ABSTRACT

Before I write down the problem, most people still do not realize and do not understand where and how Allah actually exists, first I ask forgiveness from Allah SWT. Here I try to open the veil that covers the secret about most of the people who still do not realize and do not understand where and how Allah actually exists, from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking tool about most people who still do not realize and do not understand where and how Allah actually exists, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course We would have doubted about them what they doubted about themselves (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when they ask Me, then let them fulfill (all My commands) and let them believe in - Me, that they may always be in the truth.(Al Baqarah: 2:186)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Allah did not create and resurrect you except as one soul. Indeed, Allah is All-Hearing, All-Seeing. (Luqman: 31: 28)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"And among His signs is that you see the earth dry and arid, then when We send down water on it, it will surely move and thrive. Indeed, God Who gives life to it, surely can bring back the dead. Verily, He has power over all things. (Fussilat: 41:39)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"It is He Who created the skys and the earth in six days: Then He resides on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is All-Seeing of what you do. (Al Hadid: 57:4)

"And verily We have created man from an essence from clay. (Al Mu'minuun: 23:12)

"He is Allah, Who created all that is on earth for you and He willed the heavens, then He made the seven heavens. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to open the veil of Allah's secret about most people who still do not realize and do not understand where and how Allah actually exists, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis that humans still do not realize and do not understand where and how Allah actually exists because Allah's form is seen through "... *my spirit ... (Shaad: 38: 72)* which is in humans and throughout the universe, seen from the point of view of Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MOST PEOPLE STILL THINK ALLAH EXISTS, BUT DON'T REALIZE AND DON'T UNDERSTAND WHERE AND HOW ALLAH ACTUALLY EXISTS

Now, we are still concentrating on uncovering the secret behind the verse: *"...if My servants ask you about Me, then, indeed, I am near...(Al Baqarah: 2:186)*

Apparently, here Allah has explained to humans through the symbol *"...that I am near... (Al Baqarah: 2: 186)*

Well, *"...near...(Al Baqarah: 2: 186)* according to Allah, evidenced in the form *"...I breathed into him my spirit...(Shaad: 38: 72)*

By going through *"...my spirit...(Shaad: 38:72)* which is within man, and which is throughout the universe and all its contents, man must understand and realize that Allah *"...is near... (Al Baqarah: 2:186)*

That is, wherever humans look, whether they look into themselves or wherever their eyes are directed, there is Allah.

So, actually the form of Allah appears and is seen through *"... My spirit... (Shaad: 38: 72)*

Where *"...my spirit...(Shaad : 38:72)* is the way to see, meet and talk to Allah.

IF HUMANS DON'T KNOW AND DO NOT UNDERSTAND MY SPIRIT THEN HUMANS WILL NOT KNOW AND WILL NOT UNDERSTAND HOW ALLAH ACTUALLY EXISTS

Now, if people say: **"I worship Allah and am praying before Allah"**

Apparently, what is said by humans is only limited to the mouth.

Why does the man say: **"I am praying in front of Allah" only in the mouth?**

The answer is

Because humans do not *"...think about the creation of the heavens and the earth...(Ali 'Imran: 3: 191)*

What is the relationship between Allah's being and where Allah is with *"...the creation of the skys and the earth...(Ali 'Imran: 3:191)?*

The answer is

Hidden in the secret behind the verse: *"...He willed the skys, then He made seven skys...(Al Baqarah: 2: 29)*

Well, it turns out that when Allah wills or desires the sky, it is made *"...seven skys... (Al Baqarah: 2: 29)*

This is proof that because the universe and everything in it, including humans, exists and is visible to the human eye, then Allah exists. Allah is everywhere through *"...my spirit...(Shaad : 38:72)*

So, when humans say: **"I am praying in front of Allah"** means that humans must understand and realize that in him there is *"... My spirit... (Shaad: 38: 72)* and through *"... my spirit... (Shaad: 38: 72)* Allah is tangible and exists.

Now the question arises,

If Allah exists and exists, why can't humans see him?

The answer is hidden in the secret behind the verse: *"...We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

That is, here is the view of the human eye is very limited. Where the human eye can only see light in the electromagnetic spectrum region between 430 and 740 nanometers. If there are light rays in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum region above 740 nanometers, then human vision cannot see the light.

