**ABSTRACT**

Before I write down the problem of humans being able to study how Allah thinks, because there is a balance of thinking between Allah and humans, I first ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about how humans can learn how Allah thinks, because there is a balance of thinking between Allah and humans, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about humans being able to learn how Allah thinks, because there is a balance of thinking between Allah and humans, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose*

*measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)*

*"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)*

*"And there is no power of the devil over them, but only that We may distinguish those who believe in the existence of the Hereafter from those who doubt about it. And your Lord is the Preserver of all things. (Saba': 34:21)*

*"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)*

*Say: "He is Allah, the One and Only. (Al Ikhlash: 112: 1)*

*"Say: "I seek refuge in the Lord Who is in control of the dawn (Al Falaq: 113: 1)*

*Say: "I take refuge in the God of mankind. (An-Naas: 114:1)*

*"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great. (Al Baqarah: 2:255)*

*"Allah owns all that is in the skys and the earth. And woe to the disbelievers because of a very painful torment, (Ibrahim: 14:2)*

*"Allah owns all that is in the skys and the earth. And woe to the disbelievers because of a very painful torment, (Ibrahim: 14:2)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about humans being able to learn how Allah thinks, because there is a balance of thinking between Allah and humans, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that humans think Allah thinks the same as humans think, because there is a balance of thinking between Allah and humans, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

## HUMANS CAN LEARN HOW ALLAH THINK, THROUGH BALANCE OF THINKING BETWEEN ALLAH AND HUMANS

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"...they ask you about the spirit. Say: "The spirit belongs to my Lord's business, and you were not given knowledge but a little." (Al Israa ': 17: 85) "Say: "He is Allah, the One and Only. (Al Ikhlash: 112: 1)" Say: "I seek refuge in the Lord Who is in control of the dawn (Al Falaq: 113: 1)" Say: "I seek refuge in the Lord of mankind. (An-Naas: 114:1)*

Apparently, here Allah has declared, that how Allah thinks is in balance with how humans think.

How can it be that Allah thinks the same way humans think?

The answer is

Hidden in the secret behind the verse: *"Say: "I seek refuge in the God of mankind. (An-Naas: 114: 1)"...Say: "The spirit belongs to my Lord's property...(Al Israa ': 17:85)*

Well, here Allah has made how Allah thinks the same as how the Prophet Muhammad saw thought *"...Say: "The spirit belongs to my Lord's property...(Al Israa ': 17: 85)" Say: "I seek refuge in the God of mankind. (An-Naas: 114:1)*

With Allah commanding the Prophet Muhammad SAW to say *"The spirit belongs to my Lord's*

*property ... (Al Israa ' : 17: 85) "I take refuge in the God of mankind. (An-Naas: 114:1)*

This proves that there is a balance of thought between Allah and the Prophet Muhammad saw.

So, how Allah thinks is reflected by how Prophet Muhammad saw thought.

Or in other words, what the Prophet Muhammad saw said is a reflection of what Allah thinks and says.

### **HUMANS LEARN HOW ALLAH THINKING, SO HUMANS UNDERSTAND WHO ALLAH AND HOW ALLAH IS**

Humans will not know how Allah thinks, if not through what is reflected by the Prophet Muhammad saw *"...Say: "The spirit belongs to my Lord's property...(Al Israa' : 17: 85) "I seek refuge in the God of mankind. (An-Naas: 114:1)*

Now, because of the balance in thinking between Allah and man, man can learn how Allah thinks.

With humans studying how Allah thinks, humans will understand about Allah *"...created the seven skys in layers... (Al Mulk: 67: 3)* and all that is in it, who Allah is and how Allah is.

### **THERE IS A BALANCE OF THINKING BETWEEN ALLAH AND HUMANS, DOES NOT MEAN ALLAH IS THE SAME AS HUMANS**

Now, the question arises,

What if Allah's form is in the form of Allah's energy, Allah's particles and *"... my spirit... (Shaad: 38: 72)* Also in the human body there is Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38: 72)*, then it can be said that Allah is the same as humans?

The answer is

It is hidden in the secret behind the verse: *"Allah... Eternal life who continues to take care of... (Al Baqarah: 2:255)*

Well, because Allah has Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)*, then *"Allah...Eternal life...(Al Baqarah: 2:255)* while humans do not have the energy of Allah, the particles of Allah and *"... my spirit... (Shaad: 38: 72)*, then humans do not live eternally *"God owns all that is in the skys and on the earth... (Ibrahim: 14: 2 )*

As for the energy of Allah, the particles of Allah and *"...my spirit...(Shaad: 38:72)* are in the human body, because Allah *"...blows into (the human body) His spirit...(As Sadjah: 32:9)*

Or in other words, Allah lends Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72)* to humans. Where when humans die, Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38: 72)* return to Allah.

So, actually Allah is not the same as humans.

### **CONCLUSION**

Based on the description above, we can conclude that the secrets contained behind the verses: *"...they ask you about the spirit. Say: "The spirit belongs to my Lord's business, and you were not given*

*knowledge but a little." (Al Israa ' : 17: 85) "Say: "He is Allah, the One and Only. (Al Iklash: 112: 1)" Say: "I seek refuge in the Lord Who is in control of the dawn (Al Falaq: 113: 1)" Say: "I seek refuge in the Lord of mankind. (An-Naas: 114:1)*

Apparently, here Allah has declared, that how Allah thinks is in balance with how humans think.

How can it be that Allah thinks the same way humans think?

The answer is

Hidden in the secret behind the verse: *"Say: "I seek refuge in the God of mankind. (An-Naas: 114: 1)"...Say: "The spirit belongs to my Lord's property...(Al Israa ' : 17:85)*

With Allah commanding the Prophet Muhammad SAW to say *"The spirit belongs to my Lord's property ... (Al Israa ' : 17: 85) "I take refuge in the God of mankind. (An-Naas: 114:1)*

This proves that there is a balance of thought between Allah and the Prophet Muhammad saw.

So, how Allah thinks is reflected by how Prophet Muhammad saw thought.

Or in other words, what the Prophet Muhammad saw said is a reflection of what Allah thinks and says.

Humans will not know how Allah thinks, if not through what is reflected by the Prophet Muhammad saw *"...Say: "The spirit belongs to my Lord's property...(Al Israa ' : 17: 85) "I seek refuge in the God of mankind. (An-Naas: 114:1)*

Now, because of the balance in thinking between Allah and man, man can learn how Allah thinks.

With humans studying how Allah thinks, humans will understand about Allah *"...created the seven skys in layers... (Al Mulk: 67: 3)* and all that is in it, who Allah is and how Allah is.

As for the energy of Allah, the particles of Allah and *"...my spirit...(Shaad: 38:72)* are in the human

body, because Allah "...blows into (the human body) His spirit...(As Sajdah: 32:9)

Or in other words, Allah lends Allah's energy, Allah's particles and "...my spirit...(Shaad: 38:72) to humans. Where when humans die, Allah's energy, Allah's particles and "...my spirit...(Shaad: 38: 72) return to Allah.

So, actually Allah is not the same as humans.
