ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of Allah SWT's greatness regarding paradise and hell being around humans buried, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secrets of paradise and hell near where humans are buried, namely the following verses:

"And hasten to forgiveness from your Lord and to Paradise, whose breadth is as wide as the skys and the earth, which is prepared for those who are pious." (Ali 'Imran: 3:133)

"And between the two there is a boundary; and above A'raaf there are people who know each of the two groups by their signs. And they call out to the people of Paradise: "Salaamun 'alaikum." They have not yet entered it, while they want it immediately (Al A'raaf: 7: 46)

"Allah promises the believers, male and female, Paradise under which rivers flow, they will abide therein, there are good places in Paradise 'Adn. And Allah's pleasure is greater; that is great fortune. (At Taubah: 9:72)

"Indeed Allah will admit those who believe and do righteous deeds into Paradises beneath which rivers flow. In Paradise they will be adorned with gold and pearl bracelets, and their clothes will be silk. (Al Hajj) :22:23)

"Glory be to Him who, if He willed, He would have made for you something better than this, gardens beneath which rivers flow, and He made for you palaces. (Al-Furqaan: 25:10)

"And give good tidings to those who believe and do good, that for them are provided gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradises, they say: "This is what was given to them. us first." They are given similar fruits and for them are pure wives and they will abide therein (Al Baqarah: 2:25)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourself (Al Hijr: 15: 29)

"Who has created the seven heavens in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"So when I have perfected the event and I have breathed into it My spirit; then you should fall down prostrating to it." (Shaad : 38:72)

Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf : 7:38)

"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43:70)

"Allah holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul which He has appointed death and He releases another soul until the appointed time. Verily in that are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"And when the spirits are met (At Takwiir: 81: 7)

"And everything they have done is recorded in the books of records (Al Qamar: 54: 52)

"Read your book, it is enough for yourself at this time as a remembrance against you." (Al Israa': 17: 14)

"When two angels record their deeds, one sits on the right and the other sits on the left. (Qaaf: 50:17)

"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)

"Say: "O Allah, Creator of the heavens and the earth, Who knows the unseen and the real, You are the One who decides between Your servants what they always argue about." (Az Zumar : 39: 46)

In an effort to unmask paradise and hell in the vicinity of buried humans, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESES

Here I put forward the hypothesis that heaven and hell are near where humans are buried, because "...heaven is as wide as the heavens and the earth ... (Ali 'Imran: 3: 133), based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid. or the molecular structure of nucleic acids.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT THAT COMES OUT OF THE BODY OF THE DEAD IS NOT FAR AWAY, IS AROUND THE GRAVE

Now we continue to focus our minds on revealing the secrets that are hidden behind the verse:
"...paradise whose breadth is as wide as the skys and the earth... (Ali 'Imran: 3: 133)

Well, it turns out that paradise is actually above a stretch of room or what is called the sky where the earth and other planets are above it. Or in other words, the area of the room or sky above which there is the earth and other planets.

So paradise is above the room as the earth is above it.

Because paradise and earth are both above the expanse of space, it means paradise is on our earth today.

Now, because paradise is on our earth today, humans can know where paradise and hell actually are now.

Because where there is paradise there is hell, so if humans find paradise then in the same place there is hell.

TO FIND PARADISE AND HELL, WE NEED TO FOLLOW WHERE MY SPIRIT GOES

Now, after 30 days of dead humans being buried, then out "*...my spirit...(Shaad: 38:72)*

Where "*...my spirit...(Shaad : 38:72)* which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, gathers in one place not far from the grave.

The hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are not included in this category "*...my spirit...(Shaad : 38:72)* is like a nitrogen atom rising into the atmosphere. Carbon atoms are used as food for glucose for plants. While the oxygen atom is inhaled by humans and animals.

Because in the human body there are 70 000000000 000000000 000000000 atoms. Meanwhile, the building of "*...my spirit...(Shaad: 38:72)* is only a small part of these atoms.

Now, because "*...my spirit...(Shaad: 38:72)* which came out of the body of a dead human who was buried was not far away, waiting for a decision from Allah, after being told to read his book of records of his life from birth to death. .

Now, when Allah commanded "*Read your book, it is enough for yourself at this time as a judgment against you.*" (*Al Israa ' : 17: 14*)

It turns out that the number of "*...deeds...(Qaaf: 50:17)* that is good is 50 000 while the number of "*...deeds...(Qaaf: 50:17)* that is bad is 10 000, then Allah decides for "*...my spirit...(Shaad: 38:72)* "*Enter you into paradise, you and your wives will be delighted*" (*Az Zukhruf: 43: 70*)

Then Allah commanded "*Read your book, it is enough for yourself at this time as a judgment against you.*" (*Al Israa ' : 17: 14*)

It turns out that the number of "*...deeds...(Qaaf: 50:17)* that is good is 10 000 while the number of "*...deeds...(Qaaf: 50:17)* that is bad is 50 000, then Allah ordered to "*...my spirit...(Shaad: 38:72)* "*Enter all of you into hell with the jinn and humans who went before you...(Al A'raaf: 7:38)*

IF MY SPIRIT ENTERS PARADISDE, THEN PARADISE'S PLACE IS NOT FAR FROM THE TOMB

Now, because "*...paradise whose breadth is as wide as the heavens and the earth...(Ali 'Imran: 3: 133)* is above the expanse of the room or the sky above which there is earth, then actually paradise is also above the expanse of the room or sky. That is, paradise and earth are in one place above the expanse of the room or sky.

Well, because paradise is on our earth, then paradise is actually located not far from the grave. Because paradise is near the grave, so hell is near paradise.

So, now, if people want to know where paradise and hell are located, then look near the graves wherever there are graves.

Only problem is, humans can't see paradise and can't see hell. Because paradise and hell are unseen. That is, heaven and hell exist in the area of the electromagnetic spectrum below 430 nanometers and in the area of the electromagnetic spectrum above 740 nanometers.

Whereas the human eye can only see in the electromagnetic spectrum region between 430 and 740 nanometers. *"And We made a wall before them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36:9)*

Now, it has been revealed, that in fact the location of paradise and hell is near human burial places, because indeed *"...paradise is as wide as the skys and the earth... (Ali 'Imran: 3: 133)* that means, paradise is above the expanse of the room. or the sky above which is earth and paradise.

CONCLUSION

Based on the description above, we can conclude that the secrets that are hidden behind the verse: *"...paradise whose breadth is as wide as the skys and the earth... (Ali 'Imran: 3: 133)*

Well, it turns out that paradise is actually above a stretch of room or what is called the sky where the earth and other planets are above it. Or in other words, the area of the room or sky above which there is the earth and other planets.

So paradise is above the room as the earth is above it.
