ABSTRACT

Before I write down the problem of what will happen with Allah, if in Allah's form there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret of what will happen with Allah, if in the form of Allah there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, from the point of view of the molecular structure of nucleic acids or deoxyribonucleic acid (DNA). .

There are several verses that become Allah's secret unlocking tool about what will happen with Allah, if in Allah's form there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"The angels and spirit ascended to God in a day the measure of which was fifty thousand years (Al Ma'aarij: 70:4)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the All-Mighty (Ibrahim: 14:48)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise and All-Knowing. (Al Baqarah: 2: 115)

"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And when Moses came at our appointed time and the Lord had spoken to him, Moses said: "My Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but behold. to the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to you. , I repent to You and I am the first to believe." (Al A'raaf: 7: 143)

"Didn't We create you from despicable water (Al Mursalaat: 77:20)

"Then We made the essence of semen in a solid place. (Al Mu'minuun: 23:13)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"And does man not notice that We created him from a drop of water, then suddenly he becomes a real challenger (Yaasiin: 36: 77)

"And it is Allah Who has brought you to life, then caused you to die, then brought you to life, verily the human being is very much denying the favor. (Al Hajj: 22: 66)

"Those who when disaster strikes, they say: "Inna lillahi wa innaa ilaihi raaji'uun" (Indeed we belong to Allah and to Him we shall return) (Al Baqarah: 2: 156)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the skys and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And it is Allah Who has brought you to life, then caused you to die, then brought you to life, verily the human being is very much denying the favor. (Al Hajj: 22: 66)

In an effort to open the veil of Allah's secret about what will happen with Allah, if in Allah's form there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis if in the form of Allah there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then these atoms will disappear from Allah's form, seen from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM WILL GIVE UP WHEN THE SEVEN SKYS REACHES THE AGE OF 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 YEARS

Now, we are still focusing our minds on uncovering the secrets contained behind the verse: *"He is the First and the Last, the Outward and Inner; and He is All-Knowing of all things. (Al Hadid: 57:3)*

Now, the question arises,

What about Allah in the form of Allah, there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden in the secret behind the verse: *"...He Who Lives eternally and continuously takes care of... (Al Baqarah: 2:255)*

Well, because Allah *"...Eternal life...(Al Baqarah: 2:255)*, so even though in the form of Allah there is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years will disappear, because the nuclear power that holds the

quarks in the atom is gone, but Allah will not disappear, because there are still quarks and Allah's energy in Allah's form.

Where quarks and Allah's energy will be used to create the new seven skys. Because the seven skys which have now reached the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years will disappear, due to the loss of the nuclear power that holds the quarks in the atoms.

ALLAH AND ALLAH'S ENERGY WILL NOT BE LOST, WHICH IS LOSSING HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM AND OTHER ATOM

Because Allah "...*Eternal life continues to take care of...* (Al Baqarah: 2:255), then with the loss of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, Allah will create new atoms with quarks that are different from each other. eternal life. Next, with the new atoms, seven new skys will be created.

Then the seven skys which are now about to disappear back into the energy of Allah. Where Allah's energy will be returned to Allah.

THERE IS A HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM IN THE FORM OF ALLAH

Now, with the existence of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of Allah, Allah will be the source of life for the seven skys and all of their contents, including humans.

Because, without hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, there would be no living things on our earth today.

The difference between Allah and Allah's living creatures, including humans, is that if in the bodies of Allah's living creatures including humans there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then Allah's living creatures including humans will disappear after these atoms reach the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Meanwhile, even though Allah exists in the form of Allah, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, but Allah's form will still live because of Allah's energy and quarks. So that Allah lives eternally.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: "*He is the First and the Last, the Outward and Inner; and He is All-Knowing of all things.* (Al Hadid: 57:3)

Now, the question arises,

What about Allah in the form of Allah, there is Allah's energy, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms?

The answer is hidden in the secret behind the verse: "...*He Who Lives eternally and continuously takes care of...* (Al Baqarah: 2:255)

Well, because Allah "...*Eternal life...*(*Al Baqarah: 2:255*), so even though in the form of Allah there is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years will disappear, because the nuclear power that holds the quarks in the atom is gone, but Allah will not disappear, because there are still quarks and Allah's energy in Allah's form.

Where quarks and Allah's energy will be used to create the new seven skys. Because the seven skys which have now reached the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years will disappear, due to the loss of the nuclear power that holds the quarks in the atoms.

Because Allah "...*Eternal life continues to take care of...* (*Al Baqarah: 2:255*), then with the loss of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, Allah will create new atoms with quarks that are different from each other. eternal life. Next, with the new atoms, seven new skys will be created.

Then the seven skys which are now about to disappear back into the energy of Allah. Where Allah's energy will be returned to Allah.

Now, with the existence of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of Allah, Allah will be the source of life for the seven skys and all of their contents, including humans.

Because, without hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, there would be no living things on our earth today.

The difference between Allah and Allah's living creatures, including humans, is that if in the bodies of Allah's living creatures including humans there are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then Allah's living creatures including humans will disappear after these atoms reach the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Meanwhile, even though Allah exists in the form of Allah, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, but Allah's form will still live because of Allah's energy and quarks. So that Allah lives eternally.
