ABSTRACT

Before the author writes down the problem, most people still don't understand, Allah's form can be as big as seven skys and can be as small as Allah's particles which are almost zero, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about most people still don't understand, Allah's form can be as big as seven skys and can be as small as Allah's particles which are almost zero, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret unlocking about most people still don't understand, Allah's form can be as big as seven skys and can be as small as Allah's particles which are almost zero, namely the following verses:

"Allah... the light of the skys and the earth... the light upon the light... (An Nuur: 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "The one who teaches by means of kalam (Al 'Alaq: 96: 4)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"And verily We have created man from an essence of clay. (Al Mu'minuun: 23:12)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"And if We made the apostle an angel, We would certainly have made him a man and, of course, We would have doubted about them what they doubted about themselves." (Al An'aam: 6:9)

"And it is not possible for any human being that Allah can speak with him except by means of revelation or behind a veil or by sending a messenger and then it is revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Ash Shuura: 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the supplication of those who pray when he asks Me, then let them fulfill (all My commands) and let them believe in Me.

Me, that they may always be in the truth.(Al Baqarah: 2:186)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"And when We said to the angels: "Prostrate to Adam," then they bow down except Satan; he is reluctant and arrogant and is one of the disbelievers. (Al Baqarah: 2:34)

"He arranges affairs from the skys to the earth, then they ascend to Him in one day whose measure is a thousand years according to your reckoning (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years." (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Verily Allah is All-Wise, All-Knowing. (Al Baqarah: 2:115)

"Angels and spirits descend with the permission of their Lord to manage all affairs (Al Qadr: 97: 4)

And We said: "O Adam, dwell in this paradise for you and your wife, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be of the wrongdoers." Baqarah : 2:35)

"Then both of them were derailed by the devil from heaven and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a dwelling place on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)

"The paradise of 'Adn which they enter together with the righteous from their fathers, wives and offspring, while the angels enter their places from all doors; (Ar Ra'd: 13:23)

"And each one came, with him an angel of accompaniment and an angel of witness. (Qaaf: 50: 21)

"O you who believe, protect yourselves and your families from a hell fire whose fuel is humans and stones; its guardians are angels who are harsh, harsh, and do not disobey Allah in what He commands them and always do what He is commanded. (At Tahrir: 66:6)

"And if We had willed, We would have given every soul guidance, but my word has remained: "Indeed, I will fill the Hell with jinn and humans together." (As Sajdah: 32:13)

"And give good tidings to those who believe and do good, that for them there are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)

"And they ask you about the spirit. Say: "The spirit belongs to my Lord, and knowledge is not given to you but a little." (Al Israa ': 17: 85)

"And when Moses came for an appointed time and the Lord had spoken to him, Moses said, "My Lord, show me that I may see You." The Lord said: "You will never be able to see Me, but look at the hill, then if it stays where it is you will surely see me." When his Lord appeared to the mountain, he made the mountain crumble and Moses fell unconscious. So when Moses regained

consciousness, he said: "Glory be to him. You, I repent to You and I am the first to believe." (Al A'raaf: 7:143)

"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

In an effort to open the veil of Allah's secret about most people still don't understand, Allah's form can be as big as seven skys and can be as small as Allah's particles which are almost zero, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here the author proposes the hypothesis that Allah's form can be as big as seven skys and can be as small as Allah's particles which are almost zero, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. A 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

MOST OF HUMANS STILL DON'T UNDERSTAND, ALLAH CAN BE AS LARGE AS SEVEN SKYS AND CAN BE AS SMALL AS ALLAH'S PARTICLES THAT ARE ALMOST ZERO, THAT'S THE REAL ALLAH

Now, we are still focusing our minds on uncovering the secrets contained behind the verses: *"...do not look at God's creation... which is not balanced...(Al Mulk: 67: 3) "...wherever you are facing there the face of Allah ... (Al Baqarah: 2: 115) "Who has created the seven skys in layers ... (Al Mulk: 67: 3)"... I*

breathed into him my spirit... (Shaad: 38:72)"...I am near...(Al Baqarah: 2: 186)"...a day whose content is fifty thousand years (Al Ma'aarij: 70:4)

It turns out that Allah has declared *"Who has created the seven skys in layers... (Al Mulk: 67: 3)"... I breathed into him my spirit... (Shaad: 38: 72)"... a day whose levels are fifty thousand years (Al Ma'aarij: 70:4)"...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115)*

From what was declared by Allah revealed the secret which is the real secret of Allah, namely the form of Allah is as big as *"... the seven skys... (Al Mulk: 67: 3)* and as small as Allah's particle which is almost zero *"... wherever you turn, there is the face of Allah... (Al Baqarah: 2:115)*

So, why can Allah's form be as big as *"...seven skys...(Al Mulk: 67: 3)?*

The answer is hidden in the secret behind the verse: *"... I breathed into him my spirit... (Shaad: 38: 72)*

Well, it turns out that *"...my spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38:72)* is the building of *"...seven skys...(Al Mulk : 67: 3)* Or in other words, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which are the building blocks of *"... the seven skys... (Al Mulk: 67: 3)*

So, actually Allah the Greatest is referring *"...my spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38:72)* which is the building of *".. seven skys ... (Al Mulk: 67: 3).*

Then, the form of Allah can be as small as a particle of Allah which is almost zero *"... wherever you face there is the face of Allah... (Al Baqarah: 2: 115)*

Why is Allah's being as small as Allah's particles so tiny they are almost non-existent, **0.000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams ?

Because Allah's energy is also very small. **0.000000000 000000000 000000000 01** grams per cubic cm.

