## ABSTRACT

Before the author writes about is it true that Adam was not the first human, but a symbol referring to the ancestors of neanderthalensis who lived between 400000 and 40000 years ago, Adam lived about 236000 years ago, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about is it true that Adam was not the first human, but a symbol referring to the ancestors of neanderthalensis who lived between 400000 and 40000 years ago, Adam lived about 236000 years ago, based on deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about is it true that Adam was not the first human, but a symbol referring to the ancestors of neanderthalensis who lived between 400000 and 40000 years ago, Adam lived about 236000 years ago, namely the following verses:

*"And verily We have created man from an essence of soil (Al Mu'minuun: 23:12).*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72).*

*"Then He perfected Adam and breathed into Adam His spirit and He made for you hearing, sight and heart, you are very little grateful. (As Sajdah: 32: 9).*

*"He Who created you from from one self and from him He created his wife, that he might be pleased with her... (Al A'raaf: 7:189).*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the sky and the earth: "Our God, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191).*

In an effort to open the veil of Allah's secret about is it true that Adam was not the first human, but a symbol referring to the ancestors of neanderthalensis who lived between 400000 and 40000 years ago, Adam lived about 236000 years ago, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes hypothesis is it true that Adam was not the first human, but a symbol referring to the ancestors of neanderthalensis who lived between 400000 and 40000 years ago, Adam lived about 236000 years ago, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## IS IT TRUE THAT ADAM WAS NOT THE FIRST HUMAN, BUT A SYMBOL REFERRING TO THE ANCESTORS OF NEANDERTHALENSIS WHO LIVED BETWEEN 400000 AND 40000 YEARS AGO, ADAM LIVED ABOUT 236000 YEARS AGO

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"He Who created you from one self...(Al A'raaf: 7:189)"...We have created human from a essence of soil (Al Mu'minuun: 23:12).*

Well, it turns out that Allah has clearly declared *"He Who created you from one self...(Al A'raaf: 7:189)"...We have created human from a essence of soil (Al Mu'minuun: 23:12).*

Well, it turns out that Allah *"... created human from... soil (Al Mu'minuun: 23: 12)* refers to *"... soil (Al Mu'minuun: 23: 12)* contains carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms. Or in other words, soil contains *"...My spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72).*

So, because Allah created human from *"...My spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or from carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms, then whatever is in the seven skies and all their contents, is built with *"...My spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72).*

Well, based on Allah's declaration *"He Who created you from one self...(Al A'raaf: 7:189)* means, human was created from one cell, in which there is *"...My spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

Likewise the sky and the earth were created with *"...My spirit...(Shaad: 38: 72)* or *"...Allah's spirit...*

(*Shaad: 38: 72*) which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

So, actually, everything in the seven skies were created by Allah with "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

Now, why do human have a family relationship with animals, plants, fungi, amoeba, bacteria and also ancient humans?

Because "*...He made for you hearing, sight and heart...(As Sajdah: 32: 9)*.

Well it turns out that "*... hearing, sight and heart...(As Sajdah: 32: 9)* are formed by Deoxyribonucleic acid (DNA), which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where Deoxyribonucleic acid (DNA) forms chromosomes that are in cells.

Well, the creation of human from this one self, is in the genetic code contained in the molecular structure of nucleic acid or DNA (Deoxyribonucleic acid) and through RNA (Ribonucleic acid) which has a role in synthesizing proteins and carrying out catalytic activities.

This genetic code is used by almost all types of living organisms from archaea, bacteria, plants, amoeba, fungi, animals to humans today. Because the genetic code applies universally, the same genetic code applies to all types of living organisms. With the similarity of this genetic code, we can say that humans living today have similarities in their genetic code with all other types of living organisms.

In other words, humans have family relationships with all types of living organisms from archaea, bacteria, plants, amoebas, fungi, animals, ancient humans including homo habilis, homo georgicus, homo ergaster, homo erectus, homo antecessor, homo heidelbergensis, homo florensiensis and homo neanderthalensis.

So, actually Adam and his descendants up to us now have family relationships with archaea, bacteria, plants, amoebas, fungi, animals, ancient humans including homo habilis, homo georgicus, homo ergaster, homo erectus, homo antecessor, homo heidelbergensis, homo florensiensis and homo neanderthalensis.

