eye on earth changes its shape, or what is called *"..manzilah-manzilah... (Yaasiin: 36: 39)*

However, what humans do not realize and do not know is that the surface of the moon is changing *"..manzilah... Yaasiin: 36: 39)* , only the front side is facing the earth.

So, the moon is only visible from the front only, by the human eye on earth, from 5000 000 000 years ago.

Now the question arises,

Why is the surface of the moon only visible from the front?

The answer is

Because the moon does a synchronous rotation.

That is, the moon rotates on its axis, 27 days 32 hours, the same as when the moon revolves around the earth, for 27 days 32 hours.

So, what is visible to the human eye on earth, is the surface of the moon that faces the earth only, while the surface at the back is not visible from the earth.

Well, this is the secret described by Allah *"...the moon has been split (Al Qamar: 54: 1)*

That is, Allah gives a picture to all humans, that the rays of sunlight that reach the surface of the moon, are only visible on the front surface of the moon, the back of the moon is not visible, as long

as since the creation of the moon, 5000 000 000 years ago.

Or in other words, the miracle of the Prophet Muhammad saw with the splitting of the moon, is a miracle of science, that to understand the creation of the earth and the moon, science must use science.

Now, the secret hidden behind the verse has been revealed: "*...the moon has been split (Al Qamar: 54: 1)*

That is, the moon is not split, for 5000 000 000 years, but, what is split, is the sunlight that reaches the surface of the moon, which is visible to the human eye on earth, only one side of the lunar surface is in front of it. While the surface of the moon on the back is not visible to the human eye on earth.

That's all, is the result of the moon doing a synchronous rotation.
