ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT on what basis, starting 3500 years ago, only then did humans believe in Allah, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (deoxyribonucleic acid). DNA)

In the Qur'an, several verses are found that are the key to unlocking the secret on what basis, starting 3500 years ago, humans only believed in Allah, namely the verses:

"And thus We showed Abraham the signs of majesty in the heavens and the earth and that he might be one of those who believe. (Al An'aam: 6:75)

"When the night was dark, he saw a star he said: "This is my Lord", but when the star set he said: "I do not like the sinking." (Al An'aam: 6: 76)

"Then when he saw the moon rising he said: "This is my Lord." But after the moon had set, he said: "If my Lord had not guided me, I would have been one of those who went astray." (Al An'aam: 6:77))

"Then when he saw the sun rising, he said: "This is my Lord, this is greater." So when the sun was setting, he said: "O my people, indeed I am free from what you associate with. (Al An'aam: 6: 78)

"The angels and Gabriel ascended to God in a day the measure of which is fifty thousand years. (Al Ma'aarij: 70: 4)

"When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit obediently to the Lord of the worlds." (Al Baqarah: 2:131)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"And when you call to prayer, they make it the fruit of ridicule and play. That is because they really are a people who do not want to use reason. (Al Maa'idah: 5:58)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "Our Lord, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran: 3:191)

"Then both of them were derailed by the devil from heaven and brought out from their original state and We said: "Come down! some of you are enemies to others, and for you there is a dwelling place on earth, and the pleasures of living to an appointed time." (Al Baqarah: 2:36)

In trying to unmask on what basis, starting 3500 years ago, humans only believed in Allah, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose a hypothesis on what basis, humans believe in Allah through instructions to seek Allah, from the point of view of photons, quarks and Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks, then we consider one of the hydrogen atoms which is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

WHAT HUMANS WORSHIP, SINCE ADAM AND HIS WIFE WAS OUT OF PARADISE

Now, we are still focusing our minds on uncovering the secrets that are hidden behind the verse: "*... We say: "Come down! Some of you are enemies to others, and for you there is a dwelling place on earth... (Al Baqarah: 2:36)*

Apparently, Allah has ordered Adam and his wife out of paradise and "*...a place to live on earth... (Al Baqarah: 2: 36)*

The first human Adam is thought to have lived 236,000 years ago. Where the descendants of Adam have a large brain size, flat face, small teeth and stand upright.

Now, the question is,

Why only about 3500 years ago did humans understand that there was only one power over the creation of the universe?

The answer is

Hidden in the secret behind the verse: "*...they...don't...use...mind. (Al Maa'idah: 5: 58)*

To arrive at who has power, in terms of the creation of the universe must go through thinking, "*... people who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth... (Ali 'Imran: 3 : 191)*

Now, almost 230 000 years of the descendants of Adam, since Adam came out of heaven, have not reached the point of thinking about "*...the creation of the skys and the earth... (Ali 'Imran: 3: 191)* even though Adam and his wife were created. by Allah directly in heaven. But the descendants of Adam are not like Adam in terms of thinking about "*...the creation of the skys and the earth... (Ali 'Imran: 3:191)*

So, the descendants of Adam, in terms of thinking about "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)*, for more than 230 000 years it has only come to the level that statues, stones, trees, animals, stars, sun, moon, have powers that are not possessed by humans, so they are worshiped by humans.

Also the descendants of Adam, in terms of thinking about "*...the creation of the skys and the earth... (Ali 'Imran: 3:191)*, for more than 230 000 years, believed that when humans die they must be buried or burned. The reason humans die must be burned, because when stars die, they explode and burn.

Likewise, the descendants of Adam, in terms of thinking about "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)*, for more than 230 000 years, have believed that humans are incarnate. If a human dies, they can turn into another human or become an animal. That is, oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms that come out of a dead human being can be inhaled by other living humans or inhaled by animals.

SIGNS IN THE SKY AND ON EARTH, OPENING THE WAY TOWARDS ALLAH

Now, we continue to unravel the secrets that are hidden behind the verse: "*And thus We showed Abraham the signs of majesty in the skys and the earth and that he might be one of those who believe. (Al An'aam: 6:75)*

Apparently, from 3500 years ago, there was a young man, named Ibrahim, from Ur in Iraq, thinking about "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)*

Where the youth Ibrahim kept thinking, thinking about "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)* "*When the night was dark, he saw a star he said: "This is my Lord", but when the star drowned he said: "I do not like the drowning." (Al An'aam: 6: 76)*

Then, the young Abraham continued to search in the sky about "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)* "*Then when he saw the moon rising he said: "This is my Lord." But after the moon set, he said: "If my Lord had not guided me, I would have been one of those who went astray." (Al An'aam: 6:77)*

Until finally, the youth of Ibrahim found "*...when he saw the sun rising, he said: "This is my Lord, this is greater." So when the sun went down, he said: "O my people, indeed I am free from what you associate. (Al An'aam: 6: 78)*

Apparently, the youth of Ibrahim by using his mind to seek Allah through "*...the creation of the skys and the earth...(Ali 'Imran: 3:191)* came to the conclusion: "*O my people, indeed I am free from what you associate with. (Al An'am : 6: 78)*

This means that what the Abrahamic people worshiped, namely statues, were not able to create "*...sky and earth...(Ali 'Imran: 3:191)*

Finally, the youth of Ibrahim in search of who *"... the creator... of the skys and the earth... (Ali 'Imran: 3: 191) found "... his Lord... (Al Baqarah: 2: 131) "When his Lord said to him: "Submit obediently!" Ibrahim replied: "I submit obediently to the Lord of the worlds." (Al Baqarah: 2:131)*

Now, the secret hidden behind the verse has been revealed: *"And thus We showed Abraham the signs of majesty in the heavens and the earth and that he might be among those who believe. (Al An'aam: 6:75)*

Since 3500 years ago, the young Ibrahim, from Ur in Iraq, thought about *"...the creation of the heavens and the earth...(Ali 'Imran : 3:191) found Allah, "...the creator...the skys and the earth...(Ali 'Imran : 3:191)*

CONCLUSION

Based on the description above, we can conclude that the secrets that are hidden behind the verse: *"... We say: "Come down! Some of you are enemies to others, and for you there is a dwelling place on earth... (Al Baqarah: 2:36)*
