## ABSTRACT

Before the author writes about is it true, Hajj the symbol of the creation of sky and the earth with Allah's spirit, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secret of is it true, Hajj the symbol of the creation of sky and the earth with Allah's spirit, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about is it true, Hajj the symbol of the creation of sky and the earth with Allah's spirit, namely the following verses:

*"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72).*

*"He puts the night into the day and the day into the night. And He is All-Knowing of all the contents of the heart. (Al Hadiid: 57: 6).*

*"God protects both places where the sun rises and God protects both places where it sets (Ar Rahmaan: 55: 17).*

*"Who has created the seven skys, in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3).*

*"Indeed Safa and Marwah are part of the syi'ar of Allah. So whoever performs the Hajj to Baitullah or Umrah, then there is no sin for him in performing the Sa'i between the two. And whoever does a good deed with a willing heart, then indeed Allah is Most Grateful goodness, All-Knowing (Al Baqarah: 2: 158).*

*"And among His signs is that you see the earth dry and barren, so that if We send down water on it, it will surely move and become fertile. Indeed, God Who gives life to it, will surely be able to give life to the dead. Indeed, He is Almighty over all things. (Fushshilat: 41: 39).*

*"Allah said: "What prevents you from prostrating when I tell you? Answered the devil, I am better than him: You created me from fire, while You created him from earth (Al A'raaf: 7: 12).*

In an effort to reveal the secret of Allah about is it true, Hajj the symbol of the creation of sky and the earth with Allah's spirit, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes hypothesis is it true, Hajj the symbol of the creation of sky and the earth with Allah's spirit, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## IS IT TRUE, HAJJ THE SYMBOL OF THE CREATION OF THE SKY AND THE EARTH WITH ALLAH'S SPIRIT

Now, we are still concentrating on uncovering the secret behind the verse: *"He causes the night to enter into the day and causes the day to enter into the night ... (Al Hadiid: 57: 6)"Allah takes care of the two places where the sun rises and...where it sets (Ar Rahmaan: 55: 17)"...Shafa and Marwah are part of the syi'ar of Allah...(Al Baqarah: 2: 158)"...You created me from fire...( Al A'raaf : 7: 12) "...seven skys, in layers...(Al Mulk: 67: 3).*

Well, here, Allah has opened the secret of hajj to all people in the world, including all Muslims in the world, *"He causes the night to enter into the day and ...the day to enter into the night ... (Al Hadiid: 57: 6)"Allah takes care of the two places where the sun rises and...where it sets (Ar Rahmaan: 55: 17) "...seven skys, in layers...(Al Mulk: 67: 3)"...Shafa and Marwah are...syi'ar of Allah...(Al Baqarah: 2: 158) "...Allah created the devil from fire...(Al A'raaf : 7: 12).*

Apparently, from the declaration of Allah, 3 important factors were found, which had something to do with hajj.

Factor 1, is that the earth rotates on its axis, and revolves around the sun, *"He causes the night to enter into the day and ...the day to enter into the night ... (Al Hadiid: 57: 6)"Allah takes care of the two places where the sun rises and...where it sets (Ar Rahmaan: 55: 17) "...seven skys, in layers...(Al Mulk: 67: 3),* which is the reference, when Muslims perform tawaf, 7 rounds.

That is, Muslims, when performing tawaf, start from the corner of the Black Stone facing east, turning northward, to the corner of Iraq, then westward, to the direction of Sham, continue south, to the corner of Yemen, back to the direction of the Black Stone, 7 rounds.

Just like the earth, around the sun, starting from the east, turning north, continuing to the west, continuing to the south, returning to the east.

Factor 2, is that when Muslims perform sa'i, they walk between Shafa - Marwah, Marwah - Shafa, *"...Shafa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158).*

Where, sa'i is a symbol of *"...my spirit... (Shaad : 38: 72)* or *"...Allah's spirit... (Shaad : 38: 72)* which was built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

As kept in the secret behind the verse: *"... you see the earth is dry and arid, so when We send down water on it, it will surely move and be fertile... (Fushshilat: 41: 39).*

Well, actually what forms the water that makes the arid earth fertile are hydrogen atoms and oxygen atoms.

Now, with the presence of hydrogen atoms and oxygen atoms that unite to form this water, Allah declares *"...Shafa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158).*

Or in other words, *"...my spirit... (Shaad : 38: 72)* or *"...Allah's spirit... (Shaad : 38: 72)* in which there are hydrogen atoms and oxygen atoms, which form the water that makes the arid earth fertile.

