ABSTRACT

Before the author writes problem about is it true, Allah's form can be as small as Allah's particle which is almost zero, that is the real Allah, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about is it true, Allah's form can be as small as Allah's particle which is almost zero, that is the real Allah, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open the secret of Allah about is it true, Allah's form can be as small as Allah's particle which is almost zero, that is the real Allah, namely the following verses:

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Him. Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise, All-Knowing. (Al Baqarah: 2:115)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said, "My Lord, show me that I may see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained consciousness, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret on the issue about is it true, Allah's form can be as small as Allah's particle which is almost zero, that is the real Allah, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author puts forward the hypothesis that Allah's form can be as small as a nearly zero particle of Allah, because Allah's form is built with Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38:72) or Allah's spirit...(Shaad : 38:72)*, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

IS IT TRUE, ALLAH'S FORM CAN BE AS SMALL AS ALLAH'S PARTICLES THAT ARE ALMOST ZERO, THAT'S THE REAL ALLAH

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: "... *wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115)*"... *God's creation... ...balanced...(Al Mulk : 67: 3)*"... *I breathed into him my spirit...(Shaad : 38: 72)*"...*I am near...(Al Baqarah: 2: 186)*"...*the mountain was crushed...(Al A'raaf: 7: 143)*"... *a day whose content is fifty thousand years (Al Ma'aarij: 70:4)*

It turns out that here, Allah has declared "...*wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*"... *the mountain is crushed... (Al A'raaf: 7: 143)*

Now the question arises,

What is the secret behind Allah's declaration "...*wherever you face there is the face of Allah...(Al Baqarah: 2: 115)*"... *the mountain was crushed... (Al A'raaf: 7: 143)* ?

It turns out that the secret lies in the speed that exceeds the speed of light photons, "... *a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)*

Well, here Allah has revealed Allah's own secret, regarding Allah's particles, Allah's energy and "...*my spirit...(Shaad: 38:72)* or *Allah's spirit...(Shaad : 38:72)*

What exactly has a speed that exceeds the speed of light photons?

The answer is the particle of Allah which is almost zero "...*wherever you face that is the face of Allah... (Al Baqarah: 2: 115)*

Where Allah's particles are very small, almost non-existent, **0.000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams which has the speed of light **5475103664604.84** km per second, which is assisted by the very small Allah's energy **0.000000000 000000000 000000000 01** grams per cubic cm.

This is the real Allah's secret, which most people still don't understand, that is, Allah can have a form as small as Allah's particle which is almost zero, but has the speed of light of **5475103664604.84** km per second"...*wherever you face that is the face of Allah...(Al Baqarah : 2:115)*"...*I am near...(Al Baqarah: 2:186)*

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "... *wherever you turn, there is the face of Allah... (Al Baqarah: 2: 115)*"... *God's creation... ...balanced...(Al Mulk : 67: 3)*"... *I breathed into him my spirit...(Shaad : 38: 72)*"...*I am near...(Al Baqarah: 2: 186)*"...*the mountain was crushed...(Al A'raaf: 7: 143)*"... *a day whose content is fifty thousand years (Al Ma'aarij: 70:4)*

It turns out that here, Allah has declared "...*wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*"... *the mountain is crushed... (Al A'raaf: 7: 143)*

Now the question arises,
