DASAR PEMIKIRAN

First, by asking Allah's forgiveness, here I am trying to reveal the signs of Allah's greatness regarding the secret of, on what basis, Allah will create seven new skys, after the seven skys that are now dead and disappear, seen from the point of photons, quarks and structures. molecular nucleic acid or deoxyribonucleic acid (DNA)

Signs of Allah's greatness regarding, on what basis, Allah will create seven new skys, after the seven skys that are now dead and disappear, are found in several verses, namely:

"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)

"He is Allah, Who created all that is on earth for you and He willed the skys, then He made the seven skys. And He is All-Knowing of all things. (Al Baqarah: 2:29)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"The angels and the spirit (Gabriel) ascend to God in a day whose levels are fifty thousand years Al Ma'aarij (70:4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)

"He is the First and the Last, the Outward and the Inward; and He is All-Knowing of all things. (Al Hadid: 57:3)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And they do not glorify Allah with proper exaltation when the whole earth is in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and exalted is He above what they associate. (Az Zumar: 39: 67) Indeed, the Day of Judgment will surely come, there is no doubt about it, but most people do not believe (Al Mu'min: 40: 59)

In an effort to open the veil of the greatness of Allah SWT regarding, on what basis, Allah will create seven new skys, after the seven skys that are now dead and disappear, I use the basis of photons, quarks and the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

HYPOTHESES

Here I propose a hypothesis, Allah will create seven new skys, after the seven skys that are now dead and disappear, because Allah "*...Eternal life continues to take care of... (Al Baqarah: 2:255)*" seen from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)?

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that are the building blocks of the human body, animals, plants and fruits as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

BECAUSE ALLAH ALIVES ETERNALLY, AFTER THE SEVEN SKYS THAT NOW, DIE AND DISAPPEARED, ALLAH WILL CREATE A NEW SEVEN SKYS

Now, we are still focusing our minds on uncovering the secret behind the verse: "*He is the last one... (Al Hadiid: 57:3)*" "*...Eternal life is continuously taking care of... (Al Baqarah: 2 :255)*"

Now the question arises,

What exactly is meant by "*He is...the Last... (Al Hadiid: 57:3)*" "*...Eternal life and continuous care... (Al Baqarah: 2:255)*" ?

The answer is

Hidden secret behind the verse: "*...His is what is in the skys and the earth...Allah's seat covers the skys and the earth...Allah does not find it difficult to maintain them... (Al Baqarah: 2:255)*"

How, Allah has "*...the skys and the earth... (Al Baqarah: 2:255)*"?

The answer is

Hidden behind the secret of the verse: "*He is Allah, who made all that is on earth for you and He willed the heavens, then He made seven skys... (Al Baqarah: 2: 29)*"

Well, it turns out that Allah made "... *the seven skys...* (*Al Baqarah: 2: 29*) , meaning that the seven skys describe the room, which is called the universe, above which there are billions of galaxies, each galaxy consists of billions of galaxies, billions of stars, planets and moons.

So, before becoming "...*the seven skys...*(*Al Baqarah: 2:29*) as it is today, it started with something invisible, something that became the core, of all that is in this universe.

Now, what is that thing called the core, of this universe?

The answer is

Quark

So, these quarks are the origin of the formation of this universe. Where the universe is filled with atoms. Hydrogen atoms, helium atoms, carbon atoms, oxygen atoms, nitrogen atoms, neon atoms.

Now, the question arises, how are quarks formed?

The answer is

Allah's energy

So, where does Allah's energy come from?

The answer is

Hidden behind the verse: "...*To Him belongs whatever is in the skys and the earth...* (*Al Baqarah: 2:255*)

Here Allah has explained to humans, that allah is "... *the First...* (*Al Hadiid: 57: 3*) "... *Who created the skys and the earth...* (*Al Hadiid: 57: 4*)

Now the question arises,

Because Allah is "... *the First...* (*Al Hadiid: 57: 3*), then have there been seven previous skys, which disappeared, and returned to Allah's energy, then Allah's energy which returned to Allah, was used to create quarks and atoms and the new seven skys as they are today?

