ABSTRACT

Before I write down the problem that Allah lives eternally, will humans also be eternal, because in the form of Allah and in the human body are the same, there is Allah's energy, Allah's particles, angel's particles and my spirit, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about the problem if Allah lives eternally, whether humans will also be eternal, because in the form of Allah and in the human body are the same, there is the energy of Allah, particles of Allah, particles of angels and my spirit, from the point of view of nucleic acid or deoxyribonucleic acid (DNA) molecular structure.

There are several verses that become Allah's secret unlocking tools regarding the matter if Allah lives eternally, whether humans will also be eternal, because in Allah's form and in the human body are the same, there is Allah's energy, Allah particles, angel particles and my spirit, namely the verses the following verse:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a male and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And there is no power of the devil over them, but only that We may distinguish those who believe in the existence of the Hereafter from those who doubt about it. And your Lord is the Preserver of all things. (Saba': 34:21)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

Allah said: "This is a day that will benefit those who are righteous in their truth. For them is paradise beneath which rivers flow; they abide in it forever; Allah is pleased with them and they are pleased with Allah. That is the greatest fortune." (Al Maa'idah: 5: 119)

"Their reward with their Lord is paradise 'Adn under which rivers flow; they abide in it forever. Allah is pleased with them and they are pleased with Allah. That is for those who fear their Lord. (Al Bayyinah : 98: 8)

"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises where rivers flow in them. forever. They will abide in it. That is a great victory. (At Taubah : 9: 100)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about if Allah lives eternally, whether humans will also be eternal, because in Allah's form and in the human body are the same, there is Allah's energy, Allah's particles, angel particles and my spirit, I use the base of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah lives eternally, because in Allah's form there is Allah's energy, Allah's particles, angelic particles and my spirit, while the human body is made of my spirit which contains hydrogen atoms, atoms, carbon, nitrogen atoms and oxygen atoms, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALLAH'S FORM IS ESTABLISHED BY ALLAH'S ENERGY, ALLAH'S PARTICLES, ANGEL'S PARTICLES AND MY SPIRIT, WHILE THE HUMAN BODY IS FORMED BY MY SPIRIT, ALLAH'S ENERGY, ALLAH'S PARTICLES AND ANGEL'S PARTICLES ENTER THE HUMAN BODY THROUGH MY SPIRIT

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk : 67: 3)"...We have created man from an essence from clay. (Al Mu'minuun: 23:12)"...I breathed into him my spirit...(Shaad: 38:72)"...He perfected and breathed into him His spirit and He made for you hearing, sight and hearts ...(As Sajdah : 32: 9)*

Apparently, here Allah has explained to humans, that Allah has created *"... the seven skys in layers... (Al Mulk: 67: 3)* and created humans *"... from an essence from the ground. (Al Mu' minuun: 23:12)*

The meaning here is, Allah *"...created the seven skys...(Al Mulk: 67: 3)* and *"...created man from an essence from the ground (Al Mu'minuun: 23: 12)* using the same source, namely *"...my spirit... (Shaad : 38:72)*

Why does Allah use the source of *"...my spirit...(Shaad: 38:72)* when Allah *"...created the seven skys... (Al Mulk: 67:3)* and created humans *"... from an essence from the ground. (Al Mu' minuun: 23:12)?*

The answer is

Hidden in the secret behind the verse: "*... We have created man from an essence from the ground (Al Mu'minuun: 23:12)"... He... breathed into it His spirit and He made for you hearing, sight and heart...(As Sajdah : 32: 9)*

Now, the building of the seven skies and everything in it is the same as the building of this earth, which is formed with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, the seven skies and all their contents are the same as the building of this earth, which is formed with "*...my spirit...(Shaad: 38:72)*

So, Allah "*...created the seven skys...(Al Mulk: 67:3)* and"*...created man...(Al Mu'minuun: 23:12)* is to use the same source, namely "*... my spirit...(Shaad : 38:72)*

ALLAH ENERGY, ALLAH'S PARTICLES AND ANGEL'S PARTICLES INTO HUMAN BODY THROUGH MY SPIRIT

Now, when Allah and the angels are going to make contact with humans, it is necessary that the particles of Allah and the particles of angels and the energy of Allah are in the human body.

Now, the particles of Allah and the particles of angels are inserted into the human body through "*...my spirit...(Shaad: 38:72)* which is in the human body.

Where Allah's particles are so tiny they're almost non-existent,
0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams

As for the angel particles, it's a little bigger even though it's almost zero
0.000000000 000000000 000000000 000000000 833 979 385 522 972 2 grams

Then the energy of Allah which is almost zero in magnitude, **0.000000000 000000000 000000000 01** grams per cubic cm

Where Allah's energy enters the human body through the food eaten by humans.

Or in other words, Allah's energy comes from Allah's sustenance, then Allah's sustenance returns to Allah's energy.

