ABSTRACT

Before I write down the problem that Allah is close to humans, how do humans actually believe that their prayers and requests to Allah are accepted by Allah, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about if Allah is close in humans, how humans actually believe that their prayers and supplications to Allah are accepted by Allah, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tools about if Allah is close to man, how do people actually believe that their prayers and supplications to Allah are accepted by Allah, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And each person gets degrees with what he does. And your Lord is not heedless of what they do. (Al An'aam: 6:132)

"And when it is said to them: "Follow what Allah has sent down." They say: "But we followed what we found our fathers doing." And do they even though the devil calls them to the torment of a blazing fire? (Luqman: 31:21)

"O mankind, indeed We created you from a male and a female and made you into nations and tribes so that you may know one another. Verily, the most honorable among you in the sight of Allah is the one who is most pious among you. Verily, Allah is All-Knowing, All-Knowing.(Al Hujuraat: 49:13)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"And man prays for evil as he prays for good. And man is hasty. (Al Israa ': 17:11)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about how close Allah is in humans, how humans actually believe that their prayers and requests to Allah are accepted by Allah, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah is near in humans, when humans pray and ask Allah to be accepted by Allah based on the terms of time according to Allah's calculations, from the point of view of Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALLAH THROUGH MY SPIRIT CLOSE IN THE HUMAN BODY, HOW HUMANS BELIEVE THAT HIS PRAYER TO ALLAH IS ANSWERED BY ALLAH

Now, we are still concentrating on uncovering the secret contained behind the verse: *"...I am near. I grant the supplication of the one who prays when he asks Me...(Al Baqarah: 2: 186)*

It turns out that here Allah has explained clearly to humans, that Allah *"...is near...accepts the supplication of the one who prays when he asks Allah...(Al Baqarah: 2: 186)*

Now the question arises,

How do humans know with certainty that their prayers to Allah are answered by Allah?

The answer is,

Hidden in the secret behind the verses: *"...a day whose content is fifty thousand years (Al Ma'aarij: 70: 4) "...I grant the request of those who pray...to Me (Al Baqarah: 2: 186)*

Well, it turns out that according to Allah, Allah will answer the prayers of humans who pray *"...to Me (Al Baqarah: 2: 186)* with a time based on Allah's reckoning, not according to human reckoning.

Where according to Allah's calculations, 1 second according to Allah's calculations is equal to 34.72 years or approximately 35 years according to human calculations *"...a day which is fifty thousand years (Al Ma'aarij: 70: 4)*

IF ALLAH ANSWERS MAN'S PRAYER AND ALLAH DECIDES TO WAIT 1 SECOND, THEN ACTUALLY HUMANS HAVE TO WAIT 35 YEARS

Well, actually when humans pray to Allah, then Allah immediately grants it with a period of 1 second according to Allah's calculation.

However, if 1 second according to Allah's calculation is recalculated according to human calculations, it turns out that humans have to wait 35 years.

So, it is here that humans must understand and realize the real existence of Allah. Even though Allah is in the human body through my spirit, Allah's existence must be reckoned with according to Allah's reckoning.

Humans cannot determine the conditions according to humans themselves, when praying to Allah, but must be submitted to Allah completely, because Allah will immediately answer the prayers of human requests, when humans pray to Allah "*...I grant the request of those who pray... to Me (Al Baqarah: 2: 186)*

In this case "*...man is in a hurry. (Al Israa ': 17:11)* indeed humans do not understand and do not realize about Allah and the real existence of Allah.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secret contained behind the verse: "*...I am near. I grant the supplication of the one who prays when he asks Me...(Al Baqarah: 2: 186)*

It turns out that here Allah has explained clearly to humans, that Allah "*...is near...accepts the supplication of the one who prays when he asks Allah...(Al Baqarah: 2: 186)*
