ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT's greatness regarding the Indonesian secular people, who translated the Qur'an into the Nusantara Qur'an, seen from photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret revealer about Indonesian secular people, who translate the Qur'an into the Qur'an Nusantara, namely the following verses:

"And leave those who make their religion a joke and a joke, and they have been deceived by the life of this world. Warn with the Qur'an so that each one of them is not plunged into hell... (Al An'aam : 6:70)

"Not even a new verse of the Qur'an comes to them from their Lord, but they hear it, while they are playing around, (Al Anbiyaa ': 21: 2)

In an effort to open the veil of Allah's secret about Indonesian secular people, who translated the Qur'an into the Qur'an Nusantara, the author uses the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis of Indonesian secular people, who translate the Qur'an into Al Qur'an Nusantara is a person who separates religion from the state, seen from the basic point of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE TRANSLATOR OF THE NUSANTARA QUR'AN IS A SECULAR PERSON WHO DOESN'T WANT TO MAKE ISLAM IN STATE LAW

Now, we continue to focus our minds on uncovering the secret behind the verse: *"And leave those who make their religion a joke and a joke, and they have been deceived by the life of the world...(Al An'aam: 6: 70)*

It turns out that now it has been revealed, where the people who make the interpretation of the Qur'an into the interpretation of the Qur'an of the archipelago are secular Indonesians, who do not want to make Islam a state law.

Where the person is declared by Allah as *"... people who make their religion a joke and a joke... (Al An'aam: 6: 70)*

REPLY FOR PEOPLE WHO PLAY AND JOKE WITH THE QURAN

Now, let's dig deeper into the secret behind the verse: *"And leave those who make their religion a joke and a joke .. (Al An'aam: 6: 70)*

Why should secular people who make jokes about the Qur'an and Islam be left behind?

The answer is

Because *"...they have been deceived by the life of this world...(Al An'aam : 6: 70)* and *"...they are playing games, (Al Anbiyaa' : 21: 2)*

And of course Allah will decide the punishment for secular people who make the Qur'an the Qur'an of the Archipelago is, first we must *"...leave... those who make their religion a joke and fun." joking .. (Al An'aam: 6: 70)* Second, they will be *"...thrown into hell ... (Al An'aam: 6: 70)*

LEAVE AND DON'T NEED TO READ THE AL QUR'AN NUSANTARA

Now, the secret behind the verse has been revealed: *"And leave those who make their religion a joke and a joke, and they have been deceived by the life of the world... (Al An'aam: 6: 70)*

Apparently, Allah has declared: *"... leave those who make their religion a joke and a joke... (Al An'aam: 6: 70)* because they will be *"...fallen into hell... (Al An'aam : 6: 70)*

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"And leave those who make their religion a joke and a joke, and they have been deceived by the life of the world...(Al An'aam: 6: 70)*

It turns out that now it has been revealed, where the people who make the interpretation of the Qur'an into the interpretation of the Qur'an of the archipelago are secular Indonesians, who do not want to make Islam a state law.
