ABSTRACT

First of all, by asking forgiveness from Allah SWT, here I am trying to reveal the signs of Allah's greatness regarding heaven and hell will be lost, but why did Allah also create paradise and hell, judging from the photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA). ).

There are several verses that become Allah's secret unlocking tool about paradise and hell will be lost, but why did Allah also create paradise and hell, namely the verses:

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and hearts; you are very little grateful. (As Sajdah: 32: 9)*

*"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"And for every human being We have fixed his deeds on his neck. And We will bring out for him on the Day of Resurrection a book which he finds open. (Al Israa ': 17:13)*

*"Read your book, it is enough for yourself at this time as a remembrance against you." (Al Israa ': 17: 14)*

*"Thus We have revealed to you the Qur'an in Arabic, so that you warn the people of Qura and the people around them and warn about the day of gathering in which there is no doubt. A group will enter Paradise, and a group will enter Hell. (Ash Shuura : 42: 7)*

*And We said: "O Adam, dwell in this paradise for you and your wives, and eat from its abundant good food wherever you like, and do not approach this tree, which causes you to be of the wrongdoers. (Al Baqarah: 2:35)*

*"The paradise of 'Adn which they enter into, rivers flow under it, in that paradise they will find everything they want. Thus Allah will reward those who are pious, (An Nahl: 16: 31)*

*"In Paradise there will be a lot of fruit for you, some of which you eat. (Az Zukhruf: 43:73)*

*"Enter you into heaven, you and your wives will be rejoiced." (Az Zukhruf: 43:70)*

*"Those who were earlier, were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises in which rivers flow forever. They stay in it. That's a big win. (At Taubah: 9: 100)*

*"When the sun is rolled up, (At Takwiir: 81: 1)*

*Allah said: "Enter all of you into hell with the jinn and humans who went before you. Every time a people enter, he curses his friend; so that when they all enter say those who enter later among them say to those who entered earlier: "Our Lord, they have led us astray, so bring upon them a double torment from hell." Allah said: "Each one gets a double, but you do not know." (Al A'raaf : 7:38)*

*"And verily We made for Hell most of the jinn and humans, they have hearts, but they do not use to understand and they have eyes they do not use to see, and they have ears they do not use to hear. They are like cattle, they are even more astray. They are the ones who are negligent. (Al A'raaf: 7:179)*

*"And if We had willed, We would have given every soul guidance, but the word has remained from Me: "Indeed, I will fill the Hell with jinns and humans together." (As Sajdah: 32:13)*

*"Allah, there is no god but He Who Lives eternally and continually takes care of; neither sleeps nor sleeps. To Him belongs what is in the heavens and the earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they know nothing of Allah's knowledge except what He wills. Allah's seat covers the heavens and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Merciful. Great.(Al Baqarah: 2:255)*

*"Their faces will be burned by the fire of hell, and they will be in that hell in a crippled state. (Al Mu'minun: 23:104)*

In an effort to open the veil of Allah's secret about paradise and hell will be lost, but why Allah created paradise and hell too, I use the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that paradise and hell will disappear, but why did Allah also create paradise and hell, because only Allah is eternal, judging from the basic point of Deoxyribonucleic acid (DNA)

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that form a double helix and which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5-carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PARADISE AND HELL AND EVERYTHING IN IT WILL BE GONE, AFTER THE NUCLEAR POWER THAT HOLDS THE QUARK IN THE ATOM IS GONE**

Now, we are still focusing all our minds on uncovering the secrets that are hidden behind the verse: *"Those who were earlier again were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with them. to Allah and Allah has prepared for them gardens in which rivers flow for ever and ever. They are eternal in it...(At Taubah: 9: 100)*

It turns out that all who enter paradise *"...They are eternal in it...(At Taubah: 9: 100)*

Now, the question arises

How long is the so-called "*...they are eternal in it...(At Taubah: 9: 100) ?*

Well, it turns out, because paradise and hell and their inhabitants are built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then these atoms will not last forever, these atoms have a limited life.

Hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will be lost when the nuclear energy holding the quarks in the atoms is lost. According to human calculations, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will disappear, returning to God's energy, after reaching the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

But, why did Allah declare that "*...They will abide in it...(At Taubah: 9: 100)?*

The answer is,

It is hidden in the secret behind the verse: "*Allah, there is no god but He Who is eternally alive and continuously takes care of... (Al Baqarah: 2:255)*

Well, it turns out that "*...He Who is eternally alive ... (Al Baqarah: 2:255)* is Allah.

So, actually what is declared "*...Allah has provided for them paradises where rivers flow in them...They are eternal in them...(At Taubah: 9: 100)* is eternal according to human reckoning with a period of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

## **WHY ALLAH CREATED PARADISE AND HELL WHEN PARADISE AND HELL DON'T ETERNALLY**

Well, paradise and hell were created because Allah created humans, angels, jinn, devils and devils.

Humans, angels, jinn, devils and devils because they live in this world, after they die, will be rewarded, until the time when paradise and hell are gone.

Actually, the purpose of life is not to enter paradise, but "*... Allah is pleased with them and they are pleased with Allah and Allah has provided for them paradises in which rivers flow forever... (At Taubah: 9: 100)*

## **CONCLUSION**

Based on the description above, we can conclude that the secrets that are hidden behind the verse: "*Those who were earlier again were first from the emigrants and the Ansar and those who followed them well, Allah is pleased with them and they are pleased with them. to Allah and Allah has prepared for them gardens in which rivers flow for ever and ever. They are eternal in it...(At Taubah: 9: 100)*