Factor 3, is that Muslims throw the jumrah, jumrah al-Ula, jumrah al-Wusta and jumrah al-Aqabah, which are symbols referring to *"...Allah created the devil from fire... (Al A'raaf: 7: 12).*

Or in other words, *"...Allah created the devil from an oxygen atom...(Al A'raaf : 7: 12).*

Where the oxygen atom is easily oxidized with other atoms, and is flammable.

Well, because the oxygen atom is flammable, then to extinguish it, the oxygen atom is mixed with a hydrogen atom. By mixing one oxygen atom with two hydrogen atoms, it becomes water.

This, is the secret, reversed, throwing the jumrah, that is, when Muslims throw a stone, in which there is a hydrogen atom, they throw it into the jumrah, which is symbolized by the devil, which is made of oxygen atoms, then when the hydrogen atoms in the stone meet with oxygen atoms, it becomes water or H<sub>2</sub>O.

So, now, uncovered, the secret, behind the pilgrimage, is a symbol that refers to the creation of the skys and the earth with Allah's spirit.

## CONCLUSION

The conclusions that can be drawn from the explanation above are the secret behind the verse: *"He causes the night to enter into the day and causes the day to enter into the night ... (Al Hadiid: 57: 6)"Allah takes care of the two places where the sun rises and...where it sets (Ar Rahman: 55: 17)"...Shafa and Marwah are part of the syi'ar of Allah...(Al Baqarah: 2: 158)"...You created me from fire...(Al A'raaf : 7: 12) "...seven skys, in layers...(Al Mulk: 67: 3).*

Well, here, Allah has opened the secret of hajj to all people in the world, including all Muslims in the world, *"He causes the night to enter into the day and ...the day to enter into the night ... (Al Hadiid: 57: 6)"Allah takes care of the two places where the sun rises and...where it sets (Ar Rahman: 55: 17) "...seven skys, in layers...(Al Mulk: 67: 3)"...Shafa and Marwah are...syi'ar of Allah...(Al Baqarah: 2: 158) "...Allah created the devil from fire...(Al A'raaf : 7: 12).*

Apparently, from the declaration of Allah, 3 important factors were found, which had something to do with hajj.

Factor 1, is that the earth rotates on its axis, and revolves around the sun, ***"He causes the night to enter into the day and ...the day to enter into the night ... (Al Hadiid: 57: 6)" Allah takes care of the two places where the sun rises and...where it sets (Ar Rahmaan: 55: 17) "...seven skys, in layers... (Al Mulk: 67: 3),*** which is the reference, when Muslims perform tawaf, 7 rounds.

That is, Muslims, when performing tawaf, start from the corner of the Black Stone facing east, turning northward, to the corner of Iraq, then westward, to the direction of Sham, continue south, to the corner of Yemen, back to the direction of the Black Stone, 7 rounds.

Just like the earth, around the sun, starting from the east, turning north, continuing to the west, continuing to the south, returning to the east.

Factor 2, is that when Muslims perform sa'i, they walk between Shafa - Marwah, Marwah - Shafa, ***"...Shafa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158).***

Where, sa'i is a symbol of ***"...my spirit... (Shaad : 38: 72)*** or ***"...Allah's spirit... (Shaad : 38: 72)*** which was built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

As kept in the secret behind the verse: ***"... you see the earth is dry and arid, so when We send down water on it, it will surely move and be fertile... (Fushshilat: 41: 39).***

Well, actually what forms the water that makes the arid earth fertile are hydrogen atoms and oxygen atoms.

Now, with the presence of hydrogen atoms and oxygen atoms that unite to form this water, Allah declares ***"...Shafa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158).***

Or in other words, ***"...my spirit... (Shaad : 38: 72)*** or ***"...Allah's spirit... (Shaad : 38: 72)*** in which there are hydrogen atoms and oxygen atoms, which form the water that makes the arid earth fertile.

Factor 3, is that Muslims throw the jumrah, jumrah al-Ula, jumrah al-Wusta and jumrah al-Aqabah, which are symbols referring to ***"...Allah created the devil from fire... (Al A'raaf: 7: 12).***

Or in other words, ***"...Allah created the devil from an oxygen atom... (Al A'raaf : 7: 12).***

Where the oxygen atom is easily oxidized with other atoms, and is flammable.

Well, because the oxygen atom is flammable, then to extinguish it, the oxygen atom is mixed with a hydrogen atom. By mixing one oxygen atom with two hydrogen atoms, it becomes water.

This, is the secret, reversed, throwing the jumrah, that is, when Muslims throw a stone, in which there is a hydrogen atom, they throw it into the jumrah, which is symbolized by the devil, which is made of oxygen atoms, then when the hydrogen atoms in the stone meet with oxygen atoms, it becomes water or H<sub>2</sub>O.

So, now, uncovered, the secret, behind the pilgrimage, is a symbol that refers to the creation of the skys and the earth with Allah's spirit.
