## ABSTRACT

First of all, by asking forgiveness from Allah SWT here I am trying to reveal the signs of Allah SWT on what basis, Allah said, the Day of Resurrection is near, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

In the Qur'an, several verses are found which are the key to unlocking the secret on what basis, Allah says, the Day of Resurrection is near, namely the verses:

*"The angels and Gabriel ascended to God in a day the measure of which is fifty thousand years. (Al Ma'aarij: 70: 4)*

*"And they do not glorify Allah with proper exaltation, even though the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He from what they associate. (Az Zumar: 39: 67)*

*"It is Allah who sent down the book with truth and balance. And do you know that the Day of Resurrection may be near? (Ash Shuura: 42:17)*

*"People ask you about the day of resurrection. Say: "Indeed, the knowledge of the day of resurrection is only with Allah."*

*"When the sun is rolled up, (At Takwiir: 81:1)*

*"And when the stars fall, (At Takwiir: 81: 2)*

*"The Day of Resurrection is near. (An Najm: 53: 57)*

*"Indeed, the Day of Resurrection is coming, I keep it a secret so that each person will be rewarded with what he has earned (Thaahaa: 20:15)*

*"And to Allah belongs all that is hidden in the heavens and in the earth. There is no such thing as the Hour, but like the twinkling of an eye or sooner. Verily, Allah has power over all things. (An Nahl: 16: 77)*

In trying to unmask on what basis, Allah said, the Day of Judgment is near, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

## HYPOTHESIS

Here I put forward the hypothesis of Allah saying, the Day of Judgment is near based on calculations according to Allah, 1 day is equal to 50 000 years according to human calculations, from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide

polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **ALLAH SAYS IT MAY BE THE END OF DAY IS NEAR, WHEN THE SUN IS ROLLED**

Now, we continue to try to focus our minds in order to reveal the secret hidden in the verse: *"It is Allah who sent down the book with truth and balance. And do you know, maybe the Day of Resurrection is near? (Asy Shuura: 42:17)*

Apparently, according to Allah's reckoning, the Day of Judgment is near.

So, now the question arises,

How many more years, the Day of Judgment will occur?

The answer is

Hidden in the secret behind the verse: *"When the sun is rolled up, (At Takwiir: 81: 1)*

When *"...the sun is rolled up, (At Takwiir: 81:1)*

When does the sun roll?

The answer is

According to human calculations and research on earth, the age of the sun is only 2 500 000 000 years from now. Well, the age of the sun according to human calculations.

## **1 DAY ACCORDING TO GOD IS EQUAL TO 50 000 YEARS ACCORDING TO HUMAN CALCULATIONS**

Now, according to Allah's reckoning,

How long will it take for the sun to roll?

The answer is

It is hidden in the secret that is in the verse: **"...a day whose levels are fifty thousand years. (Al Ma'aarij: 70:4)**

So, according to Allah's reckoning, one day of Allah's time is equal to 50 000 human years.

Now, how many more years will the sun, according to Allah's reckoning, be before the hydrogen and helium atoms are exhausted?

Apparently, the age of the sun according to Allah's calculation is, 1 year according to Allah's calculation is equal to 18 250 000 years according to human calculations.

Or in other words, the age of the sun when it was rolled up by Allah was 136.98 years or equal to 137 years.

So, it is near the end of the world, according to Allah's reckoning, which is only 137 years from which the sun will be rolled up by Allah.

Now, the secret hidden behind the verse has been revealed: **"People ask you about the day of resurrection. Say: "Indeed, the knowledge of the day of resurrection is only with Allah." :33:63)**

That is, in fact, the age of the sun until it was rolled up by Allah was 137 years according to Allah's reckoning.

So, it is near the time of the Day of Judgment, according to Allah. But according to humans 2 500 000 000 years from now.

## CONCLUSION

Based on the description above, we can conclude that the secret hidden in the verse: **"It is Allah who sent down the book with truth and balance. And do you know, maybe the Day of Resurrection is near? (Asy Shuura: 42:17)**

Apparently, according to Allah's reckoning, the Day of Judgment is near.

So, now the question arises,

How many more years, the Day of Judgment will occur?

The answer is

Hidden in the secret behind the verse: **"When the sun is rolled up, (At Takwiir: 81: 1)**

When **"...the sun is rolled up, (At Takwiir: 81:1)**

When does the sun roll?

The answer is

According to human calculations and research on earth, the age of the sun is only 2 500 000 000

years from now. Well, the age of the sun according to human calculations.

Now, according to Allah's reckoning,

How long will it take for the sun to roll?

The answer is

It is hidden in the secret that is in the verse: *"...a day whose levels are fifty thousand years. (Al Ma'arij: 70:4)*

So, according to Allah's reckoning, one day of Allah's time is equal to 50 000 human years.

Now, how many more years will the sun, according to Allah's reckoning, be before the hydrogen and helium atoms are exhausted?

Apparently, the age of the sun according to Allah's calculation is, 1 year according to Allah's calculation is equal to 18 250 000 years according to human calculations.

Or in other words, the age of the sun when it was rolled up by Allah was 136.98 years or equal to 137 years.

So, it is near the end of the world, according to Allah's reckoning, which is only 137 years from which the sun will be rolled up by Allah.

Now, the secret hidden behind the verse has been revealed: *"People ask you about the day of resurrection. Say: "Indeed, the knowledge of the day of resurrection is only with Allah." :33:63)*

That is, in fact, the age of the sun until it was rolled up by Allah was 137 years according to Allah's reckoning.

So, it is near the time of the Day of Judgment, according to Allah. But according to humans 2 500 000 000 years from now.