So if there is light outside the electromagnetic spectrum between 430 and 740 nanometers, then that light is unseen.

Likewise with *"...My spirit...(Shaad: 38:72)* which is in the human body and in the universe and all its contents, is unseen, because *"...My spirit...(Shaad: 38:72)* is in the electromagnetic spectrum below 430 nanometers and above 740 nanometers.

Now the secret that is hidden behind the verse has been revealed: *"... if My servants ask you about Me, then, that I am near... (Al Baqarah: 2: 186)*

That is, because the sight of the human eye is limited, then *"... my spirit... (Shaad: 38: 72)* which is in the human body and is *"...closer to it than the jugular vein." (Qaf: 50:16)* is not visible, even though Allah is in the human body through *"...my spirit...(Shaad: 38:72)*

So, when humans say: **"I am praying in front of Allah"** means that humans must understand and realize that in him there is *"... My spirit... (Shaad: 38: 72)* and through *"... my spirit... (Shaad: 38: 72)* Allah is tangible and exists.

CONCLUSION

From what has been explained above, it can now be concluded that the secret behind the verse: *"...if My servants ask you about Me, then, indeed, I am near...(Al Baqarah: 2:186)*

Apparently, here Allah has explained to humans through the symbol *"...that I am near... (Al Baqarah: 2: 186)*

Well, *"...near...(Al Baqarah: 2: 186)* according to Allah, evidenced in the form *"...I breathed into him my spirit...(Shaad: 38: 72)*

By going through *"...my spirit...(Shaad: 38:72)* which is within man, and which is throughout the universe and all its contents, man must understand and realize that Allah *"...is near... (Al Baqarah: 2:186)*

That is, wherever humans look, whether they look into themselves or wherever their eyes are

directed, there is Allah.

So, actually the form of Allah appears and is seen through "*... My spirit... (Shaad: 38: 72)*"

Where "*...my spirit...(Shaad : 38:72)*" is the way to see, meet and talk to Allah.

Now, if people say: "**I worship Allah and am praying before Allah**"

Apparently, what is said by humans is only limited to the mouth.

Why does the man say: "**I am praying in front of Allah**" only in the mouth?

The answer is

Because humans do not "*...think about the creation of the heavens and the earth...(Ali 'Imran: 3: 191)*"

What is the relationship between Allah's being and where Allah is with "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)?*"

The answer is

Hidden in the secret behind the verse: "*...He willed the skys, then He made seven skys...(Al Baqarah: 2: 29)*"

Well, it turns out that when Allah wills or desires the sky, it is made "*...seven skys... (Al Baqarah: 2: 29)*"

This is proof that because the universe and everything in it, including humans, exists and is visible to the human eye, then Allah exists. Allah is everywhere through "*...my spirit...(Shaad : 38:72)*"

So, when humans say: "**I am praying in front of Allah**" means that humans must understand and realize that in him there is "*... My spirit... (Shaad: 38: 72)*" and through "*... my spirit... (Shaad: 38: 72)*" Allah is tangible and exists.

Now the question arises,

If Allah exists and exists, why can't humans see him?

The answer is hidden in the secret behind the verse: "*...We made a wall before them and behind them a wall, and We covered them so that they could not see.*" (Yaasiin: 36:9)

That is, here is the view of the human eye is very limited. Where the human eye can only see light in the electromagnetic spectrum region between 430 and 740 nanometers. If there are light rays in the electromagnetic spectrum area below 430 nanometers and light in the electromagnetic spectrum region above 740 nanometers, then human vision cannot see the light.

Now the secret that is hidden behind the verse has been revealed: "*... if My servants ask you about*"

Me, then, that I am near... (Al Baqarah: 2: 186)

That is, because the sight of the human eye is limited, then "... *my spirit...* (*Shaad: 38: 72*) which is in the human body and is "...*closer to it than the jugular vein.*" (*Qaf: 50:16*) is not visible, even though Allah is in the human body through "...*my spirit...*(*Shaad: 38:72*)

So, when humans say: "*I am praying in front of Allah*" means that humans must understand and realize that in him there is "... *My spirit...* (*Shaad: 38: 72*) and through "... *my spirit...* (*Shaad: 38: 72*) Allah is tangible and exists.
