ABSTRACT

Before the author writes about mazhab will not exist if all Muslims understand the real Allah, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of mazhab will not exist if all Muslims understand the real Allah, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah about mazhab will not exist if all Muslims understand the real Allah, namely the verses:

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72).

"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit incarnated before Maryam, a perfect human. (Maryam: 19: 17).

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced, so look again and again, do you see something that is not balanced? (Al Mulk: 67: 3).

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115).

In an effort to uncover the veil of Allah's secrets about mazhab will not exist if all Muslims understand the real Allah, the author uses the basis of deoxyribonucleic acid.

HYPOTHESES

Here the author proposes hypothesis mazhab will not exist if all Muslims understand the real Allah, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and

contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

MAZHAB WILL NOT EXIST IF ALL MUSLIMS UNDERSTAND THE REAL ALLAH

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...I breathed into Adam my spirit...(Shaad : 38: 72)"... Our spirit incarnated...a perfect human (Maryam: 19: 17) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115).*

Well, Allah's declaration *"...I breathed into Adam my spirit...(Shaad : 38: 72)"...Our spirit incarnated...a perfect human (Maryam: 19: 17) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)* is science to understand the real Allah.

Now the question arises,

Why *"...my spirit...(Shaad: 38: 72)* or *"...our spirit...(Maryam: 19: 17)* and *"...the face of Allah...(Al Baqarah: 2: 115)* is science to understand the real Allah?

Well, the answer is in the secret behind the verse: *"...seven skys...balanced (Al Mulk: 67: 3).*

This means that the form of Allah is *"...balanced (Al Mulk: 67: 3).* Because in the form of Allah there is something eternal such as Allah's energy which form *"...the face of Allah...(Al Baqarah: 2: 115)* and there is something uneternal such as *"...my spirit...(Shaad: 38: 72)* or *"...our spirit...(Maryam: 19: 17)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, because of Allah's energy and Allah's particle which form *"...the face of Allah...(Al Baqarah: 2: 115)* and *"...my spirit...(Shaad: 38: 72)* or *"...our spirit...(Maryam: 19: 17)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then the form of Allah is *"...balanced (Al Mulk: 67: 3).*

This is Allah's secret which is unknown to almost all people in the world, including all Muslims in the world.

Well, because Muslims in the world do not understand the real Allah through Allah's form which is *"...balanced (Al Mulk: 67: 3),* then Muslims in the world can be divided.

Indeed, Muslims in the world have been divided by the ideas of a few Muslims, such as the thoughts of Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal who did not understand the first Islamic State founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD).

For example, Muslims in Egypt, Syria, Turkey, Afghanistan, Pakistan, Azerbaijan, Kazakhstan,

Turkmenistan, Uzbekistan are influenced by Hanafi thought. Muslims in Saudi Arabia were influenced by Hambali thought. Muslims in Indonesia, Malaysia, Somalia, Ethiopia, Yemen are influenced by Shafi'i thought. Muslims in north-west Africa, Libya, Sudan, Chad, Nigeria, Algeria, Morocco, Tunisia and Palestine were influenced by Maliki's thoughts. Muslims in Iran were influenced by Jafari's thoughts.

Well, now, if Muslims all over the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, then it will be impossible for Muslims throughout the world to be divided.

Why is it impossible for Muslims throughout the world to be divided, if Muslims in the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit?

Because if Muslims throughout the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, then there will be no differences in interpretation in understanding the law revealed by Allah.

Well, because Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal did not understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, there arose differences in interpretation in understanding the law revealed by Allah between them.

But regarding the first Islamic State founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD) there are similarities, namely Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal do not admit that there was a first Islamic State founded by the Prophet Muhammad saw in Medina in 1 H (622 AD).

Finally, the majority of Muslims in the world think that the command "***...If you punish deeds among them, with what Allah has revealed...(Al Maa'idah: 5: 49)*** is enough to be studied at universities, it does not need to be carried out in the Islamic state, which follows the first Islamic state founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD).

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "***...I breathed into Adam my spirit...(Shaad : 38: 72)"... Our spirit incarnated...a perfect human (Maryam: 19: 17) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115).***

Well, Allah's declaration "***...I breathed into Adam my spirit...(Shaad : 38: 72)"...Our spirit incarnated...a perfect human (Maryam: 19: 17) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*** is science to understand the real Allah.

Now the question arises,

Why "***...my spirit...(Shaad: 38: 72)*** or "***...our spirit...(Maryam: 19: 17)*** and "***...the face of Allah...(Al Baqarah: 2: 115)*** is science to understand the real Allah?

Well, the answer is in the secret behind the verse: "***...seven skys...balanced (Al Mulk: 67: 3).***

This means that the form of Allah is "***...balanced (Al Mulk: 67: 3).*** Because in the form of Allah there is something eternal such as Allah's energy which form "***...the face of Allah...(Al Baqarah: 2: 115)*** and there is something uneternal such as "***...my spirit...(Shaad: 38: 72)*** or "***...our spirit...(Maryam: 19: 17)*** which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, because of Allah's energy and Allah's particle which form "*...the face of Allah...(Al Baqarah: 2: 115)* and "*...my spirit...(Shaad: 38: 72)* or "*...our spirit...(Maryam: 19: 17)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then the form of Allah is "*...balanced (Al Mulik: 67: 3)*).

This is Allah's secret which is unknown to almost all people in the world, including all Muslims in the world.

Well, because Muslims in the world do not understand the real Allah through Allah's form which is "*...balanced (Al Mulik: 67: 3)*, then Muslims in the world can be divided.

Indeed, Muslims in the world have been divided by the ideas of a few Muslims, such as the thoughts of Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal who did not understand the first Islamic State founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD).

For example, Muslims in Egypt, Syria, Turkey, Afghanistan, Pakistan, Azerbaijan, Kazakhstan, Turkmenistan, Uzbekistan are influenced by Hanafi thought. Muslims in Saudi Arabia were influenced by Hambali thought. Muslims in Indonesia, Malaysia, Somalia, Ethiopia, Yemen are influenced by Shafi'i thought. Muslims in north-west Africa, Libya, Sudan, Chad, Nigeria, Algeria, Morocco, Tunisia and Palestine were influenced by Maliki's thoughts. Muslims in Iran were influenced by Jafari's thoughts.

Well, now, if Muslims all over the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, then it will be impossible for Muslims throughout the world to be divided.

Why is it impossible for Muslims throughout the world to be divided, if Muslims in the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit?

Because if Muslims throughout the world understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, then there will be no differences in interpretation in understanding the law revealed by Allah.

Well, because Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal did not understand the real Allah, through Allah's energy, Allah's particle and Allah's spirit, there arose differences in interpretation in understanding the law revealed by Allah between them.

But regarding the first Islamic State founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD) there are similarities, namely Abu Hanifah, Malik bin Anas, Syafi'i and Ahmad bin Hambal do not admit that there was a first Islamic State founded by the Prophet Muhammad saw in Medina in 1 H (622 AD).

Finally, the majority of Muslims in the world think that the command "*...If you punish deeds among them, with what Allah has revealed...(Al Maa'idah: 5: 49)* is enough to be studied at universities, it does not need to be carried out in the Islamic state, which follows the first Islamic state founded by the Prophet Muhammad saw in Medina in 1 AH (622 AD).
