ABSTRACT

Before I write down the issue of whether it is true, Allah made a fiery hell, but actually, it is not hot, how can it happen, first I ask forgiveness from Allah SWT. Here I am trying to open the veil that covers the secret about whether it is true, Allah made a fiery hell, but actually, it is not hot, how it can happen, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about whether it is true, Allah made a fiery hell, but actually, it is not hot, how it can happen, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, so when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead... (Fushshilat: 41: 39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"And each person gets degrees with what he does. And your Lord is not heedless of what they do. (Al An'aam: 6:132)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"And man prays for evil as he prays for good. And man is hasty. (Al Israa ': 17:11)

"This, let them taste it, very hot water and very cold water (Shaad: 38: 57)

"entered a very hot fire, (Al Ghaasyiyah: 88: 4)

"O you who believe, protect yourselves and your families from a hell fire whose fuel is people and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what is commanded. (At Tahrir : 66: 6)

"So he put a veil from them; then We sent our spirit to him, and he appeared before him a perfect human being. (Maryam: 19:17)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about whether it is true, Allah made a fiery hell, but actually, not hot, how can that happen, I use a base of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I put forward the hypothesis that Allah made a fiery hell, but actually, it is not hot, because hydrogen atoms fuel hell, and in the human spirit there are hydrogen atoms and oxygen atoms, so they don't feel heat in hell, based on Deoxyribonucleic acid (DNA).)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHAT IS IN AALLAH'S MIND, WHEN ALLAH MAKES A HELL A VERY HOT FIRE, BUT THE HUMAN SPIRIT IS INTENDED FROM ALLAH'S SPIRIT, DON'T FEEL HOT, HOW CAN IT HAPPEN

Now, we are still concentrating on uncovering the secret contained behind the verse: *"entering a very hot fire (Al Ghaasyiyah: 88: 4)"...they feel it, very hot water and very cold water (Shaad: 38 : 57) "...the spirit of God... incarnated... a perfect human. (Maryam: 19:17)*

It turns out that here Allah has declared that in hell the human spirit is the incarnation of *"...the spirit of Allah...(Maryam: 19:17)"enters a very hot fire (Al Ghaasyiyah: 88:4)"...feels very hot water. hot and very cold water (Shaad : 38: 57)*

Now the question arises,

Is it true that the human spirit is the incarnation of *"...the spirit of Allah...(Maryam: 19:17)* feeling *"...a very hot fire (Al Ghaasyiyah: 88:4)"...very hot water and very hot water. very cold (Shaad : 38: 57) ?*

The answer is

Hidden in the secret behind the verse: *"... a hell fire whose fuel is humans and stones... (At Tahrir: 66: 6)*

Well, apparently, the fuel of hell is *"...humans and stones...(At Tahrir : 66: 6)*

Apparently, the human body contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. While the rock contains hydrogen atoms and carbon atoms.

Well, here is the hidden secret.

What is a hidden secret?

The secret is, the fuel of hell is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, just as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are present in the human spirit that comes out of the dead human body that has been buried in the ground.

BECAUSE IN THE HUMAN SPIRIT THE INCARTION OF THE SPIRIT OF ALLAH CONTAINS HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM, THEN WHEN THE HUMAN SPIRIT GOES INTO HELL, DOES NOT FEEL HOT

Well, this is the secret, because the atoms that are in the human spirit are the same as the atoms that are the fuel for hell, then hell doesn't have any effect on the human spirit.

Although in hell there is *"...very hot water and very cold water (Shaad: 38: 57)*

However, because water is composed of hydrogen atoms and oxygen atoms, then *"... hot water and... cold water (Shaad: 38: 57)* have no effect on the human spirit. Because in the human spirit there are hydrogen atoms and oxygen atoms.

SO WHAT ACTUALLY IS BEHIND ALLAH'S MIND MAKES HELL, IF IT DOESN'T GIVE ANY EFFECT ON THE HUMAN SPIRIT

Now, because the human spirit will live in hell for **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years and everything in the seven skys is all built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, the hellfire is very intense heat, whose fuel is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms have no effect on the human spirit. Because in the human spirit there are also hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, it has been revealed, that actually in hell, the human spirit does not feel hot.

This is Allah's secret and what is in Allah's mind when Allah makes hell whose fuel is *"...humans and stones...(At Tahrir: 66:6)* does not have any effect on the human spirit.

CONCLUSION

The conclusion that can be drawn from the explanation above is that the secret contained behind the verse: *"entering a very hot fire (Al Ghaasyiyah: 88: 4)"...they feel it, very hot water and very cold water (Shaad: 38 : 57) "...the spirit of God... incarnated... a perfect human. (Maryam: 19:17)*

It turns out that here Allah has declared that in hell the human spirit is the incarnation of *"...the spirit of Allah...(Maryam: 19:17)"...enters a very hot fire (Al Ghaasyiyah: 88:4)"...feels very hot water. hot and very cold water (Shaad : 38: 57)*

Now the question arises,

Is it true that the human spirit is the incarnation of *"...the spirit of Allah...(Maryam: 19:17)* feeling *"...a very hot fire (Al Ghaasyiyah: 88:4)"...very hot water and very hot water. very cold (Shaad : 38: 57) ?*

The answer is

Hidden in the secret behind the verse: *"... a hell fire whose fuel is humans and stones... (At Tahrir: 66: 6)*

Well, apparently, the fuel of hell is *"...humans and stones...(At Tahrir : 66: 6)*

Apparently, the human body contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. While the rock contains hydrogen atoms and carbon atoms.

Well, here is the hidden secret.

What is a hidden secret?

The secret is, the fuel of hell is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, just as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are present in the human spirit that comes out of the dead human body that has been buried in the ground.

Well, this is the secret, because the atoms that are in the human spirit are the same as the atoms that are the fuel for hell, then hell doesn't have any effect on the human spirit.

Although in hell there is *"...very hot water and very cold water (Shaad: 38: 57)*

However, because water is composed of hydrogen atoms and oxygen atoms, then *"... hot water and... cold water (Shaad: 38: 57)* have no effect on the human spirit. Because in the human spirit there are hydrogen atoms and oxygen atoms.

Now, because the human spirit will live in hell for **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years and everything in the seven skys is all built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, the hellfire is very intense heat, whose fuel is hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms have no effect on the human spirit. Because in the human spirit there are also hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, it has been revealed, that actually in hell, the human spirit does not feel hot.

This is Allah's secret and what is in Allah's mind when Allah makes hell whose fuel is *"...humans and stones...(At Tahrir: 66:6)* does not have any effect on the human spirit.
