**ABSTRACT**

Before I write down the problem of humans to reach the highest level of meeting Allah, through the particles of Allah which are the form of Allah formed by Allah's energy, I first ask forgiveness from Allah SWT. Here swaya tries to open the veil that covers the secret about humans to reach the highest level of meeting Allah, through the particles of Allah which are the form of Allah formed by Allah's energy, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about humans to reach the highest level of meeting Allah, through the particles of Allah which are Allah's form which is formed by Allah's energy, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hizr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)*

*"Praise be to Allah, the Creator of the heavens and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)*

*"But Allah acknowledges the Qur'an which He has revealed to you. Allah has sent it down with His knowledge; and the angels are witnesses. It is enough for Allah to acknowledge it. (An Nisaa': 4: 166)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)*

*"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)*

*"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)*

*"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"It is He who has made the earth a bed for you and the sky a roof, and He sends down water from the sky, then He produces with it all the fruit as a sustenance for you; therefore do not establish partners with Allah, while you know. Al Baqarah : 2:22)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about humans to reach the highest level of meeting Allah, through Allah's particles which are Allah's form formed by Allah's energy, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I put forward the hypothesis of humans to meet Allah, through the particles of Allah which is a form of Allah formed by Allah's energy, which is in the human body, seen from the point of view of Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

**ALLAH'S REAL FORM IS A COMBINATION OF ALLAH'S PARTICLES MADE BY ALLAH'S ENERGY, AS THE HUMAN BODY BUILDING CONSISTS OF A JOINT OF 70 000000000 000000000 000000000 ATOMS**

Now, we are still concentrating on uncovering the secret contained behind the verse: "*... I am near... (Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16) )*

Now, Allah has declared: "*...I am near...(Al Baqarah: 2:186)*

Now the question arises

How close is it?

The answer is

Hidden in the secret behind the verse: "*... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Well, according to Allah, "*... I am near... (Al Baqarah: 2: 186)* is a measure of distance according to Allah's reckoning, that is, if according to human measurements the distance is 1 meter, then according to Allah's reckoning, Allah is in the human body 18262980 times shorter than 1 meter. This means that 1 meter is divided by 18262980 which is 0.00547555 meters or 547555 nanometers.

So, Allah is really in the human body.

Well, what is in the human body is the form of Allah in the form of Allah's particles. Where is this Allah particle big and its weight is

**0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000333591 754209188 9 grams**

Now, only one particle of Allah is present in the human body, so that is proof that Allah "*...is near... (Al Baqarah: 2: 186)*

This Allah particle is smaller than "*...my spirit...(Shaad : 38:72)* which is made up of hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms. Or in other words, Allah's particles are smaller than hydrogen atoms, oxygen atoms, carbon atoms and nitrogen atoms.

So, in the human body there is "*...my spirit...(Shaad: 38:72)* which is "...blown into...(Shaad: 38:72) the human body, and particles of Allah which are the form of Allah. .

Now, this particle of Allah is used by "*...my spirit...(Shaad: 38:72)* to have a relationship with Allah. Where "*... my spirit... (Shaad: 38: 72)* when having a relationship with Allah uses frequency waves with the speed of light 5475103664604,84 km per second.

## **HUMANS ACHIEVE THE HIGHEST LEVEL OF MEETING ALLAH IS THROUGH THE PARTICLES OF ALLAH WHICH IS FORM OF ALLAH SHAPED BY ALLAH'S ENERGY**

Well, humans have reached the highest point to meet Allah through the particles of Allah that are in the human body.

In every human body in the whole world, there is a particle of Allah.

The problem is that humans do not understand and do not realize that in the human body there is a particle of Allah which is a form of Allah formed by Allah's energy.

Humans do not understand, that in his body there is a particle of Allah. Allah particle does not need to be searched, because it is already in the human body.

Now, the particle of Allah is in the human body, at the same time when Allah declares: *"...I breathed into him my spirit...(Shaad: 38:72)*

Or in other words, the particle of Allah is already in the DNA structure *"... He perfected and breathed into it His spirit and He made for you hearing, sight and heart... (As Sajdah: 32: 9)*, where DNA is the building pattern *"...hearing, seeing and heart...(As Sajdah: 32: 9)*

Now, it has been revealed, the secret that is stored in the verse: *"... I am near... (Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16)*

That is, in the human body there are particles of Allah and *"... my spirit... (Shaad: 38: 72)*

### **CONCLUSION**

Based on the description above, we can conclude that the secret contained behind the verse: *"... I am near... (Al Baqarah: 2: 186) "...closer to him than his jugular vein (Qaf: 50:16)* )

Now, Allah has declared: *"...I am near...(Al Baqarah: 2:186)*
