ABSTRACT

Before the author writes down the problem, is it true that Allah and Allah's energy can't be separated, where there is Allah there is Allah's energy, where there is Allah's energy there is Allah, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about whether Allah and Allah's energy cannot be separated, where there is Allah there is Allah's energy, where there is Allah's energy there is Allah, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about whether Allah and Allah's energy cannot be separated, where there is Allah there is Allah's energy, where there is Allah's energy there is Allah, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And Mary, who has kept her honor, then We breathed into her a spirit from Us and We made her and her child a great sign for the worlds. (Al Anbiyaa ': 21: 91)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said: "O my Lord, show me so that I can see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses came back to his senses, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And there is no power of the devil over them, but only that We may distinguish those who believe in the existence of the Hereafter from those who doubt about it. And your Lord is the Preserver of all things. (Saba': 34:21)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about whether Allah and Allah's energy cannot be separated, where there is Allah there is Allah's energy, where there is Allah's energy there is Allah, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes a hypothesis that Allah and Allah's energy cannot be separated, where there is Allah there is Allah's energy, where there is Allah's energy there is Allah, Allah and Allah's energy are one, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

FROM THE BEGINNING, ALLAH AND ALLAH'S ENERGY HAVE BEEN ONE, CANNOT BE SEPARATED, ALLAH WITHOUT ALLAH'S ENERGY, ALLAH COULD NOT EXIST, NEITHER ALLAH'S ENERGY WITHOUT ALLAH, ALLAH'S ENERGY WILL NOT EXIST

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"... when his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143)"... wherever you turn there is the face of Allah...(Al Baqarah: 2: 115)"...do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)*

Apparently, Allah has declared *"... his Lord appeared to the mountain... the mountain was crushed... (Al A'raaf: 7: 143)*

Well, here it means, Allah and Allah's energy are united, where there is Allah there is Allah's energy *"... God appears... the mountains are crushed... (Al A'raaf: 7: 143)*

So, between Allah and the energy of Allah cannot be separated.

Likewise, Allah has declared *"...wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*

Here too, Allah and the energy of Allah are united, where there is the face of Allah there is the

energy of Allah. Because Allah is only one, so to move from one point to another requires the energy of Allah.

So, because Allah and Allah's energy are united, then wherever the human eye looks, there is Allah's face and Allah's energy. Without Allah's energy, Allah's face would be nowhere to be seen. Because of the energy of Allah, the face of Allah can be seen everywhere.

THE SEVEN SKYS CREATED BY ALLAH, BECAUSE THERE IS ENERGY OF ALLAH, WITHOUT ALLAH'S ENERGY, THE SEVEN SKYS COULD NOT BE CREATED BY ALLAH

Now, when the seven skys were created, it started with the creation of quarks with the energy of Allah. Then the quarks form hydrogen atoms. Starting from this hydrogen atom, the seven skys and all their contents were born.

Because, everything in the seven skys follows the law of "... *balance...* (Al Mulk: 67: 3) then, Allah's energy that exists now comes from the seven skys that existed before, where the seven skys that were previously lost, become Allah's energy. It is Allah's energy that is used to form quarks. These quarks are the nucleus of the atom. This atom is the core of the seven skys and all that is in them.

In other words, with the energy of Allah, Allah can create the seven skys and all that is in them. Without Allah's energy, it is impossible for Allah to create the seven skys and all that is in them.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "... *when his Lord appeared to the mountain, he made the mountain crumble... (Al A'raaf: 7: 143) "... wherever you turn there is the face of Allah... (Al Baqarah: 2: 115) "...do not see in the creation of the Most Gracious God anything that is not balanced... (Al Mulk: 67: 3)*

Apparently, Allah has declared "... *his Lord appeared to the mountain... the mountain was crushed... (Al A'raaf: 7: 143)*

Well, here it means, Allah and Allah's energy are united, where there is Allah there is Allah's energy "... *God appears... the mountains are crushed... (Al A'raaf: 7: 143)*

So, between Allah and the energy of Allah cannot be separated.

Likewise, Allah has declared "... *wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*

Here too, Allah and the energy of Allah are united, where there is the face of Allah there is the energy of Allah. Because Allah is only one, so to move from one point to another requires the energy of Allah.

So, because Allah and Allah's energy are united, then wherever the human eye looks, there is Allah's face and Allah's energy. Without Allah's energy, Allah's face would be nowhere to be seen. Because of the energy of Allah, the face of Allah can be seen everywhere.

Now, when the seven skys were created, it started with the creation of quarks with the energy of Allah. Then the quarks form hydrogen atoms. Starting from this hydrogen atom, the seven skys and all their contents were born.

Because, everything in the seven skys follows the law of "... *balance...* (Al Mulk: 67: 3) then, Allah's

energy that exists now comes from the seven skys that existed before, where the seven skys that were previously lost, become Allah's energy. It is Allah's energy that is used to form quarks. These quarks are the nucleus of the atom. This atom is the core of the seven skys and all that is in them.

In other words, with the energy of Allah, Allah can create the seven skys and all that is in them. Without Allah's energy, it is impossible for Allah to create the seven skys and all that is in them.
