## ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of the greatness of Allah SWT regarding how long, Allah created the universe from beginning, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an found several verses that are the key to unlocking the secret of how long, Allah created the universe from beginning, namely the verses:

*"The angels and Gabriel ascended to God in a day the measure of which was fifty thousand years. (Al Ma'aarij: 70:4)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Indeed, the creation of the heavens and the earth is greater than the creation of man, but most people do not know. (Al Mu'min: 40: 57)*

*"And it is He Who created the heavens and the earth in six days, and His throne is over the water, so that He may test which of you is better in deed, and if you say: "Indeed, you will be resurrected after death." those who disbelieve will say: "This is nothing but real magic." (Huud: 11:7)*

*"Then He headed towards the creation of the heavens and the sky was still smoke, then He said to him and to the earth: "Come, both of you, at My commandment willingly or unwillingly." Both of them replied: "We came willingly." (Fushshilat :41:11)*

*"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"So He made it seven heavens in two days. He revealed in each sky its affairs. And We adorn the near sky with bright stars and We take care of it as well as possible. Such is the provision of the Mighty, All-Knowing. (Fushshilat :41:12)*

In an attempt to unmask how long Allah created the universe from beginning, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I propose a hypothesis for how long, Allah created the universe from beginning according to Allah's calculations, 1 day is equal to 50 000 years according to human calculations, from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we look at one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## BY USING WHAT CALCULATIONS, HUMANS KNOW WHEN THE UNIVERSE WAS CREATED

Now, we continue to try to concentrate our minds to reveal the secrets that are contained in the verse: *"...He made it into seven skys in two days. He revealed in each sky his business. And We decorated the sky that was close to the bright stars. ... (Fushshilat: 41:12)*

Now, the question arises

When did Allah create *"...the seven skys in two days... (Fushshilat: 41:12) ?*

Now, we now use the speed of light, which according to the speed of light based on Allah, 1 day the speed of light according to Allah's calculation is equal to 50 000 years of the speed of light according to human calculations.

1 second the speed of light according to human calculations is 299 792 458 m

Well, according to human calculations, the universe or *"...the seven skys... (Fushshilat: 41:12)* that is visible today, was created about 13 700 000 000 light years.

It turns out, if you count it according to Allah's reckoning, *"...a day is fifty thousand years. (Al Ma 'aarij: 70: 4)* , then the age of the universe until now is 750.68 light years or rounded up to 751 light years.

So, according to Allah's reckoning the age of the universe is still young, 751 light years, compared to the human calculation of 13 700 000 000 light years.

## 751 YEARS OF LIGHT ACCORDING TO GOD'S CALCULATIONS, THE UNIVERSE BEGINS TO CREATE

Now, it is being revealed that the universe created by Allah is 751 light years old according to Allah's reckoning. If according to human calculations his age is 13 700 000 000 light years.

The size of the universe when Allah first created it was the size of a marble compared to the size of a football field.

In a period of 0.000 000 000 000 000 000 000 000 000 000 000 000 0001 seconds, or equal to 1 second divided by the number 1 followed by 43 numbers 0, a universe, the size of a marble, was created through the help of Allah's energy.

That's when quarks are created. After quarks were created, 300 000 years later, according to human calculations, hydrogen atoms were born. The hydrogen atom contains quarks.

Only then, after the hydrogen atom was formed, Allah "*...made...seven skys in two days...We decorated the near sky with bright stars...(Fushshilat: 41:12)* Two days according to Allah's reckoning, if calculated according to human calculations is 100 000 years.

After that Allah "*...created the skys and the earth in six days, and is His throne above the water... (Huud: 11:7)* That is, in six days according to Allah's reckoning, equal to 300 000 years according to human calculations. .

## ALLAH'S ENERGY THAT BRINGS QUARK, ATOM AND THE UNIVERSE

Now, we continue to uncover the secret behind the verse: "*...He leads to the creation of the skys...(Fushshilat: 41:11)*

Sky means the expanse of air where the stars, planets and moon are, formed because of the energy of Allah.

Then Allah "*...towards the creation of the skys and the sky is still smoke... (Fushshilat: 41:11)*

Well, "*...the sky...is still smoke...(Fushshilat: 41:11)* , where smoke is hydrogen atoms, carbon atoms, nitrogen atoms, which are the raw materials for the creation of stars and planets.

Now, the secret hidden behind the verse has been revealed: "*...He made the seven skys in two days...(Fushshilat: 41:12)* "*...We adorn the sky that is close to the bright stars... (Fushshilat: 41:12)*

It means "*...seven skys...(Fushshilat: 41:12)* "*...bright stars...(Fushshilat: 41:12)* formed, after Allah's energy gave birth to quarks, then quarks gave birth to hydrogen atoms.

Hydrogen atoms give birth to stars.

## CONCLUSION

Based on the description above, we can conclude that the secrets that are contained in the verse: "*...He made it into seven skys in two days. He revealed in each sky his business. And We decorated the sky that was close to the bright stars. ...(Fushshilat: 41:12)*

Now, the question arises
