## ABSTRACT

First of all, by asking Allah's forgiveness, here the author tries to reveal the signs of Allah's greatness regarding Allah's secret regarding the date of birth of Prophet Muhammad saw as a milestone in the year of hijrah, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

The signs of Allah's greatness regarding Allah's secret regarding the date of birth of Prophet Muhammad saw as a milestone in the year of hijrah, namely in the following verses:

*"Why do you not want to fight in the way of Allah and the weak men, women and children who all pray: "Our Lord, get us out of this land that is unjust and give us protection from the side. You, and give us help from Your side!" (An Nisaa ': 4:75)*

*"Do not pray in the mosque forever. Indeed, a mosque which was founded on the basis of piety (the Quba mosque), from the first day it is better for you to pray in it. In it there are people who want to clean themselves. And verily Allah loves those who are clean.(At Taubah: 9:108)*

*"Those who follow the Messenger, the unmistakable Prophet whom they found written in the Torah and the Gospel which is with them, who commands them to do what is right and forbids them from doing what is evil and makes lawful for them all that is good and makes unlawful things. for them all that is bad and remove from them the burdens and shackles that are on them. So those who believe in him, glorify him, help him and follow the bright light that is sent down to him, they are the lucky ones. ( Al A'raaf : 7:157)*

*"Read in the name of your Lord Who created, (Al 'Alaq: 96: 1)*

*"He has created man from a clot of blood. (Al 'Alaq: 96:2)*

*"And warn your closest relatives (Asy Syu'araa': 26: 214)*

*"So convey openly what you are commanded and turn away from the polytheists. (Al Hijr: 15: 94)*

In an effort to unmask the greatness of Allah SWT regarding the birth date of Prophet Muhammad saw as a milestone in the year of hijrah, the author uses the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

## HYPOTHESIS

Here the author hypothesizes that the date of birth of Prophet Muhammad saw was a milestone in the year of the hijrah, because Prophet Muhammad saw emigrated, entered Medina, on the 12th of Rabi'ul Awwal, coinciding with the year 622 AD, in Medina, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA). )

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that form a double helix and

which contains polynucleotide macromolecules arranged in repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARK

If we want to know quarks, then we consider one of the hydrogen atoms that is the building block of the human body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## THE BIRTH DATE OF PROPHET MUHAMMAD SAW BECOME A MILESTONE OF THE HIJRAH YEAR

Now, we are still trying to focus our minds in order to reveal the secret contained behind the verse: *"...the weak men, women and children who all pray: "Our Lord, bring us out from this unjust land, and give us protection from Your side, and help us from Your side!" (An Nisa' : 4:75)*

Apparently, Allah has declared *"Our Lord, get us out of this land of wrongful inhabitants and give us protection from Your side, and give us help from Your side!" (An Nisa' : 4:75)*

Well, this incident was an incident in the last moments of Prophet Muhammad saw leaving Mecca for Medina, to continue delivering Allah's commands to all mankind, *"... convey by you openly all that was ordered and turn away from people - people who are polytheists. (Al Hijr: 15: 94)*

Well, it turns out, before Prophet Muhammad saw set foot in Medina, a mosque was built in Quba.

Where is this mosque in Quba, it has been declared by Allah: *"...Indeed, a mosque built on the basis of taqwa (the Quba mosque), from the first day it is better for you to pray in it. Inside the mosque there are people who want to clean themselves. And verily Allah loves those who are clean. (At Taubah : 9:108)*

Well, after the Prophet Muhammad saw finished building a mosque in Quba, coinciding with Friday, the 12th of Rabi'ul Awwal, the Prophet Muhammad entered Medina.

Once he arrived in Medina, Prophet Muhammad saw built a mosque called the Prophet's Mosque, this mosque was used as the home, place of worship and the last resting place of Prophet Muhammad saw.

Apparently, the secret was revealed, why did Prophet Muhammad saw on Friday, the 12th of Rabi'ul Awwal, enter Medina?

The answer, because the 12th of Rabi'ul Awwal is the birthday of Prophet Muhammad saw, to remind people that to remember something that will become a milestone, is to remember the date of birth.

That is what Prophet Muhammad saw did when he first set foot in Medina, coinciding with the birthday of the Prophet Muhammad, 12 Rabi'ul Awwal 1 Hijrah.

Well, then we dismantle the secret behind the verse: *"Read in the name of your Lord Who created (Al 'Alaq: 96: 1)" He has created man from a clot of blood. (Al 'Alaq: 96:2)*

Apparently, from the first Jibril revealed *"Read in the name of your Lord Who created (Al 'Alaq: 96: 1) "And warn your closest relatives (Asy Syu'araa': 26: 214) "... convey it to you openly everything that is commanded and turn away from the polytheists.(Al Hijr: 15: 94) "...all pray: "Our Lord, get us out of this land that is unjust and give us protection from You, and give us help from Your side!" (An Nisaa ': 4:75)*

Up to the milestone on the 12th of Rabi'ul Awwal, the birthday of Prophet Muhammad saw, coinciding with the year 622 AD, in Medina, Prophet's Mosque was established, a mosque that became a house, a place of worship, the seat of the first Islamic government in the world, and the last resting place of Prophet Muhammad saw.

## CONCLUSION

From what has been described above we can now conclude that the secret contained behind the verse: *"...the weak men, women and children who all pray: "Our Lord, bring us out from this unjust land, and give us protection from Your side, and help us from Your side!" (An Nisa' : 4:75)*

Apparently, Allah has declared *"Our Lord, get us out of this land of wrongful inhabitants and give us protection from Your side, and give us help from Your side!" (An Nisa' : 4:75)*
