ABSTRACT

Before the author writes about is it true, a man, a resident of paradise, married a nymph in paradise, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about is it true, a man, a resident of paradise, married a nymph in paradise, based on Deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about is it true, a man, a resident of paradise, married a nymph in paradise, namely the following verses:

"So when I have perfected the life of Adam, and have breathed into Adam my spirit, then bow down to him by prostrating (Al Hijr: 15: 29).

"And there are jelly-eyed nymphs (Al Waaqi'ah: 56: 22).

"Indeed, We created nymphs directly (Al Waaqi'ah: 56: 35).

"They reclined on couches in rows and We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20).

In an effort to uncover Allah's secret about is it true, a man, a resident of paradise, married a nymph in paradise, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis is it true, a man, a resident of paradise, married a nymph in paradise, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen

bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

IS IT TRUE, A MAN, A RESIDENT OF PARADISE, MARRIED A NYMPH IN PARADISE

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"... the jelly-eyed nymphs (Al Waaqi'ah: 56: 22)"... We created nymphs directly (Al Waaqi' ah : 56: 35)"...We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20).*

Apparently, Allah has declared *"...We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20)"...We created nymphs directly (Al Waaqi'ah: 56: 35).*

So, now the question arises,

How did Allah marry a male resident of paradise with a nymph who was *"...created...directly" (Al Waaqi'ah: 56: 35)?*

The answer is in the secret behind the verse: *"...I...breathed into Adam my spirit...(Al Hijr: 15: 29).*

Well, actually *"... my spirit... (Al Hijr: 15: 29)* or *"...Allah's spirit... (Al Hijr: 15: 29)* which is in the form of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen in the form of a man, *"...a resident of paradise...(Ath Thuur: 52: 20)* and in the form of a *"...nymph...(Al Waaqi'ah: 56: 22).*

So, because in paradise it is very necessary for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms to survive in paradise, then Allah *"...created nymphs directly (Al Waaqi'ah: 56: 35)* from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, by marrying a man, *"...a resident of paradise...(Ath Thuur: 52: 20)*, who is *"... my spirit... (Al Hijr: 15: 29)* or *"...Allah's spirit... (Al Hijr: 15: 29)*with a *"...nymph...(Al Waaqi'ah : 56: 22)* who was *"...created... directly (Al Waaqi'ah : 56: 35)* from hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival in paradise is met.

Well, this is the real secret behind the verse: *"...We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20)* namely, the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival in paradise fulfilled. Paradise and all the resident of paradise in the form of *"... my spirit... (Al Hijr: 15: 29)* or *"...Allah's spirit... (Al Hijr: 15: 29)* will live to the age of **10 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000 00000000** years.

Without hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, paradise would not exist, paradise would die.

So, in fact, Allah declared *"They reclined on couches in rows and We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20)* refers to the gathering of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival in paradise.

CONCLUSION

From what is described above, it can be concluded that the secrets contained behind the verses: *"... the jelly-eyed nymphs (Al Waaqi'ah: 56: 22)"... We created nymphs directly (Al Waaqi' ah : 56: 35)"...We married the male resident of paradise to beautiful jelly-eyed nymphs (Ath Thuur: 52: 20).*
