**ABSTRACT**

Before the author writes the question of whether it is true, some followers of Jesus still believe that Adam inherited sin to other humans, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about whether it is true, some followers of Jesus still believe that Adam inherited sin to other humans, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about whether it is true, some followers of Jesus still believe that Adam inherited sin to other humans, namely the verses:

*"Then both of them were derailed by the devil from heaven and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a dwelling place on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)*

*And We said: "O Adam, dwell in this paradise for you and your wife, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be among the wrongdoers. (Al Baqarah: 2:35)*

*"So both of them ate from the fruit of the tree, then their nakedness became visible to both of them and they began to cover them with the leaves of heaven, and Adam disobeyed God and went astray (Thaahaa: 20:121)*

*"So We said: "O Adam, verily this is an enemy to you and to your wife, so do not let him bring you both out of Paradise, which will cause you harm (Thaahaa: 20: 117)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hija: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*Say: "Shall I seek a god besides Allah, when He is Lord of all things? And no one commits sin except that his harm returns to himself; and a sinner will not bear the sins of another. Then to your Lord you will return, and He will inform you of what you disagreed with." (Al An'am: 6:164)*

*"so that He may admit the believing men and women into Paradise under which rivers flow, they will abide therein and so that He may cover their faults. And that is a great advantage in the sight of Allah (Al-Qur'an). Fath : 48: 5)*

In an effort to open the veil of Allah's secret about whether it is true, some followers of Jesus still believe that Adam inherited sin to other humans, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes the hypothesis that some followers of Jesus still believe that Adam inherited sin to other humans, because sin is considered human property, based on Deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **IS IT TRUE, SOME FOLLOWERS OF JESUS STILL BELIEVE THAT ADAM INHERIT SIN TO OTHER HUMANS**

Now, we are still concentrating on digging and uncovering the secret behind the verse: *"...a sinner will not bear the sins of another...(Al An'aam: 6: 164) "...We blow it into Maryam's womb is part of Our soul... (At Tahrir: 66:12)*

Apparently, Allah has declared *"... a sinner will not bear the sins of others ... (Al An'aam: 6: 164)*

Now the question arises,

Why do some followers of Jesus still believe that Adam inherit sin to other humans?

Now, the answer is that sin is considered someone's property, can be redeemed, and can be handed over to someone else.

In the matter of Adam's sin, according to some beliefs of Jesus' followers, it began with a woman named Eva, eating the fruit of the forbidden tree because of the temptation of Satan in the form of a snake, then the fruit was also given to Adam, where Adam ate the fruit.

Because Adam ate the fruit of the forbidden tree, Adam sinned.

Well, Adam's sin from eating the fruit of this forbidden tree, according to the belief of some followers of Jesus, can be inherited to other humans.

Well, this is where the big mistake that some followers of Jesus believe in regarding inherited sin.

According to the belief of some followers of Jesus, Adam felt innocent, because the fruit he ate was a gift from Eva, then Eva also felt innocent, because the fruit he ate was the result of the temptation of satan in the form of a snake.

Well, Adam blamed Eva, then Eva blamed satan in the form of a snake. This is what some of Jesus'

followers believe about Adam's inherited sin.

Adam felt innocent. Even though Adam had sin, it could be inherited or passed on to other humans.

Now, this is a basic belief about perverted and wrong sin.

In fact, sin is the result of someone committing an action or attitude that violates the rules and applicable laws. Sin is not considered as someone's property, but sin is the result of someone's behavior that deviates and violates applicable rules and laws. Every human being bears their own sins ***"...a sinner will not bear the sins of another...(Al An'aam: 6: 164)***

Actually, if examined in depth, it is not women, in this case Eva, who is at fault, but Adam, a man who is at fault. Why? Because a man wants to show that he is above women, in any case. Adam already knew that the fruit of the forbidden tree should not be eaten, but eaten too, here Adam has sinned.

Well, according to the belief of some followers of Jesus, men should not be blamed, in the end women are accused of wrongdoing. Or in other words, Adam blamed Eva.

Because Adam felt innocent, or in other words, according to the belief of some followers of Jesus, Adam did not have sin, even if sin came to Adam, then Adam could inherit or pass that sin on to others. When in fact, belief in sin inherited from Adam to other humans is a belief that strays far.

## CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: ***"...a sinner will not bear the sins of another...(Al An'aam: 6: 164) "...We blow it into Maryam's womb is part of Our soul...(At Tahrir: 66:12)***

Apparently, Allah has declared ***"... a sinner will not bear the sins of others ... (Al An'aam: 6: 164)***