The answer is

Well tucked away in the secret behind the verse: "*He is the First... and He is All-Knowing of all things.* (*Al Hadid: 57:3*) "*Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced...* (*Al Mulk: 67: 3*)

Well, here Allah has declared: "...*The First...Knower of all things.* (*Al Hadiid: 57:3*) "...*created the seven skys in layers...balanced...*(*Al Mulk: 67:3*)

So, actually, before Allah created "...*seven layered skys...*(*Al Mulk: 67:3*) now, there are already "...*seven layered skys...*(*Al Mulk: 67 : 3*) before, which had disappeared, all that remained was Allah's energy. Where Allah's energy returns to Allah "... *we belong to Allah and to Him we return* (*Al Baqarah: 2: 156*)

Well, with Allah's energy returning from the previous "...*seven layered skys...*(*Al Mulk: 67:3*) which

disappeared, Allah created, 13 800 000 000 years ago, quarks and atoms later *"...the seven skys in layers...(Al Mulk: 67:3)* which is now.

THE SEVEN SKYS THAT NOW, WILL DIE AND DISAPPEAR AFTER THE AGE OF 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 YEARS FROM NOW

Now, let's unveil the secret behind the verse: *"He is... the Last one...(Al Hadiid: 57:3) "...Eternal life continues to take care of...(Al Baqarah: 2:255)*

Now, it turns out that Allah has explained, Allah *"...The Last...(Al Hadiid: 57:3) "...Eternal life...(Al Baqarah: 2:255)*

That is, if the current seven heavens reach the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years from now, the atoms in the universe will be lost, because of the nuclear force that binds the quarks in the atoms. , is lost.

That is, nuclear energy is lost, because the universe is expanding and expanding, which can no longer be controlled by nuclear power, because nuclear power is getting weaker, finally lost, and quarks are released from inside protons, protons are in every atom.

So what remains are quarks, where these quarks are the nucleus of the atom. This quark is what remains.

Now, after the seven skys with all their contents died and disappeared, the energy of Allah which was the source of life for the seven skys and all of their contents returned to Allah.

Or in other words, the beginning of creation *"... the seven skys... (Al Baqarah: 2: 29)* through quarks, quarks are born from Allah's energy, then atoms are formed, finally the universe. After 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, the universe returns to being a quark, and to Allah's energy *"...Inna lillaahi wa innaa ilaihi raaji'uun (Indeed we belong to Allah and to Him we belong back) (Al Baqarah: 2: 156)*

ALLAH WILL CREATE SEVEN NEW SKYS WITH ALLAH'S ENERGY THAT RETURNS AFTER THE SEVEN SKYS THAT NOW, DIE AND DISAPPEAR

Now, after the seven skys now reach the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, the universe returns to being a quark, and becoming Allah's energy.

Why would Allah create seven new skys after the current seven skys died and disappeared?

The answer is hidden in a secret that is kept behind the verse: Allah *"...Eternal life and continuous care... (Al Baqarah: 2:255) "He is the First...He is All-Knowing of all things. (Al Hadiid: 57: 3) "Who has created the seven skys in layers ... which are ... balanced ... (Al Mulk: 67: 3)*

Well, *"...the seven skys are layered...which are...balanced...(Al Mulk: 67:3)* which means, *"...the seven skys...(Al Mulk: 67:3)* which will be created by Allah is balanced with *"...the seven skys...(Al Mulk: 67:3)* which we now live in.

CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: *"He is the last one...(Al Hadiid: 57:3) "...Eternal life is continuously taking care of...(Al Baqarah: 2 :255)*

Now the question arises,

What exactly is meant by *"He is...the Last...(Al Hadiid: 57:3)"...Eternal life and continuous care...(Al Baqarah: 2:255) ?*

The answer is

Hidden secret behind the verse: *"...His is what is in the skys and the earth...Allah's seat covers the skys and the earth...Allah does not find it difficult to maintain them...(Al Baqarah: 2:255)*

How, Allah has *"...the skys and the earth...(Al Baqarah: 2:255)?*
