ABSTRACT

Before I write down human problems are a reflection of Allah, because humans are a picture of the seven mini skys, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret that humans are a reflection of Allah, because humans are a picture of the seven mini skys, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about humans as a reflection of Allah, because humans are a picture of the seven mini skys, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij:

70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And there is no power of the devil over them, but only that We may distinguish those who believe in the existence of the Hereafter from those who doubt about it. And your Lord is the Preserver of all things. (Saba': 34:21)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"Allah owns all that is in the heavens and the earth. And woe to the disbelievers because of a very painful torment, (Ibrahim: 14:2)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about man is a reflection of Allah, because man is a picture of the seven mini heavens, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that humans are a reflection of Allah, because humans are a picture of the seven mini heavens, and are formed by 70 00000000 00000000 00000000 atoms, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with

gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

HUMANS WERE CREATED BY ALLAH AS A MIRROR OF ALLAH AND A PICTURE OF THE SEVEN MINI SKYS

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk : 67: 3)"...We have created man from an essence from soil. (Al Mu'minuun: 23:12)"...I breathed into him my spirit...(Shaad: 38:72)*

It turns out, here Allah has revealed the true form of Allah, that in the creation of *"... the seven skys... (Al Mulk: 67: 3)* and the creation of man is the source" *...soil(Al Mu'minuun: 23: 12)*

Now the question arises,

What's up with *"...soil (Al Mu'minuun: 23: 12)* so that it is used as a source of creation *"... the seven skys... (Al Mulk: 67: 3)* and the creation of man?

The answer is

Because the soil contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms are the building blocks of the human body and the building of the seven heavens and all that is in them.

For this reason, why Allah made man as a mirror of Allah and as an image of the seven mini skys.

TO UNDERSTAND ABOUT THE REAL ALLAH, THEN LOOK AT HUMANS AS A MIRROR OF ALLAH AND AS MINI BUILDINGS OF THE SEVEN SKYS

Now, when Allah created man, in this case Adam, illustrates how Allah's thoughts and plans were manifested into Adam's body.

So, Adam, is the true image and plan and mind of Allah, after the creation of the seven Skys.

Or in other words, humans in this case Adam is a reflection of Allah, as well as a mini form of the seven Skys.

So, if humans want to understand the real Allah, then look at and study humans thoroughly.

The human mind is an image of the mind of Allah.

65 000000000 nerve cells in the brain are miniature representations of the networks that make up the mind of Allah in the form of Allah.

ANGELS, JIN, SATAN AND DEVIL, EVEN THOUGH THE TYPES OF HUMANS, BUT NOT A REFLECTION OF ALLAH

So, now the question arises,

Why are angels, jinn, satans and devils even though they are human beings, but are not reflections of Allah ?

The answer is

Hidden in the secret behind the verse: *"... We have created man from an essence from the soil (Al Mu'minuun: 23: 12)*

Well, **"...soil. (Al Mu'minuun: 23: 12)** is the source for creating humans and the seven skys and all their contents. Because in the soil contains hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms.

In the bodies of angels, jinn, satans and devils, also contain hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms, but angels, jinn, satans and devils are not made into mirrors by Allah, but are used as balancers for human life, so that humans balanced life. Angels lead in good directions, and satans, devils lead in bad directions.

So, actually, angels, jinn, devils and devils were created by Allah to make humans *"... balance... (Al Mulk: 67: 3)*

Because with humans *"... balanced... (Al Mulk: 67: 3)*, then Allah and humans are *"... balanced... (Al Mulk: 67: 3)*

Now, it has been revealed, the secret hidden behind the verse: *"Who has created the seven skys in layers ... balanced ... (Al Mulk: 67: 3)" ... We have created man from an essence from the soil (Al Mu'minun: 23:12)*

That is, in the creation of *"...the seven skys...(Al Mulk: 67:3)* and the creation of *"...humans...(Al Mu'minuun: 23:12)* the source is *"...soil (Al-Mu'minuun: 23:12). Mu'minun: 23:12)*

Where in the soil contains hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms.

Or in other words, in the creation of *"...the seven skys...(Al Mulk: 67: 3)* and the creation of *"...humans...(Al Mu'minuun: 23: 12)* the source is *"... my spirit...(Shaad : 38:72)*

This is why man is a reflection of Allah and is a miniature form of the seven skys.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk : 67: 3)"...We have created man from an essence from soil. (Al Mu'minuun: 23:12)"...I breathed into him my spirit...(Shaad: 38:72)*

It turns out, here Allah has revealed the true form of Allah, that in the creation of *"... the seven skys... (Al Mulk: 67: 3)* and the creation of man is the source" *...soil(Al Mu'minuun: 23: 12)*

Now the question arises,

What's up with *"...soil (Al Mu'minuun: 23: 12)* so that it is used as a source of creation *"... the seven skys... (Al Mulk: 67: 3)* and the creation of man?

The answer is

Because the soil contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms are the building blocks of the human body and the building of the seven heavens and all that is in them.

For this reason, why Allah made man as a mirror of Allah and as an image of the seven mini skys.

Now, when Allah created man, in this case Adam, illustrates how Allah's thoughts and plans were manifested into Adam's body.

So, Adam, is the true image and plan and mind of Allah, after the creation of the seven Skys.

Or in other words, humans in this case Adam is a reflection of Allah, as well as a mini form of the seven Skys.

So, if humans want to understand the real Allah, then look at and study humans thoroughly.

The human mind is an image of the mind of Allah.

65 00000000 nerve cells in the brain are miniature representations of the networks that make up the mind of Allah in the form of Allah.

So, now the question arises,

Why are angels, jinn, satans and devils even though they are human beings, but are not reflections of Allah ?

The answer is

Hidden in the secret behind the verse: *"... We have created man from an essence from the soil (Al Mu'minuun: 23: 12)*

Well, *"...soil. (Al Mu'minuun: 23: 12)* is the source for creating humans and the seven skys and all their contents. Because in the soil contains hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms.

In the bodies of angels, jinn, satans and devils, also contain hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms, but angels, jinn, satans and devils are not made into mirrors by Allah, but are used as balancers for human life, so that humans balanced life. Angels lead in good directions, and satans, devils lead in bad directions.

So, actually, angels, jinn, devils and devils were created by Allah to make humans "... *balance...* (*Al Mulk: 67: 3*)

Because with humans "... *balanced...* (*Al Mulk: 67: 3*), then Allah and humans are "... *balanced...* (*Al Mulk: 67: 3*)

Now, it has been revealed, the secret hidden behind the verse: "*Who has created the seven skys in layers ... balanced ... (Al Mulk: 67: 3)*" ... *We have created man from an essence from the soil (Al Mu'minun: 23:12)*

That is, in the creation of "...*the seven skys...*(*Al Mulk: 67:3*) and the creation of "...*humans...*(*Al Mu'minuun: 23:12*) the source is "...*soil (Al-Mu'minuun: 23:12). Mu'minun: 23:12*)

Where in the soil contains hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms.

Or in other words, in the creation of "...*the seven skys...*(*Al Mulk: 67: 3*) and the creation of "...*humans...*(*Al Mu'minuun: 23: 12*) the source is "... *my spirit...*(*Shaad : 38:72*)

This is why man is a reflection of Allah and is a miniature form of the seven skys.
