ABSTRACT

Before I write down the problem, how exactly, angels and jinn die, I first ask forgiveness from Allah SWT. Here I try to unmask the hidden secrets of, how, actually, angels and jinn die, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about, how, actually, angels and jinn die, namely the following verse:

"And We have not made the guardians of hell except from angels... (Al Muddatstsir: 74: 31)

"They cried out: "O Malik, let your Lord kill us alone." He replied: "You will stay." (Az Zukhruf: 43:77)

"... We made the apostle an angel, ... he was a man ... (Al An'aam: 6: 9)

"And if We wish, We have indeed made in your place on earth angels from generation to generation. (Az Zukhruf: 43:60)

"When your Lord reveals to the angels: "Indeed I am with you, then strengthen those who have believed." Later I will strike fear into the hearts of the disbelievers, then cut off their heads and cut off every tip of their finger. (Al Anfaal: 8:12)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are the signs of Allah's power for a people who think (Az Zumar : 39: 42)

"What if the angels take their lives while beating their faces and their backs? (Muhammad: 47:27)

"When I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15:29)

"And We created the jinn before from a very hot fire. (Al Hijr: 15: 27)

Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all entered, those who entered later among them said to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf : 7:38)

"In paradise there will be fair nymphs who lower their gaze, never touched by humans before them, nor by jinn. (Ar Rahmaan: 55: 56)

"And verily among us there are those who are pious and among us there are those who are not. We are taking different paths. (Al Jin: 72:11)

"And verily among us are those who obey and there are those who deviate from the truth. Whoever is obedient, then they have indeed chosen the straight path. (Al Jin: 72:14)

In an attempt to unmask, how exactly, angels and jinn die, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that angels and jinn die just like dead humans, from the point of view of photons, quarks and Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

HUMAN FAMILY, ANGEL FAMILY, JIN FAMILY

Now, we still continue to focus our minds in order to uncover the secrets contained in the verse: "*... if We wished, We really made angels in your place on earth for generations. (Az Zukhruf: 43: 60)*

It turns out, it is clearly illustrated, that in fact, the angel has a family, "*... on earth the angels are hereditary. (Az Zukhruf: 43: 60)*

That is, because angels have families "*... which are passed down from generation to generation. (Az Zukhruf: 43: 60)*, then the angels develop into many, just as humans develop into many.

Likewise with the jinn, where the jinn have wives and have families. "*In paradise there are polite nymph lowering their eyes, never touched by humans before them, nor by jinn. (Ar Rahmaan: 55: 56)*

It turns out, the jinn have a wife "*...never touched by humans before them, nor by jinns. (Ar Rahman: 55: 56)*

That is, the jinn on this earth, touch women, because indeed the jinn have a family.

Well, if the genie has a family, then the genie family "... which is hereditary. (Az Zukhruf: 43:60)

HOW ANGELS AND JINN DIE

Now, let's uncover the secret hidden behind the verse: *"Allah says: "Enter all of you into hell with the jinn and humans who went before you... (Al A'raaf: 7: 38)*

It turns out, if humans are put into hell, after humans die *"Allah holds the soul when it dies... in its sleep... He holds the soul that He has determined to die... (Az Zumar: 39: 42)*

Well, if humans are put into hell, it is *"... my spirit... (Al Hijr: 15: 29)* , after *"... My spirit... (Al Hijr: 15: 29)* comes out of the human body. who died in the grave.

Now the question arises,

How did the jinn die?

The answer is

Hidden in the secret behind the verse: *"And We created the jinn before from a very hot fire. (Al Hijr: 15: 27)*

Apparently, the jinn were created by Allah from *"...from a very hot fire. (Al Hijr: 15: 27)*

It means, *"...a very hot fire. (Al Hijr: 15: 27)* is a hydrogen atom and an oxygen atom.

Well, if the body of the jinn contains hydrogen atoms and oxygen atoms, then in the body of the jinn there is *"...my spirit...(Al Hijr: 15: 29)* , because in *"...my spirit...(Al Hijr : 15: 29)* contains hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms.

So, because the jinn are the same as humans, then when the jinn dies it is like the human dies, namely *"Allah holds the soul when it dies... in its sleep... He holds the soul for which He has determined death... (Az Zumar :39:42)*

Well, the one who take jinn life is Allah.

Then, now with angels, how do angels die?

The answer is

Hidden behind the verse: *"Allah holds the soul when it dies... in its sleep... He holds the soul which He has decreed for death... (Az Zumar: 39: 42)*

That is, the way angels, humans and jinn die is *"...He endures the soul He has decreed for his death... (Az Zumar: 39: 42)*

Because, angels are the same as humans *"... We made the apostle an angel, ... he was a man ... (Al An'aam: 6: 9)*

So, it is Allah who take angels life, humans life and jinn life

When, angels, humans and jinn are in paradise, in hell, it is actually *"...my spirit...(Al Hijr: 15: 29)* that comes out of the bodies of angels, human bodies and jinn bodies.

Now, the secret hidden behind the verse has been revealed: *"Allah says: "Enter all of you into hell with the jinn and humans who went before you..." (Al A'raaf: 7: 38) "They shouted: "O Malik, let your Lord kill us alone." He replied: "You will stay." (Az Zukhruf: 43:77)*

Namely, humans, jinn and angels are in paradise and in hell, is *"... my spirit... (Al Hijr: 15: 29)* that comes out of the bodies of angels, human bodies and jinn bodies.

When angels, humans and jinn die it is *"Allah...He holds the soul which He has decreed for death...(Az Zumar: 39: 42)*

CONCLUSION

Based on the description above, we can conclude that the secrets contained in the verse: *"... if We wished, We really made angels in your place on earth for generations. (Az Zukhruf: 43: 60)*

It turns out, it is clearly illustrated, that in fact, the angel has a family, *"... on earth the angels are hereditary. (Az Zukhruf: 43: 60)*

Likewise with the jinn, where the jinn have wives and have families. *"In paradise there are polite nymph lowering their eyes, never touched by humans before them, nor by jinn. (Ar Rahmaan: 55: 56)*

When, angels, humans and jinn are in paradise, in hell, it is actually *"...my spirit...(Al Hijr: 15: 29)* that comes out of the bodies of angels, human bodies and jinn bodies.
