## ABSTRACT

Before the author writes about is it true, paradise and hell will disappear, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of is it true, paradise and hell will disappear, based on Deoxyribonucleic acid (DNA)

There are several verses that reveal Allah's secret about is it true, paradise and hell will disappear, namely the verses:

*"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)*

*"Those who were before and first from the Muhajirin and Ansar and those who followed them well, Allah was pleased with them and they were pleased with Allah and Allah had prepared for them paradise in which rivers flow forever. They eternal in it. That's a big win. (At Taubah: 9: 100)*

*"And whoever disobeys Allah and His Messenger and violates His provisions, Allah will surely put him in the fire of hell while he will abide therein eternally, and for him will be a humiliating punishment. (An Nisaa': 4: 14)*

*"Allah, there is no God but He Who is eternally alive and continuously takes care, who does not slumber or sleep. To Him belongs what is in the skys and on earth. No one can intercede with Allah without His permission? Allah know what is before them and behind them, and they know nothing from the knowledge of Allah except what He wills. Allah's seat covers the skys and the earth. And Allah does not find it difficult to look after both of them, and Allah is Most High, Most Great. (Al Baqarah : 2: 255)*

In an effort to open the veil of Allah's secret about is it true, paradise and hell will disappear, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESES

Here the author puts forward a hypothesis is it true, paradise and hell will disappear, based on Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 nitrogen atom oxygen and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T)

contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

## IS IT TRUE, PARADISE AND HELL WILL DISAPPEAR

So now, we still continue to focus all our thoughts on uncovering the secret hidden behind the verse: *"...Allah had prepared for them paradise in which rivers flow forever. They eternal in it...(At Taubah: 9: 100) "...whoever disobeys Allah and His Messenger and violates His provisions, Allah will surely put him in the fire of hell while he will abide therein eternally...(An Nisaa' : 4: 14).*

It turns out that here Allah declared *"...for them paradise...They eternal in it...(At Taubah: 9: 100) "...whoever disobeys Allah and His Messenger...Allah will surely put him in the fire of hell while he will abide therein eternally...(An Nisaa' : 4: 14).*

Well, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which enters paradise and hell"...They eternal in it...(At Taubah: 9: 100)*

Now the question arises,

What does Allah actually mean *"...They eternal in it...(At Taubah: 9: 100)?*

The answer is

Kept in the secret behind the verse: *"Allah, there is no God but He Who is eternally alive ...(Al Baqarah: 2: 255).*

Well, it turns out *"...He Who is eternally alive...(Al Baqarah: 2: 255) is Allah.*

So, because *"...paradise...(At Taubah: 9: 100) and "...hell...(An Nisaa' : 4: 14) and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) are built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then these atoms will not be eternal, these atoms have a limited life.*

Hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear when the nuclear energy that holds the quarks in the atom is lost. According to human calculations, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, again to be the energy of God, after reaching the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.

So, in fact what was declared by Allah *"...for them paradise...They eternal in it...(At Taubah: 9: 100) "...whoever disobeys Allah and His Messenger and violates His provisions, Allah will surely put him in the fire of hell while he will abide therein eternally...(An Nisaa' : 4: 14) is "...eternal...(At Taubah: 9: 100) according to human calculations with a period of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.*

Well, this is the secret of Allah, that in *"...paradise...(At Taubah: 9: 100) and in "...hell...(An Nisaa' : 4: 14) "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) lives "...eternally ...(At Taubah: 9: 100) as long as the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms have not disappeared.*

## CONCLUSION

Based on the description above we can conclude that the secret hidden behind the verse: *"...Allah had prepared for them paradise in which rivers flow forever. They eternal in it...(At Taubah: 9: 100) "...whoever disobeys Allah and His Messenger and violates His provisions, Allah will surely put him in the fire of hell while he will abide therein eternally...(An Nisaa' : 4: 14).*

Well, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which enters paradise and hell"*...They eternal in it...(At Taubah: 9: 100)*

Now the question arises,

What does Allah actually mean *"...They eternal in it...(At Taubah: 9: 100)?*

The answer is

Kept in the secret behind the verse: *"Allah, there is no God but He Who is eternally alive ...(Al Baqarah: 2: 255).*