Well, because Allah created Adam and all humans "*...from one self...(Al A'raaf: 7:189)* means, Adam and all mankind were created from one cell.

Now, actually the creation of Adam and his wife refers to the ancestors of the Neanderthals who lived between **400,000** to **40,000** years ago, Adam lived about **236,000** years ago.

Where the ancestors of the Neanderthals were also humans who lived in most of Europe and in southwest and central Asia.

Now, the paired genes that are in the chromosomes which are the units of genetic structure in the human body now contain a small portion of genes that come from the Neanderthals. Humans have about **22,000** genes.

Well, it turns out, Adam and all humans have a family relationship with ancient humans, including Neanderthals.

So actually, the creation of Adam and his wife refers to the ancestors of Neanderthals.

Or in other words "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms that Allah "*... breathed into Adam ... (Shaad: 38: 72)* refers to Deoxyribonucleic acid (DNA) which forms chromosomes in cells in the body of Neanderthals which were passed down to Adam and all humans now in the world.

Now this is what is still not understood by almost all Muslims and all Christians as well as Jews.

## CONCLUSION

Based on the explanation above, we can conclude that the secrets contained behind the verses: "*He Who created you from one self...(Al A'raaf: 7:189)*" "*We have created human from a essence of soil (Al Mu'minuun: 23:12)*.

Well, it turns out that Allah has clearly declared "*He Who created you from one self...(Al A'raaf: 7:189)*" "*We have created human from a essence of soil (Al Mu'minuun: 23:12)*.

Well, it turns out that Allah "*... created human from... soil (Al Mu'minuun: 23: 12)* refers to "*... soil (Al Mu'minuun: 23: 12)* contains carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms. Or in other words, soil contains "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)*.

So, because Allah created human from "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* or from carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms, then whatever is in the seven skies and all their contents, is built with "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)*.

Well, based on Allah's declaration "*He Who created you from one self...(Al A'raaf: 7:189)* means, human was created from one cell, in which there is "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

Likewise the sky and the earth were created with "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

So, actually, everything in the seven skies were created by Allah with "*...My spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

Now, why do human have a family relationship with animals, plants, fungi, amoeba, bacteria and also ancient humans?

Because "*...He made for you hearing, sight and heart...(As Sajdah: 32: 9)*.

Well it turns out that "*... hearing, sight and heart...(As Sajdah: 32: 9)* are formed by Deoxyribonucleic acid (DNA), which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where Deoxyribonucleic acid (DNA) forms chromosomes that are in cells.

Well, the creation of human from this one self, is in the genetic code contained in the molecular structure of nucleic acid or DNA (Deoxyribonucleic acid) and through RNA (Ribonucleic acid) which has a role in synthesizing proteins and carrying out catalytic activities.

This genetic code is used by almost all types of living organisms from archaea, bacteria, plants, amoeba, fungi, animals to humans today. Because the genetic code applies universally, the same genetic code applies to all types of living organisms. With the similarity of this genetic code, we can say that humans living today have similarities in their genetic code with all other types of living organisms.

In other words, humans have family relationships with all types of living organisms from archaea, bacteria, plants, amoebas, fungi, animals, ancient humans including homo habilis, homo georgicus, homo ergaster, homo erectus, homo antecessor, homo heidelbergensis, homo florensiensis and homo neanderthalensis.

So, actually Adam and his descendants up to us now have family relationships with archaea, bacteria, plants, amoebas, fungi, animals, ancient humans including homo habilis, homo georgicus, homo ergaster, homo erectus, homo antecessor, homo heidelbergensis, homo florensiensis and homo neanderthalensis.

Well, because Allah created Adam and all humans "*...from one self...*(*Al A'raaf: 7:189*) means, Adam and all mankind were created from one cell.

Now, actually the creation of Adam and his wife refers to the ancestors of the Neanderthals who lived between **400,000** to **40,000** years ago, Adam lived about **236,000** years ago.

Where the ancestors of the Neanderthals were also humans who lived in most of Europe and in southwest and central Asia.
