ABSTRACT

Before the author writes down the question of whether it is true that Adam was created from the soil, what does it have to do with plants, animals, angels, jinn, devils and satans, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of whether it is true that Adam was created from the soil, what does it have to do with plants, animals, angels, jinn, devils and satans, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about whether it is true that Adam was created from the soil, what does it have to do with plants, animals, angels, jinn, devils and satans, namely the following verses:

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hjr: 15: 29)

"Then He perfected (the body) and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when We said to the angels: "Prostrate yourselves to Adam, so bow down to them except Satan. He is from the group of jinn, so he disobeys the command of his Lord. Should you take him and his descendants as leaders other than Me, while they are your enemies? It is very bad that the devil is a substitute for the wrongdoers. (Al Kahf: 18: 50)

And We said: "O Adam, dwell in this paradise for you and your wife, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be among the wrongdoers. (Al Baqarah: 2:35)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"Allah said: "What prevented you from prostrating when I commanded you?" The devil replied "I am better than him: You created me from fire while You created him from clay." (Al A'raaf: 7:12)

"So he put a veil from them; then We sent our spirit to him, and he appeared before him a perfect man. (Maryam 19:17)

"And We have subdued a group of devils who dive for him and do work other than that, and We are taking care of them, (Al Anbiyaa ': 21: 82)

"He Who created you from a single self and from him He created his wife, that he might be pleased with her... (Al A'raaf: 7:189)

"The jinn made for Solomon what he wanted from tall buildings and statues and plates that were like ponds and fixed pots. Work, O family of David, to give thanks. And very few of My servants are grateful. (Saba': 34:13)

In an effort to open the veil of Allah's secret about whether it is true that Adam was created from the soil, what does it have to do with plants, animals, angels, jinn, devils and satans, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis that Adam was created from the soil, what does it have to do with plants, animals, angels, jinn, devils and satans, through the genetic code contained in DNA (Deoxyribonucleic acid), based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WAS ADAM REALLY CREATED FROM SOIL, WHAT DOES IT HAVE TO DO WITH PLANTS, ANIMALS, ANGELS, JINN, DEVIL AND SATAN

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"... We have created man from an essence from clay (Al Mu'minuun: 23: 12) "He Who created you from one self ... (Al A'raaf: 7:189)"...We sent our spirit to him...he incarnated before Maryam a perfect human. (Maryam 19:17)"...Iblis...is from the jinn group...(Al Kahf: 18:50)"...Answering the devil...You created me from fire while you created him from clay" (Al A'raaf: 7:12)"...We have subdued a group of devils who dived for Solomon...(Al Anbiyaa': 21:82)*

Here Allah has declared, that humans, angels, jinn, devils, animals, plants, fungi, amoeba, bacteria and archaea are one species, which have the same genetic code, which was built by *"...my spirit. ..(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now the question arises,

What is the common genetic code shared by humans, angels, jinn, devils, satans, animals, plants, fungi, amoeba, bacteria and archaea?

The answer is in the secret behind the verse: *"...He perfected (the body) and breathed into His spirit body and He made for you hearing, sight and hearts...(As Sajdah: 32: 9)*

Well, after the body is perfect then Allah *"...blows into His spirit body... makes for you hearing, sight and heart... (As Sajdah: 32: 9)*

It turns out, *"...Allah's spirit...(As Sajdah: 32: 9)* which is blown by Allah into *"...the (human) body... (As Sajdah: 32: 9)* is Deoxyribonucleic acid (DNA) , which is formed with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. DNA that *"... makes... hearing, sight and heart... (As Sajdah: 32: 9)*

Well, now, DNA contains the same genetic code, where this genetic code is in the human body, in *"...my spirit. ..(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* or angels, in the bodies of jinn, devils, satans, animals, plants, fungi, amoeba, bacteria and archaea.

Jinn, devils and satans are one type *"... Devils... are from the jinn group... (Al Kahf: 18: 50)"... We have subdued a group of devils who dived for Solomon...(Al Anbiyaa ' : 21: 82) "The jinn made for Solomon what he wanted from tall buildings... (Saba': 34: 13)*

Well, it turns out that the Jinn, the devil and the satan work *"...for Solomon...(Al Anbiyaa': 21: 82).* That is, humans, Jinn, devils and satans are one type.

Meanwhile, the angel who is *"...my spirit. ..(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* who *"...incarnates (becomes) a perfect human being. (Mary 19:17).* That is, angels are a kind of human.

So, in fact, when Allah declared *"...We have created man from an essence from soil (Al Mu'minuun: 23:12)* it turns out, *"...soil (Al Mu'minuun: 23:12)* contains hydrogen atoms , carbon atoms, nitrogen atoms and oxygen atoms, which of these atoms make up Deoxyribonucleic acid (DNA).

Well, from *"...soil (Al Mu'minuun: 23: 12)* which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which of these atoms form Deoxyribonucleic acid (DNA), which has the same genetic code, the same thing, which is in the human body, in *"...my spirit. ..(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* or angels, in the body of the jinn, satan, devil , animals, plants,

fungi, amoeba, bacteria and archaea.

Or in other words, actually humans, angels, jinn, devils, satans, animals, plants, fungi, amoeba, bacteria and archaea are still related to each other as seen from the genetic code in DNA.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "*... We have created man from an essence from clay (Al Mu'minuun: 23: 12) "He Who created you from one self. ... (Al A'raaf: 7:189) "... We sent our spirit to him...he incarnated before Maryam a perfect human. (Maryam 19:17) "...Iblis...is from the jinn group... (Al Kahf: 18:50) "... Answering the devil... You created me from fire while you created him from clay" (Al A'raaf: 7:12) "... We have subdued a group of devils who dived for Solomon... (Al Anbiyaa': 21:82)*

Here Allah has declared, that humans, angels, jinn, devils, devils, animals, plants, fungi, amoeba, bacteria and archaea are one species, which have the same genetic code, which was built by "*...my spirit. .. (Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72) which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.*

Now the question arises,

Jinn, devils and satans are one type "*... Devils... are from the jinn group... (Al Kahf: 18: 50) "... We have subdued a group of devils who dived for Solomon... (Al Anbiyaa ' : 21: 82) "The jinn made for Solomon what he wanted from tall buildings... (Saba': 34: 13)*
