ABSTRACT

First of all, by asking for forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding there are still many humans who believe that angels can fly with wings, even though angels are male and have offspring, from the point of view of photons, quarks and the molecular structure of acids. nucleic acid or deoxyribonucleic acid (DNA)

The signs of Allah's greatness regarding Allah's secret about there are still many people who believe angels can fly with wings, even though angels are male and have offspring, namely in the verses:

"Praise be to Allah, the Creator of the heavens and the earth, Who made the angels as messengers with wings, two, three and four respectively. Allah adds to His creation what He wills. Verily, Allah has power over all things. (Faathir: 35:1)

"Angels and spirits ascend to God in a day the measure of which is fifty thousand years (Al Ma'aarij: 70: 4)

"...We made the apostle an angel, ...he was a man...(Al An'aam: 6: 9)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And if We wish, We have indeed made in your place on earth angels that have been passed down from generation to generation. (Az Zukhruf: 43:60)

"And it is not possible for any human being that Allah can speak to him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Indeed, He is Most High, Most Wise. (Ash Syuura: 42:51)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

In an effort to open the veil of the greatness of Allah SWT regarding there are still many people who believe that angels can fly with wings, even though angels are male and have offspring, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESIS

Here I propose the hypothesis that there are still many people who believe that angels can fly with wings, even though angels are male and have offspring, angels have two, three and four wings, which describes the frequency used by angels to communicate with God, relate to other angels and humans. , seen from photons, quarks and the molecular structure of nucleic acids or

deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

ANGELS AS MESSAGES OF A MAN, HAVE DESCRIPTIONS, WHILE THE WINGS IS A SYMBOL OF WAVE FREQUENCY M PARTICLES THAT HAVE THE SPEED OF LIGHT 5475103664604.84 KM PER SECOND

Now, we are still trying to focus our minds to reveal the secret hidden behind the verse: "*... We made the apostle an angel... he was a man... (Al An'aam: 6: 9)*". *..angel from generation to generation (Az Zukhruf: 43:60)* "*...as messengers with wings, two, three and four each...(Faathir: 35: 1)*

Well, it turns out, the angel is "*...a man...(Al An'aam: 6:9)*" "*...who has been passed down from generation to generation (Az Zukhruf: 43:60)*" "*...as a messenger who has wings, two, three and four respectively...(Faathir: 35: 1)*

The question now is

Why do angels "*...as messengers who have wings, two, three and four respectively...(Faathir: 35: 1)* ?

The answer is hidden in the secret behind the verse: "*Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)*

Well, it turns out, angels have the ability and knowledge in terms of communication or the ability to relate to Allah, using the m particle.

Where this m particle has the speed of light 5475103664604.84 km per second, or 18262980 times the speed of light 299792.458 km per second

So, what Allah declared "*...as a messenger who has wings, two, three and four respectively...(Faathir: 35:1)*" is a symbol which refers to m particle frequency wave with the speed of light 5475103664604, 84 km per second

Because, indeed angels are like humans "*...as messengers... (Faathir: 35: 1)"... a man... (Al An'aam: 6: 9)* who has a family and". .. *from generation to generation (Az Zukhruf: 43: 60)*

When angels relate to Allah using m particle frequency wave with the speed of light 5475103664604.84 km per second.

Meanwhile, if angels want to communicate with fellow angels and with humans, they use frequency waves at the speed of light 109502073292.0968 km per second or 365 259.6 times the speed of light 299792.458 km per second "*...one day whose measure is a thousand years ... (As Sajdah: 32:5)*

Well, now it's been revealed, the secret hiding behind the verse: "*...as a messenger who has wings, two, three and four each... (Faathir: 35: 1)*

That is, the wing is a symbol that refers to m particle frequency wave with the speed of light 5475103664604.84 km per second.

CONCLUSION

From what has been described above we can now conclude that the secret hidden behind the verse: "*... We made the apostle an angel... he was a man... (Al An'aam: 6: 9)"...angel from generation to generation (Az Zukhruf: 43:60)*" "*...as messengers with wings, two, three and four each...(Faathir: 35: 1)*

Well, it turns out, the angel is "*...a man...(Al An'aam: 6:9)*" "*...who has been passed down from generation to generation (Az Zukhruf: 43:60)*" "*...as a messenger who has wings, two, three and four respectively...(Faathir: 35: 1)*

The question now is

Why do angels "*...as messengers who have wings, two, three and four respectively...(Faathir: 35: 1)* ?

The answer is hidden in the secret behind the verse: "*Angels and spirits ascend to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)*

Well, it turns out, angels have the ability and knowledge in terms of communication or the ability to relate to Allah, using the m particle.

Where this m particle has the speed of light 5475103664604.84 km per second, or 18262980 times the speed of light 299792.458 km per second

So, what Allah declared "*...as a messenger who has wings, two, three and four respectively...(Faathir: 35:1)*" is a symbol which refers to m particle frequency wave with the speed of light 5475103664604, 84 km per second

Because, indeed angels are like humans "*...as messengers... (Faathir: 35: 1)"... a man... (Al An'aam: 6: 9)* who has a family and". .. *from generation to generation (Az Zukhruf: 43: 60)*

When angels relate to Allah using m particle frequency wave with the speed of light 5475103664604.84 km per second.

Meanwhile, if angels want to communicate with fellow angels and with humans, they use frequency waves at the speed of light 109502073292.0968 km per second or 365 259.6 times the speed of light 299792.458 km per second *"...one day whose measure is a thousand years ...(As Sajdah: 32:5)*

Well, now it's been revealed, the secret hiding behind the verse: *"...as a messenger who has wings, two, three and four each... (Faathir: 35: 1)*

That is, the wing is a symbol that refers to m particle frequency wave with the speed of light 5475103664604.84 km per second.
