ABSTRACT

Before the author writes about Muslims in the world, still believe, humans who live in paradise, have bodies, like the bodies when they still lived in the world, actually, humans in paradise, in the form of Allah's spirit, which are in the form of atomic molecules, the author first apologizes to Allah SWT. Here the author tries to open the veil that covers the secrets about Muslims in the world, still believe, humans who live in paradise, have bodies, like the bodies when they still lived in the world, actually, humans in paradise, in the form of Allah's spirit, which are in the form of atomic molecules, based on Deoxyribonucleic acid (DNA)

There are several verses that are Allah's means of revealing secrets about Muslims in the world, still believe, humans who live in paradise, have bodies, like the bodies when they still lived in the world, actually, humans in paradise, in the form of Allah's spirit, which are in the form of atomic molecules, namely the following verses:

"So when I have perfected the body and I have breathed on him my spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)

"And Maryam who has preserved her honor, then We breathed into her womb a spirit from Us and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)

"So Maryam made a veil over them; then We sent Our Spirit to her, so Our Spirit incarnated before her the perfect human. (Maryam: 19: 17)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"And there are nymphs with jelly eyes, (Al Waaqi'ah: 56: 22)

"Verily We created nymphs directly (Al Waaqi'ah: 56: 35)

"And the hosts of paradise cry out to the dwellers of hell: "Surely we have received what our God promised us. So have you actually received what your God promised?" They said: "Yes." Then a caller announced between the two groups: "The curse of Allah is upon those who are unjust, (Al A'raaf: 7: 7: 44)

"In paradise there are many fruits for you, some of which you eat. (Az Zukhruf: 43: 73)

"Indeed, those who believe and do righteous deeds, they are guided by their God because of their faith, beneath them flow rivers in paradise full of pleasure. (Yunus: 10: 9)

"And if you look there, surely you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20)

In an effort to open the veil of Allah's secret about Muslims in the world, still believe, humans who

live in paradise, have bodies, like the bodies when they still lived in the world, actually, humans in paradise, in the form of Allah's spirit, which are in the form of atomic molecules, the author uses the basis deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis of Muslims in the world, still believe, humans who live in paradise, have bodies, like the bodies when they still lived in the world, actually, humans in paradise, in the form of Allah's spirit, which are in the form of atomic molecules, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

MUSLIMS IN THE WORLD, STILL BELIEVE, HUMANS WHO LIVE IN PARADISE, HAVE BODIES, LIKE BODIES WHEN THEY STILL LIVED IN THE WORLD, ACTUALLY, HUMANS IN PARADISE, IN THE FORM OF ALLAH'S SPIRIT, WHICH ARE IN THE FORM OF ATOMIC MOLECULES

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...beneath them flow rivers in paradise full of pleasure.(Yunus: 10: 9)"...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20)"In paradise there are many fruits for you...(Az Zukhruf: 43: 73)"...there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22)"...We We created nymphs directly (Al Waaqi'ah : 56: 35)"...I breathed on human my spirit...(Shaad : 38: 72)*

Here, Allah or Jahve or Adonai, has revealed the real secret about the situation in paradise, "***... there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22) "...We We created nymphs directly (Al Waaqi'ah : 56: 35) "...I breathed on human my spirit...(Shaad : 38: 72)***

Well, there are 2 important factors that were revealed by Allah or Jahve or Adonai, about the situation in paradise.

Factor 1, is "***...nymphs (who were created) directly (Al Waaqi'ah: 56: 35)***

Factor 2, is "***...I breathed on human my spirit...(Shaad : 38: 72)***

So, from these 2 factors, the secrets of paradise were uncovered, that is, in fact, life in paradise is the life of "***...my spirit...(Shaad : 38: 72)*** or "***...the spirit of Allah...(Shaad : 38 : 72)*** or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

...nymphs (who were created) directly (Al Waaqi'ah: 56: 35) are in the form of "***...my spirit...(Shaad : 38: 72)*** or "***...the spirit of Allah...(Shaad : 38 : 72)*** or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

So, actually, "***...nymphs (who were created) directly (Al Waaqi'ah: 56: 35)*** are in the form of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

Now the question arises,

Why does Allah or Jahve or Adonai declare "***...beneath them flow rivers in paradise full of pleasure. (Yunus: 10: 9) "...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20) "In paradise there are many fruits for you...(Az Zukhruf: 43: 73) ?***

Well, the answer is in the secret behind the verses: "***...We breathed into her womb a spirit from Us...(Al Anbiyaa': 21: 91) "...I breathed on human my spirit...(Shaad : 38: 72)***

So, because humans who are still alive in the world, have urges, desires and passions to seek pleasure and enjoyment, and human bodies that are still alive in the world, are built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of blood, flesh and bones, then Allah or Jahve or Adonai gives a picture of paradise which is like the situation in the world now, "***... there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22) "In paradise there are many fruits for you...(Az Zukhruf: 43: 73) "...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20) "... in paradise full of pleasure (Yunus: 10: 9)***

Well, those are all images that exist and enter the minds of humans who still have bodies in a world built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of blood, flesh and bones.

