**ABSTRACT**

Before the author writes the question of whether it is true that life in paradise and hell requires a source of life from the earth, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of whether it is true that life in paradise and hell requires a source of life from the earth, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking about whether it is true that life in paradise and hell requires a source of life from the earth, namely the following verses:

*"Allah... the light of the skys and the earth... the light upon the light.. (An Nuur: 24: 35)*

*"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)*

*"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)*

*"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill and let them believe in Me, so that they will always be in truth.(Al Baqarah: 2:186)*

*"He arranges affairs from the heavens to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)*

*"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)*

*"Who has created the seven skies in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2:115)*

*"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)*

*"When the sun is rolled up (At Takwiir: 81: 1)*

*"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the Most Mighty. (Ibrahim: 14:48)*

*"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skies and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)*

*"It is Allah who sent down the book with truth and balance. And do you know that the Day of Resurrection may be near? (Ash Shuura: 42:17)*

*"As for those who deviate from the truth, then they become wood of fire for the Hellfire. (Al Jin: 72:15)*

*Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf : 7:38)*

*"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

In an effort to open the veil of Allah's secret about whether it is true that life in paradise and hell requires a source of life from the earth, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here the author proposes the hypothesis that life in paradise and hell requires a source of life from the earth, because *"...my spirit...(Shaad: 38:72)* or *"...the spirit of Allah...(Shaad: 38:72)* requires hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **DOES IT REALLY REQUIRE LIFE IN PARADISE AND HELL NEED A RESOURCING FROM EARTH?**

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: "*... the earth was replaced with another earth and the sky... (Ibrahim: 14: 48)*" *Who created the seven skys...( Al Mulk: 67: 3)*"*...a paradise as wide as the skys and the earth...(Ali 'Imran: 3: 133)*

Here Allah has declared "*... the earth is replaced with another earth and the sky... (Ibrahim: 14: 48)*

Now the question arises,

Why will Allah replace "*...earth...with another earth...(Ibrahim: 14:48)* and "*...sky (with another sky)... (Ibrahim: 14:48)?*

The answer is in the secret behind the verse: "*... You... do not see in the creation of the Most Gracious God anything that is not balanced... (Al Mulk: 67: 3)*

Well, it turns out, because life in heaven and hell must be "*...balanced...(Al Mulk: 67: 3)*, then the source of life in paradise and in hell must be balanced with the source of life on earth.

Where what is meant by the source of life in paradise and in hell is the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival "*...my spirit...(Shaad: 38:72)* or "*...the spirit of Allah...(Shaad: 38:72)* who live in heaven and in hell.

Now another question arises,

Where do the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms come from?

Well, these atoms come from the earth.

Because of the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival "*...my spirit...(Shaad: 38:72)* or "*...the spirit of Allah...(Shaad: 38:72)* which life in heaven and in hell comes from the earth, then the source of life on earth must be partly shared for life in paradise and hell.

If the need for life resources in paradise and in hell increases, it will result in the need for life on earth to decrease, which will result in an unbalanced life between life on earth and life in paradise and hell .

Well, now, because many living beings on earth died, causing life in paradise and hell to increase. *"...my spirit...(Shaad: 38:72)* or *"...the spirit of Allah...(Shaad: 38:72)* that goes into paradise and into hell continues to increase.

In addition, humans who are born into the world continue to decrease, so the source of life that should be used on earth, is transferred to paradise and hell.

Another question arises,

Is the source of life for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms not added to the earth?

Now, the answer is that these atoms do not increase but change form, from two hydrogen atoms colliding into one helium atom, as happens in the sun or stars or as happens in hell.

So, actually, because the human body is made up of **7 000000000 000000000 000000000** atoms, then these atoms come out again from the human body, when the human dies. Then these atoms are used again for the creation of humans and other creatures and are used for the survival of animals and plants and other living things.

Therefore when Allah declares *"Allah says: "Enter all of you into hell with the jinn and humans...(Al A'raaf: 7:38)"...they become firewood for the Hellfire. (Al-A'raaf: 7:38) Jin: 72:15)*

Here, it means, that because the human and jinn bodies contain hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then when *"...my spirit...(Shaad: 38:72)* or *"...the spirit of Allah...(Shaad: 38:72)* and these atoms come out of the bodies of humans and jinn, if *"...my spirit...(Shaad: 38:72)* or *"...the spirit of Allah...(Shaad: 38:72)* go to hell, the hydrogen atoms that are in *"...my spirit...(Shaad: 38:72)* or *"...the spirit of Allah...(Shaad: 38:72)* are made burn in hell, *"...they become firewood for the Hellfire. (Al Jin: 72:15)*

This is the secret of Allah that most people still do not understand. Life in paradise and in hell depends on life on earth.

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"... the earth was replaced with another earth and the sky... (Ibrahim: 14: 48)" Who created the seven skys... (Al Mulk: 67: 3)"...a paradise as wide as the skys and the earth...(Ali 'Imran: 3: 133)*

Here Allah has declared *"... the earth is replaced with another earth and the sky... (Ibrahim: 14: 48)*

Now the question arises,

Why will Allah replace *"...earth...with another earth...(Ibrahim: 14:48)* and *"...sky (with another sky)...(Ibrahim: 14:48)?*

The answer is in the secret behind the verse: *"... You... do not see in the creation of the Most Gracious God anything that is not balanced... (Al Mulk: 67: 3)*

Well, it turns out, because life in heaven and hell must be "...balanced...(Al Mulk: 67: 3), then the source of life in paradise and in hell must be balanced with the source of life on earth.

Where what is meant by the source of life in paradise and in hell is the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) who live in heaven and in hell.

Now another question arises,

Where do the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms come from?

Well, these atoms come from the earth.

Because of the need for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) which life in heaven and in hell comes from the earth, then the source of life on earth must be partly shared for life in paradise and hell.

If the need for life resources in paradise and in hell increases, it will result in the need for life on earth to decrease, which will result in an unbalanced life between life on earth and life in paradise and hell .

Well, now, because many living beings on earth died, causing life in paradise and hell to increase. "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) that goes into paradise and into hell continues to increase.

In addition, humans who are born into the world continue to decrease, so the source of life that should be used on earth, is transferred to paradise and hell.

Another question arises,

Is the source of life for hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms not added to the earth?

Now, the answer is that these atoms do not increase but change form, from two hydrogen atoms colliding into one helium atom, as happens in the sun or stars or as happens in hell.

So, actually, because the human body is made up of **7 000000000 000000000 000000000** atoms, then these atoms come out again from the human body, when the human dies. Then these atoms are used again for the creation of humans and other creatures and are used for the survival of animals and plants and other living things.

Therefore when Allah declares "*Allah says: "Enter all of you into hell with the jinn and humans...(Al A'raaf: 7:38)"...they become firewood for the Hellfire. (Al-A'raaf: 7:38) Jin: 72:15)*

Here, it means, that because the human and jinn bodies contain hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then when "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) and these atoms come out of the bodies of humans and jinn, if "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) go to hell, the hydrogen atoms that are in "...my spirit...(Shaad: 38:72) or "...the spirit of Allah...(Shaad: 38:72) are made burn in hell, "...they become firewood for the Hellfire. (Al Jin: 72:15)

This is the secret of Allah that most people still do not understand. Life in paradise and in hell depends on life on earth.
