## ABSTRACT

Before the author writes about music = sound = Allah's spirit, most of the Muslims in the world do not understand, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about music = sound = Allah's spirit, most of the Muslims in the world do not understand, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about music = sound = Allah's spirit, most of the Muslims in the world do not understand, namely the following verses:

*"So when I have perfected of Adam and breathed into Adam My spirit, then you will fall down and prostrate yourself to Adam (Shaad: 38: 72).*

*"And Mary bint Imran who maintained her honor, then We breathed into Mary's womb Our spirit, and she confirmed the words of her God and His Books, and she is included those who obey. (At Tahrir: 66: 12).*

*"And indeed We have brought the Book to Moses, and We have followed him after that with the apostles, and We have given proofs of the truth to Jesus son of Mary and We strengthened him with the holy spirit. Is it that every time a messenger comes to you with something that is not according to your wishes, then you boast, then some people you lie to, and some people you kill? (Al Baqarah: 2: 87).*

In an effort to uncover the secret of Allah about music = sound = Allah's spirit, most of the Muslims in the world do not understand, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes hypothesis music = sound = Allah's spirit, most of the Muslims in the world do not understand, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photon is an elementary particle of the boson type and a carrier of electromagnetic interaction.

## QUARK

If we want to know quarks, then we look at one of the hydrogen atoms which is an element of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Furthermore, if this proton is split, then we will find two upper quarks and one lower quark. Where these three quarks are combined with gluons.

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. These nucleotides consist of folate, 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans consist of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## MUSIC = SOUND = ALLAH'S SPIRIT, MOST OF THE MUSLIMS IN THE WORLD DON'T UNDERSTAND

Now, we are still continuing to focus our minds to uncover the secrets contained behind the verses: *"...I breathed into Adam My spirit...(Shaad: 38: 72)" ...We breathed into Mary's womb Our spirit ...(At Tahrir: 66: 12).*

Well, here, Allah, declares *"...I breathed into Adam My spirit...(Shaad: 38: 72)" ...We breathed into Mary's womb Our spirit ...(At Tahrir: 66: 12).*

Well, from this declaration of Allah, it is found *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...our spirit... (At Tahrir: 66: 12) or "...holy spirit... (Al Baqarah: 2: 87).*

Well, it turns out, *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...our spirit... (At Tahrir: 66: 12) or "...holy spirit... (Al Baqarah: 2: 87) "...was breathed into Adam My spirit...(Shaad: 38: 72) and "...was breathed into womb of Mary...(At Tahrir: 66: 12).*

Now, the question arises,

Why is music = sound = spirit of Allah?

The answer is, because *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...our spirit... (At Tahrir: 66: 12) or "...holy spirit... (Al Baqarah: 2: 87) is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, which are needed by anyone and by anything that exists in the universe, including by humans and animals, and by living and inanimate objects.*

Then, another question arises,

How *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...our spirit... (At Tahrir: 66: 12) or "...holy spirit... (Al Baqarah: 2: 87) makes a sound?*

The answer is, because when, for example, a loudspeaker moves a thin membrane, then *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...our spirit... (At Tahrir: 66: 12) or "...holy spirit... (Al Baqarah: 2: 87) which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, when the thin membrane moving forward, hydrogen atoms and oxygen atoms are*

compressed and when the thin membrane moves backward, thinning occurs. The movement of the thin membrane forms sound waves. The stronger the vibration, the louder the sound.

Well, it turns out that what makes the sound is because of the movement of "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which cause sound vibrations or form sound waves.

So, actually, music that is formed with sound is "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*".

Now this is what is not understood by almost all Muslims in the world.

Well, because almost all Muslims in the world do not understand music = sound = spirit of Allah, then it is considered that music or sound or spirit of Allah is forbidden in Islam.

Now, let all Muslims in the world learn "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" so that wrong thoughts do not arise.

## CONCLUSION

Based on the explanation above, we can conclude that the secrets contained behind the verses: "*...I breathed into Adam My spirit...(Shaad: 38: 72)*" "*...We breathed into Mary's womb Our spirit ... (At Tahrir: 66: 12)*".

Well, here, Allah, declares "*...I breathed into Adam My spirit...(Shaad: 38: 72)*" "*...We breathed into Mary's womb Our spirit ... (At Tahrir: 66: 12)*".

Well, from this declaration of Allah, it is found "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*".

Well, it turns out, "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" "*...was breathed into Adam My spirit...(Shaad: 38: 72)*" and "*...was breathed into womb of Mary...(At Tahrir: 66: 12)*".

Now, the question arises,

Why is music = sound = spirit of Allah?

The answer is, because "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, which are needed by anyone and by anything that exists in the universe, including by humans and animals, and by living and inanimate objects.

Then, another question arises,

How "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" makes a sound?

The answer is, because when, for example, a loudspeaker moves a thin membrane, then "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" which is built with hydrogen atoms, carbon atoms, nitrogen atoms,

oxygen atoms, when the thin membrane moving forward, hydrogen atoms and oxygen atoms are compressed and when the thin membrane moves backward, thinning occurs. The movement of the thin membrane forms sound waves. The stronger the vibration, the louder the sound.

Well, it turns out that what makes the sound is because of the movement of "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms which cause sound vibrations or form sound waves.

So, actually, music that is formed with sound is "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*".

Now this is what is not understood by almost all Muslims in the world.

Well, because almost all Muslims in the world do not understand music = sound = spirit of Allah, then it is considered that music or sound or spirit of Allah is forbidden in Islam.

Now, let all Muslims in the world learn "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...our spirit... (At Tahrir: 66: 12)*" or "*...holy spirit...(Al Baqarah: 2: 87)*" so that wrong thoughts do not arise.