However, this God particle has the speed of light **5475103664604.84** km per second

So, with the speed of light of Allah's particles, Allah can be everywhere *"... wherever you face there is Allah's face... (Al Baqarah: 2: 115)*

So, now the secret has been revealed about the true form of Allah, where the form of Allah can be as big as *"... the seven skys... (Al Mulk: 67: 3)* and as small as Allah's particle which is almost zero *"...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115)*

Now the question arises,

Why is Allah's form as big as *"... the seven skys... (Al Mulk: 67: 3)* and as small as Allah's particle which is almost zero?

Well, the answer is in the secret behind the verse: *"... not looking at God's creation... which is not balanced... (Al Mulk: 67: 3)*

That is, in the form of Allah, the law applies *"... in balance... (Al Mulk: 67: 3)* between the eternal form of Allah and the impermanent form of God. Where the eternal form of Allah is Allah's energy and Allah's particles. Meanwhile, Allah's impermanent form is *"...my spirit...(Shaad: 38:72)* or *"...Allah's spirit...(Shaad: 38:72)*

Well, based on the law *"... balanced... (Al Mulk: 67: 3)* between the eternal form of Allah and the

impermanent form of Allah, then the form of Allah can be as big as "... *the seven skys...*(*Al Mulk : 67: 3*) which was built by "...*my spirit...*(*Shaad: 38:72*) or "...*Allah's spirit...*(*Shaad: 38:72*) or what is called the form of Allah who does not eternal and the form of Allah can be as small as the particle of Allah which is almost zero and the energy of Allah is very small or what is called the eternal form of Allah.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "...*do not look at God's creation... which is not balanced...*(*Al Mulk: 67: 3*) "...*wherever you are facing there the face of Allah ...* (*Al Baqarah: 2: 115*) "*Who has created the seven skys in layers ...* (*Al Mulk: 67: 3*)"... *I breathed into him my spirit...* (*Shaad: 38:72*)"...*I am near...*(*Al Baqarah: 2: 186*)"...*a day whose content is fifty thousand years* (*Al Ma'aarij: 70:4*)

It turns out that Allah has declared "*Who has created the seven skys in layers...* (*Al Mulk: 67: 3*)"... *I breathed into him my spirit...* (*Shaad: 38: 72*)"... *a day whose levels are fifty thousand years* (*Al Ma'aarij: 70:4*)"...*wherever you turn there is the face of Allah...*(*Al Baqarah: 2: 115*)

From what was declared by Allah revealed the secret which is the real secret of Allah, namely the form of Allah is as big as "... *the seven skys...* (*Al Mulk: 67: 3*) and as small as Allah's particle which is almost zero "... *wherever you turn, there is the face of Allah...* (*Al Baqarah: 2:115*)

So, why can Allah's form be as big as "...*seven skys...*(*Al Mulk: 67: 3*)?

The answer is hidden in the secret behind the verse: "... *I breathed into him my spirit...* (*Shaad: 38: 72*)

Well, it turns out that "...*my spirit...*(*Shaad: 38:72*) or "...*Allah's spirit...*(*Shaad: 38:72*) is the building of "...*seven skys...*(*Al Mulk : 67: 3*) Or in other words, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which are the building blocks of "... *the seven skys...* (*Al Mulk: 67: 3*)

So, actually Allah the Greatest is referring "...*my spirit...*(*Shaad: 38:72*) or "...*Allah's spirit...*(*Shaad: 38:72*) which is the building of "... *seven skys ...* (*Al Mulk: 67: 3*).

Then, the form of Allah can be as small as a particle of Allah which is almost zero "... wherever you face there is the face of Allah... (*Al Baqarah: 2: 115*)

Why is Allah's being as small as Allah's particles so tiny they are almost non-existent, **0.000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams ?

Because Allah's energy is also very small. **0.000000000 000000000 000000000 01** grams per cubic cm.

However, this God particle has the speed of light **5475103664604.84** km per second

So, with the speed of light of Allah's particles, Allah can be everywhere "... *wherever you face there is Allah's face...* (*Al Baqarah: 2: 115*)

So, now the secret has been revealed about the true form of Allah, where the form of Allah can be as big as "... *the seven skys...* (*Al Mulk: 67: 3*) and as small as Allah's particle which is almost zero "...*wherever you turn there is the face of Allah...*(*Al Baqarah: 2: 115*)

Now the question arises,

Why is Allah's form as big as "... *the seven skys...* (*Al Mulk: 67: 3*) and as small as Allah's particle

which is almost zero?

Well, the answer is in the secret behind the verse: "*... not looking at God's creation... which is not balanced... (Al Mulk: 67: 3)*"

That is, in the form of Allah, the law applies "*... in balance... (Al Mulk: 67: 3)*" between the eternal form of Allah and the impermanent form of God. Where the eternal form of Allah is Allah's energy and Allah's particles. Meanwhile, Allah's impermanent form is "*...my spirit...(Shaad: 38:72)*" or "*...Allah's spirit...(Shaad: 38:72)*"

Well, based on the law "*... balanced... (Al Mulk: 67: 3)*" between the eternal form of Allah and the impermanent form of Allah, then the form of Allah can be as big as "*... the seven skys...(Al Mulk : 67: 3)*" which was built by "*...my spirit...(Shaad: 38:72)*" or "*...Allah's spirit...(Shaad: 38:72)*" or what is called the form of Allah who does not eternal and the form of Allah can be as small as the particle of Allah which is almost zero and the energy of Allah is very small or what is called the eternal form of Allah.