Well, Allah's energy which is power for humans, is composed of a collection of billions of billions of energies which amount to **0.00000000000 000000000 000000000 01** grams per cubic cm

Allah's energy is used as a driving force by Allah's particles and angel's particles so that "*...my spirit...(Shaad : 38: 72)* can contact Allah with the speed of light Allah's particles **5 475 103 664 604.84** km per second , or at the speed of light angel particles **109 502 073 292.0968** km per second

Each particle of Allah uses Allah's energy as much as **0.000000000 000000000 000000000 01** gram per cubic cm

So, if 100 particles of Allah are used by "*...my spirit...(Shaad: 38: 72)* for contact with Allah, then Allah's energy is used as much as **100 x 0.000000000 000000000 000000000 01 = 0.000000000 000000000 000000001** gram

BECAUSE ALLAH'S ENERGY, ALLAH'S PARTICLES AND ANGEL'S PARTICLES ARE USED DURING HUMAN LIFE IN THE WORLD, HUMANS DON'T ETERNALLY

Now, because the human body can't stand to live billions of billions of billions of years, then humans can't live forever. When humans die, what comes out is "...my spirit...(Shaad: 38:72) and "...my spirit...(Shaad: 38:72) formed by hydrogen atoms, carbon atoms, nitrogen and oxygen atoms, where these atoms only live to be 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk : 67: 3)*" "*We have created man from an essence from clay. (Al Mu'minuun: 23:12)*" "*I breathed into him my spirit...(Shaad: 38:72)*" "*He perfected and breathed into him His spirit and He made for you hearing, sight and hearts ...(As Sajdah : 32: 9)*

Apparently, here Allah has explained to humans, that Allah has created "... the seven skys in layers... (Al Mulk: 67: 3) and created humans "... from an essence from the ground. (Al Mu' minuun: 23:12)

The meaning here is, Allah "...created the seven skys...(Al Mulk: 67: 3) and"...created man from an essence from the ground (Al Mu'minuun: 23: 12) using the same source, namely " ...my spirit... (Shaad : 38:72)

Why does Allah use the source of "...my spirit...(Shaad: 38:72) when Allah"...created the seven skys... (Al Mulk: 67:3) and created humans "... from an essence from the ground. (Al Mu' minuun: 23:12)?

The answer is

Hidden in the secret behind the verse: "... We have created man from an essence from the ground (Al Mu'minuun: 23:12)" "... He... breathed into it His spirit and He made for you hearing, sight and heart...(As Sajdah : 32: 9)

Now, the building of the seven skys and everything in it is the same as the building of this earth, which is formed with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, the seven skys and all their contents are the same as the building of this earth, which is formed with "...my spirit...(Shaad: 38:72)

So, Allah "...created the seven skys...(Al Mulk: 67:3) and"...created man...(Al Mu'minuun: 23:12) is to use the same source, namely "... my spirit...(Shaad : 38:72)

Now, when Allah and the angels are going to make contact with humans, it is necessary that the particles of Allah and the particles of angels and the energy of Allah are in the human body.

Now, the particles of Allah and the particles of angels are inserted into the human body through "...my spirit...(Shaad: 38:72) which is in the human body.

Where Allah's particles are so tiny they're almost non-existent,
0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams

As for the angel particles, it's a little bigger even though it's almost zero
0.000000000 000000000 000000000 000000000 833 979 385 522 972 2 grams

Then the energy of Allah which is almost zero in magnitude, **0.0000000000 000000000 000000000 01** grams per cubic cm

Where Allah's energy enters the human body through the food eaten by humans.

Or in other words, Allah's energy comes from Allah's sustenance, then Allah's sustenance returns to Allah's energy.

Well, Allah's energy which is power for humans, is composed of a collection of billions of billions of energies which amount to **0.0000000000 000000000 000000000 01** grams per cubic cm

Allah's energy is used as a driving force by Allah's particles and angel's particles so that *"...my spirit...(Shaad : 38: 72)* can contact Allah with the speed of light Allah's particles **5 475 103 664 604.84** km per second , or at the speed of light angel particles **109 502 073 292.0968** km per second

Each particle of Allah uses Allah's energy as much as **0.000000000 000000000 000000000 01** gram per cubic cm

So, if 100 particles of Allah are used by *"...my spirit...(Shaad: 38: 72)* for contact with Allah, then Allah's energy is used as much as **100 x 0.000000000 000000000 000000000 01 = 0.000000000 000000000 000000001** gram

Now, because the human body can't stand to live billions of billions of billions of years, then humans can't live forever. When humans die, what comes out is *"...my spirit...(Shaad: 38:72)* and *"...my spirit...(Shaad: 38:72)* formed by hydrogen atoms, carbon atoms, nitrogen and oxygen atoms, where these atoms only live to be **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years
