ABSTRACT

First of all, by asking Allah's forgiveness, here the author tries to reveal the signs of Allah SWT's greatness regarding the secret of is it true through Allah's law, kun fayakun – Allah – Allah's energy, appears, Allah the first, based on photons, quarks and the molecular structure of acids. nucleic acid or deoxyribonucleic acid (DNA)

Signs of the greatness of Allah SWT regarding is it true through Allah's law, kun fayakun – Allah – Allah's energy, appears, Allah the first, is found in several verses, namely:

"Allah, there is no god but He Who Lives eternally and continuously takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is in front of them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"It is He who gives life and causes death, so when He determines a matter, He only says to him: "Be", then it is. (Al Mu'min: 40: 68)

"The angels and the spirit (Gabriel) ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He from what they associate with. (Az Zumar: 39: 67)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said, "My Lord, show me that I may see You." The Lord said: "You will never be able to see Me, but look at the mountain, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to him You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not

balanced? (Al Mulk: 67: 3)

"Indeed, the Day of Resurrection will surely come, there is no doubt about it, but most people do not believe. (Al Mu'min: 40: 59)

In an effort to unveil the greatness of Allah SWT regarding is it true through Allah's law, kun fayakun – Allah – Allah's energy, appears, Allah the first, the author uses the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here the author proposes a hypothesis through Allah's law, kun fayakun – Allah – Allah energy, appeared, Allah the first, based on photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)?

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

IS IT TRUE THROUGH ALLAH'S LAW, KUN FAYAKUN - ALLAH- ALLAH'S ENERGY, APPEARS, ALLAH THE FIRST

Now, we are still focusing our minds on uncovering the secret behind the verses: *"...He only said to him: "Be", so he was (Al Mu'min: 40: 68) "He is the First...(Al Hadiid: 57: 3) "... When his Lord appeared to the mountain... the mountain was crushed... (Al A'raaf: 7: 143)*

Apparently, here Allah has declared *"...He only said to him: "Be", then he was (Al Mu'min: 40: 68) "He is the First ... (Al Hadiid: 57: 3)".. The mountain was crushed ... (Al A'raaf: 7: 143)*

Well, this declaration of Allah provides evidence that Allah's law **kun fayakun** *"... "Be", so it was (Al Mu'min: 40: 68)* was the first law to apply before the seven skys were created by Allah.

Or in other words, Allah's law **kun fayakun** - Allah - Allah's energy is the law that made Allah exist.

It means **kun fayakun** - Allah - Allah's energy is a unity that cannot be separated. With the law of **kun fayakun** comes Allah. Likewise with Allah - **kun fayakun**, the energy of Allah appears. Without Allah's energy, there is no Allah's form.

So, with the law of Allah **kun fayakun** - Allah - Allah's energy, then within a period of time **0.0000000000 0000000000 0000000000 0000000000 001** seconds, a quark is created, which will become the nucleus of the atom.

This means that 1 second is divided by the number of digits **10000000000 0000000000 0000000000 0000000000 000.**

It is inconceivable by human reason, how short time is, created quarks by means of Allah's law **kun fayakun** - Allah - Allah's energy

Where the creation of these quarks was **13 800 000 000** years ago, with the presence of quarks hydrogen atoms were formed and then created "*... the seven layers of skys... (Al Mulk: 67: 3)* like today.

This is what Allah has declared "*He is the First... Al Hadid: 57: 3)*

So, with the law of Allah **kun fayakun** - Allah - the energy of Allah, then Allah appears. Or in other words "*He is the First... Al Hadid: 57: 3)*

Therefore, the law of Allah **kun fayakun** - Allah - Allah's energy cannot be separated, one with another unites. Allah with Allah energy, Allah energy with Allah, through the law of **kun fayakun**.

This is the secret of Allah, why Allah is "*He is the First... Al Hadiid: 57: 3)* which most people still don't understand, why Allah is "*He is the First... Al Hadid: 57: 3)*

CONCLUSION

From what has been described above we can now conclude that the secret behind the verses: "*...He only said to him: "Be", so he was (Al Mu'min: 40: 68) "He is the First...(Al Hadiid: 57: 3) "... When his Lord appeared to the mountain... the mountain was crushed... (Al A'raaf: 7: 143)*

Apparently, here Allah has declared "*...He only said to him: "Be", then he was (Al Mu'min: 40: 68) "He is the First ... (Al Hadiid: 57: 3).. *The mountain was crushed ... (Al A'raaf: 7: 143)**

Well, this declaration of Allah provides evidence that Allah's law **kun fayakun** "*... "Be", so it was (Al Mu'min: 40: 68)* was the first law to apply before the seven skys were created by Allah.

Or in other words, Allah's law **kun fayakun** - Allah - Allah's energy is the law that made Allah exist.

It means **kun fayakun** - Allah - Allah's energy is a unity that cannot be separated. With the law of **kun fayakun** comes Allah. Likewise with Allah - **kun fayakun**, the energy of Allah appears. Without Allah's energy, there is no Allah's form.

So, with the law of Allah **kun fayakun** - Allah - Allah's energy, then within a period of time **0.0000000000 0000000000 0000000000 0000000000 001** seconds, a quark is created, which will become the nucleus of the atom.

This means that 1 second is divided by the number of digits **10000000000 0000000000 0000000000 0000000000 000.**

It is inconceivable by human reason, how short time is, created quarks by means of Allah's law **kun fayakun** - Allah - Allah's energy

Where the creation of these quarks was **13 800 000 000** years ago, with the presence of quarks hydrogen atoms were formed and then created "*... the seven layers of skys... (Al Mulk: 67: 3)* like today.

This is what Allah has declared "*He is the First... Al Hadid: 57: 3)*

So, with the law of Allah **kun fayakun** - Allah - the energy of Allah, then Allah appears. Or in other words "*He is the First... Al Hadid: 57: 3)*

Therefore, the law of Allah **kun fayakun** - Allah - Allah's energy cannot be separated, one with another unites. Allah with Allah energy, Allah energy with Allah, through the law of **kun fayakun**.

This is the secret of Allah, why Allah is "*He is the First... Al Hadiid: 57: 3)* which most people still don't understand, why Allah is "*He is the First... Al Hadid: 57: 3)*