The true state of paradise, "***...We breathed into her womb a spirit from Us...(Al Anbiyaa': 21: 91) "...I breathed on human my spirit...(Shaad : 38: 72)*** and "***...nymphs (who were created) directly (Al Waaqi'ah: 56: 35)*** are a picture of the state of "***...my spirit...(Shaad : 38: 72)*** or "***...the spirit of Allah...(Shaad : 38 : 72)*** or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

So what lives in paradise are hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms in the form "***...my spirit...(Shaad : 38: 72)*** or "***...the spirit of Allah...(Shaad : 38 : 72)*** or the spirit of Jahve

or the spirit of Adonai and *"...nymphs...(Al Waaqi'ah : 56: 35)*

If Muslims in the world still believe that humans who live in paradise have a body, like a body when they were alive on earth, then that belief is not true. The truth is humans in paradise, in the form of Allah's spirit, which is atomic molecules

CONCLUSION

From what has been explained above, it can be concluded that the secrets contained behind the verses: *"...beneath them flow rivers in paradise full of pleasure.(Yunus: 10: 9)"...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20)"In paradise there are many fruits for you...(Az Zukhruf: 43: 73)"... there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22)"...We We created nymphs directly (Al Waaqi'ah : 56: 35)"...I breathed on human my spirit...(Shaad : 38: 72)*

Here, Allah or Jahve or Adonai, has revealed the real secret about the situation in paradise, *"... there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22)"...We We created nymphs directly (Al Waaqi'ah : 56: 35)"...I breathed on human my spirit...(Shaad : 38: 72)*

Well, there are 2 important factors that were revealed by Allah or Jahve or Adonai, about the situation in paradise.

Factor 1, is *"...nymphs (who were created) directly (Al Waaqi'ah: 56: 35)*

Factor 2, is *"...I breathed on human my spirit...(Shaad : 38: 72)*

So, from these 2 factors, the secrets of paradise were uncovered, that is, in fact, life in paradise is the life of *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38 : 72)* or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

"...nymphs (who were created) directly (Al Waaqi'ah: 56: 35) are in the form of *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38 : 72)* or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

So, actually, *"...nymphs (who were created) directly (Al Waaqi'ah: 56: 35)* are in the form of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

Now the question arises,

Why does Allah or Jahve or Adonai declare *"...beneath them flow rivers in paradise full of pleasure. (Yunus: 10: 9)"...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20)"In paradise there are many fruits for you...(Az Zukhruf: 43: 73) ?*

Well, the answer is in the secret behind the verses: *"...We breathed into her womb a spirit from Us...(Al Anbiyaa': 21: 91)"...I breathed on human my spirit...(Shaad : 38: 72)*

So, because humans who are still alive in the world, have urges, desires and passions to seek pleasure and enjoyment, and human bodies that are still alive in the world, are built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of blood, flesh and bones, then Allah or Jahve or Adonai gives a picture of paradise which is like the situation in the world now, *"... there are nymphs with jelly eyes (Al Waaqi'ah: 56: 22)"In paradise there are many fruits for you...(Az Zukhruf: 43: 73)"...you will see various kinds of pleasures and great kingdoms. (Al Insaan: 76: 20)"... in paradise full of pleasure (Yunus: 10: 9)*

Well, those are all images that exist and enter the minds of humans who still have bodies in a world built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms in the form of blood, flesh and bones.

The true state of paradise, "...*We breathed into her womb a spirit from Us...(Al Anbiyaa': 21: 91)*"...*I breathed on human my spirit...(Shaad : 38: 72)* and "...*nymphs (who were created) directly (Al Waaqi'ah: 56: 35)*) are a picture of the state of "...*my spirit...(Shaad : 38: 72)* or "...*the spirit of Allah...(Shaad : 38 : 72)* or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms.

So what lives in paradise are hydrogen atoms, carbon atoms or nitrogen atoms and oxygen atoms in the form "...*my spirit...(Shaad : 38: 72)* or "...*the spirit of Allah...(Shaad : 38 : 72)* or the spirit of Jahve or the spirit of Adonai and "...*nymphs...(Al Waaqi'ah : 56: 35)*

If Muslims in the world still believe that humans who live in paradise have a body, like a body when they were alive on earth, then that belief is not true. The truth is humans in paradise, in the form of Allah's spirit, which is atomic molecules
